📆 LESSON : The Perfect Posting Plan — Strategy, Timing & Repurposing

If you want to **grow fast** and build a real audience around your storytelling videos, consistency beats perfection.
This lesson gives you a **proven plan** to post, grow, and scale your content efficiently — starting with **one platform only.**

🎯 STEP 1 — Focus on ONE Platform (First 30 Days)

Before you try to go viral everywhere…
⚠️ **Focus on one platform** to master what works:

- If you prefer short, viral videos → **TikTok**
- If you prefer evergreen traffic & monetization → **YouTube Shorts**
- If you want a mix of both + visual branding → **Instagram Reels**

👉 **Choose one**. Stay there for 30 days. Don't repurpose yet.
Your goal: **find your winning story format.**

🕑 STEP 2 — Best Time to Post

🧠 General Rule:

Post when your audience is scrolling, not working.
Here's the **tested posting schedule** (local time):

DayBest TimeSecondary TimeMonday12 PM8 PMTuesday6 PM9 PMWednesday12 PM8 PMThursday6 PM9 PMFriday12 PM10 PMSaturday11 AM7 PMSunday10 AM6 PM

💡 *Most viral videos are posted between **6 PM and 10 PM**, when people relax and scroll.*

📆 STEP 3 — Frequency of Posting

🔥 **Minimum:** 3 videos per week
⚡ **Ideal for growth:** 1 video per day
🏆 **Aggressive scaling:** 2 videos per day (short form)

Structure Example:

- 🧠 Monday → Educational / Historical Fact Story
- 💔 Wednesday → Emotional / Betrayal Story
- ⚔️ Friday → Shocking / Dark History Story
- 🌍 Weekend → Recap or compilation video

✅ The more consistent you are, the faster the algorithm learns your audience.

♻️ STEP 4 — Repurpose Strategy (After 30 Days)

Once you get **one viral hit or steady engagement,** start repurposing:

1. **Take your best-performing videos** (top 3 by views or watch time).
2. **Resize and re-caption** for other platforms:
    - TikTok → **Instagram Reels** & **YouTube Shorts**
    - Add subtitles using **CapCut** or **Submagic**
    - Change music or filter slightly to make it "new" to each algorithm.
3. **Use the same caption, hashtags, and CTA** from your winning formula.
4. Track which platform gives better engagement — double down there.

🧭 Final Tip

Don't chase platforms — **chase momentum.**
Once one video format works, keep it the same — only change the **story**.

Then, when you're getting **consistent results,** move to the next platform and **repurpose systematically**.

🎯 **Focus. Test. Scale. Dominate one platform at a time.**
