

Google Nano Banana Pro Prompt Guide

Google Nano Banana Pro is the most precise, controllable, and instruction-following image models so far. With strong prompt adherence, text rendering, camera control and deep world understanding, it is capable of executing and generating complex logic, detailed compositions, and ultra-clean photo edits with high consistency.

Leverage Nano Banana Pro as a Powerful AI Tool

Yet if you want to leverage Nano Banana Pro as a powerful AI image generator and an AI image editor, you need to create structured basic and detailed prompts that will give you visually striking, and high-quality outputs.

What This Guide Covers

This prompt guide covers two major areas:

- how to write effective Nano Banana Pro prompts
- a collection of 75+ ready-to-use prompt templates for 10 advanced Nano Banana Pro use cases

How to write Google Nano Banana Prompts

Basic Nano Banana Pro Prompts

Make sure you include these 6 factors in your basic prompts for Nano Banana Pro:

1

subject

Who and what in the image, for example, a bartender

2

composition

Camera movements, scene shots and framing like low angle shot, close-up, wide shot

3

action

What is happening in the image, for example, working out, eating mortadella, etc or timeline, diagram etc.

4

setting/location

where is the scene taking place, for example, roadside gym, kitchen in golden hour, futuristic cafe

5

style

the art type, the look and feel like realistic, product shoot, oil painting, scribble or line art, film scene, group photo

6

editing instructions

For image prompts and image remixing, give direct and specific instructions like replace the background, change the interior decor, etc.

Detailed Nano Banana Pro Prompts for Advanced Use Cases

Enhance your images by adding these factors in your nano banana prompts

aspect ratio

this is the canvas size like vertical diagram in 3:4, 1:1 square shot, etc.

camera lens, shadow and lighting details

here you get a change to direct your image with details like f/1.8, long shadows, natural daylight, muted warm tones, etc.

text rendering

actual text in inverted commas and its placement, typography style like bold, italic, display style in the top left corner

factual details

topic and scientific details like coffee beans, or recipe of 7 Treasure Tea

reference inputs

mark the role of each input image for character, style, environment, background, etc.

75+ Nano Banana Pro Prompts to Try Today

A. Product Photography Prompts

1. Show this [gold necklace] on a sandy beach with gentle morning light and soft shadows, seashells scattered nearby.
2. Add a soft boho-style living-room background behind this [linen tote bag], with warm sunlight, rattan textures, and neutral beige tones.
3. Place this [running shoe] on a premium 3D podium with soft studio lighting and a subtle shadow beneath it.
4. Show this [shower gel bottle] submerged in clear turquoise ocean water, with caustic light reflections shimmering on the surface.
5. Transform this [perfume bottle] into a luxury cosmetics-style ad with glossy highlights and a reflective black background.
6. Place this [skincare cream jar] on a marble countertop with natural window light and soft depth of field.
7. Create a clean ecommerce-ready white background for this [pair of sunglasses], with crisp shadows and high realism.
8. Place this [smartwatch] inside a futuristic CGI environment with neon accents, chrome reflections, and glowing floor lights.
9. Show this [coffee mug] on a sandy beach with a small palm leaf shadow and soft golden-hour lighting.
10. Add a dramatic spotlight behind this [leather wallet] with a smoky gradient atmosphere for a premium hero-shot look.
11. Turn this [lipstick] into a floating hero-shot with suspended particles and a minimal monochrome backdrop.
12. Place this [chef's knife] in a top-down flatlay with matching kitchen props, wooden textures, and balanced color harmony.
13. Put this [bracelet] on a velvety jewelry display with soft side lighting and macro-level detail clarity.
14. Show this [handbag] on a street-style fashion background with blurred pedestrians and warm sunlight.
15. Place this [bottle of serum] beside glowing laboratory glassware for a science-backed skincare ad look.

B. Manga and Anime Prompts

1. Create a manga of these characters and show the stand off between Messi and Ronaldo.
2. A high-impact, comic-style mega-mashup of iconic meme figures collaboratively driving an action-packed, retro-vibe crossover scene.
3. A dynamic and intense close-up portrait in a graphic novel or comic book art style, featuring a male character with long, dark, slightly messy hair and a short beard, wearing a suit and tie. His eyes are glowing with furious, stylized yellow energy or smoke, extending outwards. His expression is one of extreme anger, determination, and pain, with gritted teeth and visible facial scars or distress. Dominating the image is a bold, bright red "X" drawn over his face, extending from corner to corner of the frame, symbolizing danger, a target, or a "no entry" warning. The artwork is characterized by strong, confident black ink lines, high contrast, and a gritty, textured, almost sketched quality. The color palette is stark: black, white, red, and vibrant yellow for the eyes, on a clean white or light grey background.

C. AI Photo Editing Prompts

Background Replacement

"Replace the background of this subject with a realistic urban sunset skyline, maintaining proper shadows and ambient light interaction with the subject."

Color Grading & Mood

"Apply a moody, cinematic teal-and-orange color grade to this outdoor scene, increasing contrast, enhancing sunlight highlights, and deepening shadows."

Object Removal / Cleaning

"Remove all background distractions from this photo, including wires, litter, and signs, while seamlessly blending the surrounding environment."

Style Transfer

"Transform this photo into a hyper-realistic painting style reminiscent of Rembrandt, preserving facial features and textures but adding dramatic lighting and brushstroke textures."

Portrait Retouching

"Enhance this portrait by smoothing skin, brightening eyes, whitening teeth, and adding soft cinematic lighting, while keeping natural textures and avoiding plastic-like effects."

Creative Composition

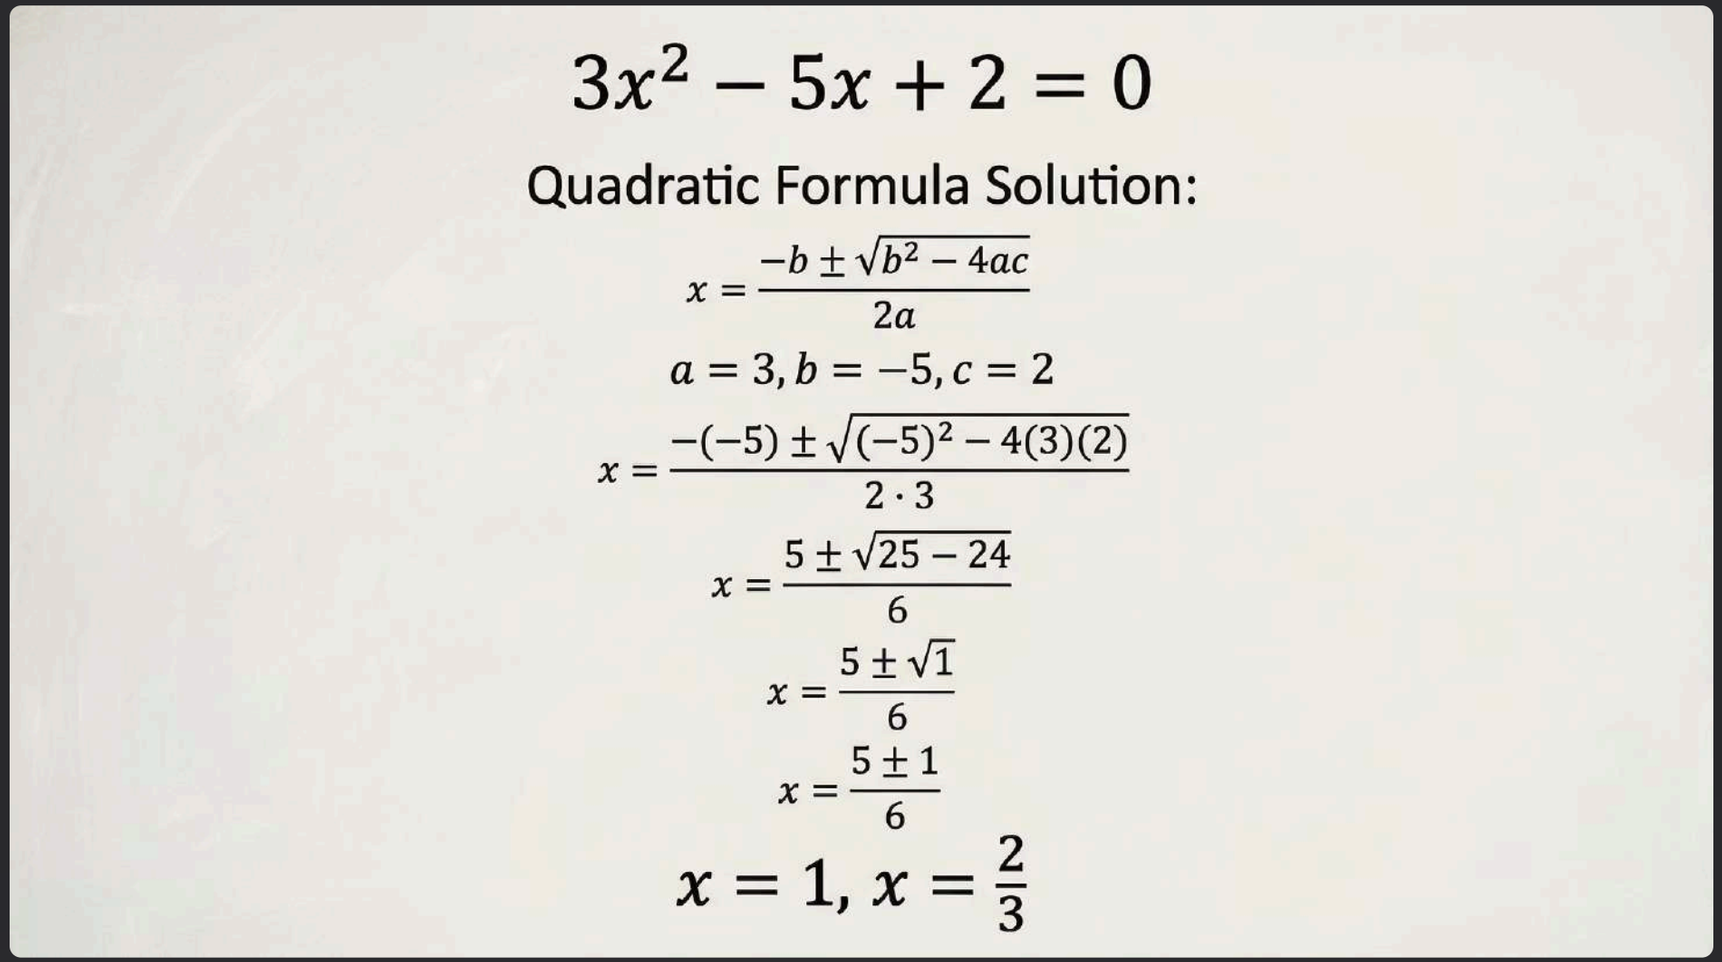

the girl is holding her georgian passport to her face with all the clear details of passport and taking mirror selfie, her name is sassy maria

D. Logic Prompts

1. An image of an office where 10 different people are neatly arranged (2 in the front row, 3 in the middle row, 5 in the back row), each holding a unique object whose name starts with the letter 'A'.
2. Show 5 students, each wearing glasses with a different frame color, holding books where the number of letters in the title matches the Fibonacci sequence in order.
3. Illustrate 6 people, each holding a different coin, where the combined value of any three coins equals a prime number.

E. Math and Reasoning Prompts

1. A multi-step logical deduction puzzle solving "If A implies B and B implies C, does A imply C?" shown on a chalkboard with arrows, symbols, and tidy reasoning.
2. A symbolic algebra breakdown solving the equation $3x^2 - 5x + 2 = 0$ using the quadratic formula, each transformation written cleanly in sequential steps.
3. A structured reasoning diagram proving why the sum of the first *n* natural numbers equals n(n+1)/2, with numbered steps, geometric interpretation, and final boxed answer.

F. Branding Identity Prompts

1. Create a full branding set for this logo
2. Create a complete brand identity kit for a modern tech startup named "Jenova Systems," including logo variations, color palette, typography system, icon set, pattern language, and layout rules. The style should be clean, futuristic, minimal, and consistent across all assets.
3. Generate realistic brand mockups for this "AstraLoop Studio" logo applied to a business card, letterhead, notepad, envelope, and ID badge. Use premium materials, soft shadows, and a clean studio aesthetic to convey a polished corporate identity.
4. Develop a full visual brand identity system for "FluxBeam Labs," including logo clear-space rules, do/don't usage, brand patterns, grid system, color variations, and sample branded layouts for web + print. Style direction: geometric, energetic, and tech-forward.
5. Create high-resolution mockups showing the "Skyline Robotics" brand logo and tagline applied to neon signage, packaging boxes, stickers, a hoodie, a coffee mug, and a laptop decal. Visual tone: youthful, modern, bold, and startup-friendly.

G. Content Creation Prompts

1. Generate a 9-image 'photo dump' grid of this person's vacation: a mirror selfie, a beach shot, friends at dinner, a blurry party photo, a scenery shot, a public bus shot, a pet moment, a sunset, and a candid smile.
2. Johnny Depp, jackie Chan, Taylor Swift, Tom hanks, the rock, Micheal Jackson, Shahrukh Khan, Oprah, Blackpink, Messi, Elon Musk, taking a group photo
3. Make 100x zoom on the bee
4. Make a 100 dollar bill of this person
5. Make a GTA 6 poster of these characters

H. UI/UX and Web Page Design Prompts

01

Tech Blog Homepage

Design a clean, modern homepage for a tech-focused blog website. Use a minimalist layout with a full-width hero section at the top, including the brand logo in the top-left, a navigation bar with "Home, Categories, About, Contact," and a central headline with a subheadline. Use sans-serif typography (Inter / Satoshi). Include three featured article cards with thumbnails, titles, category tags, and short summaries. Add a prominent CTA button labeled "Read Latest Insights" below the hero text. Footer should contain social icons, newsletter signup field, and minimal copyright text. Maintain generous white space and soft shadows for a premium editorial feel.

02

Product Launch Page

Create a modern, high-conversion webpage introducing new product releases. Place the company logo in the top-left and a thin navigation bar across the top. Use a bold headline such as "Introducing Our Newest Innovations," centered over a clean hero banner with one featured product in the spotlight. Below, create a 3–4 column grid of product cards with crisp images, product names, short feature bullets, and a "View Details" CTA on each card. Use a geometric sans-serif font for headlines and a clean grotesk for descriptions. Maintain consistent spacing, soft gradients, and subtle drop shadows. Add a sticky CTA bar at the bottom with "See All Products." Footer should include links, FAQ, and contact information.

03

Luxury E-commerce Page

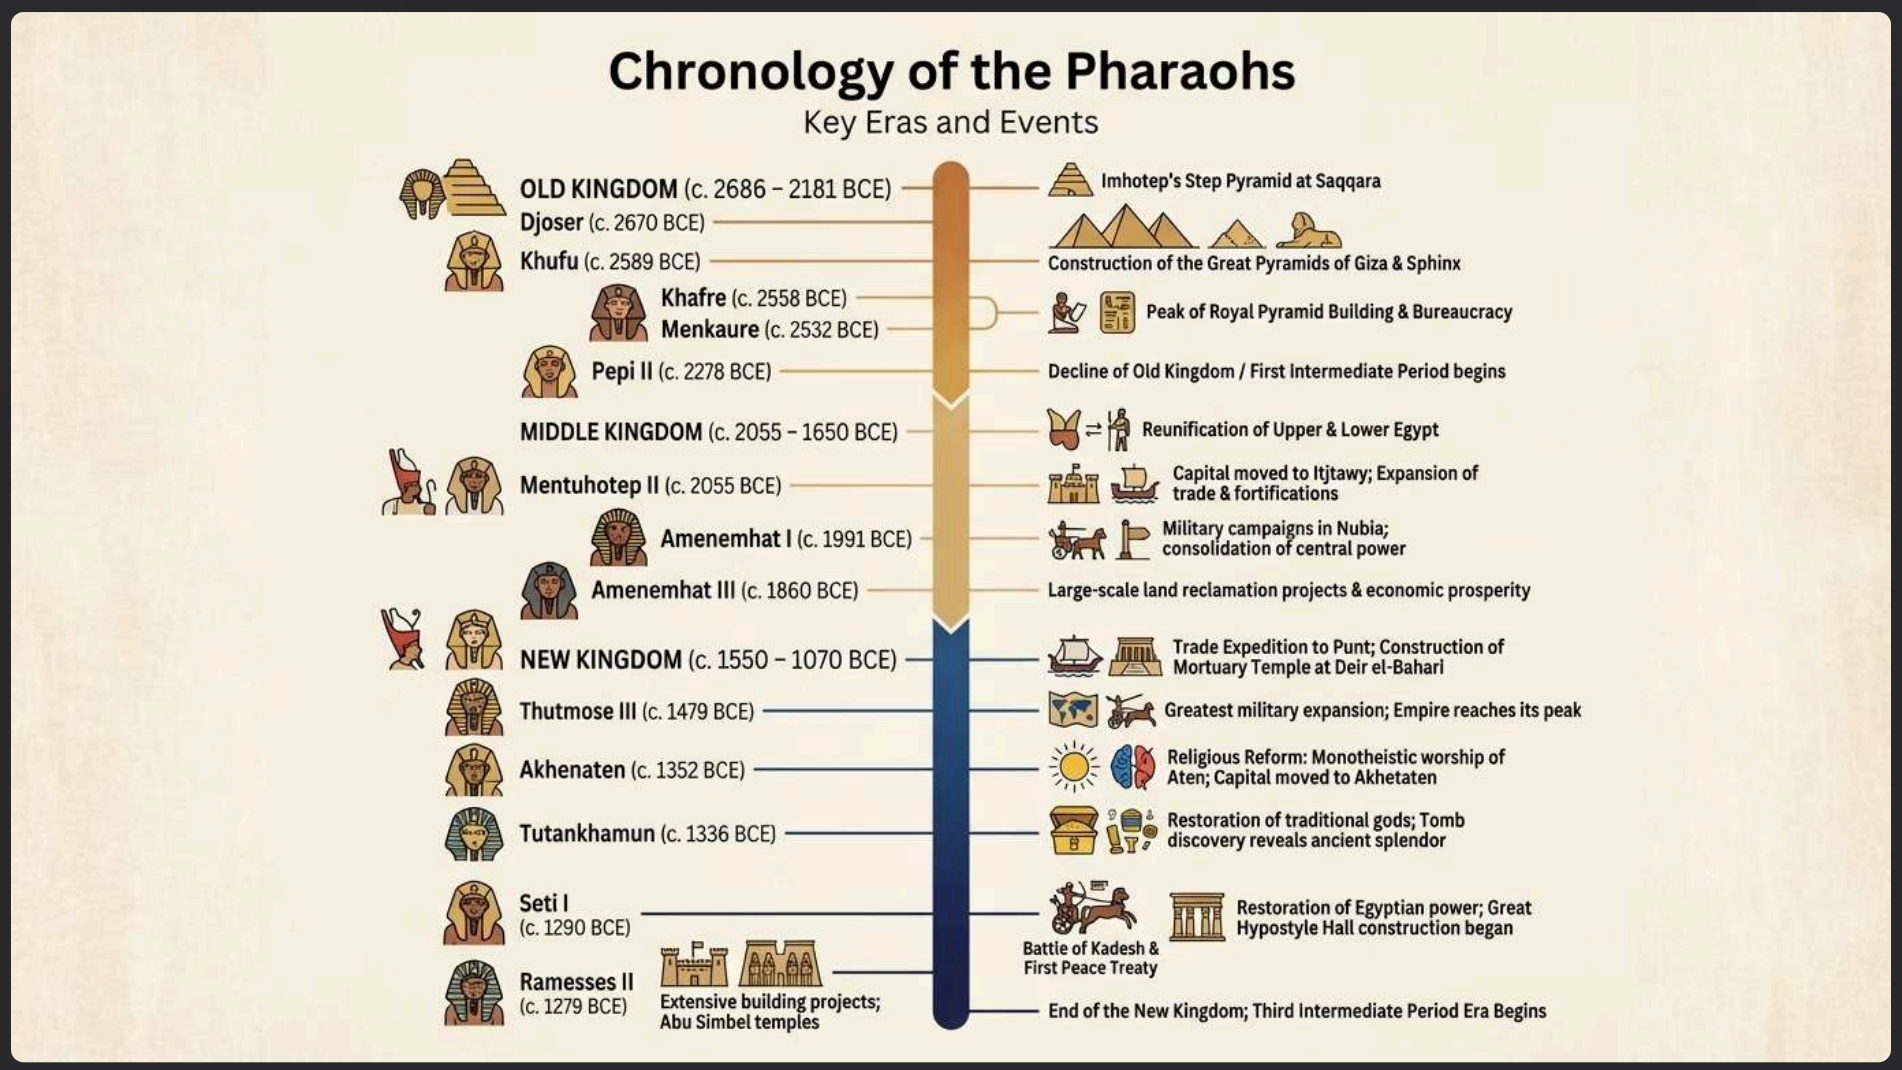

Design an elegant e-commerce product page for a high-end jewelry brand. Use a serif font for headings (Playfair / Cormorant Garamond) and a refined sans-serif for body text. Place the brand logo centered at the top with a thin black navigation bar beneath it. Include a large hero section showcasing a single premium jewelry piece on a soft neutral background, with a vertical layout: product image on the left, product name + price + "Add to Cart" button on the right. Add thumbnails of alternative angles below the main image. Include sections for product details, materials, authenticity, and customer reviews. Use gold or champagne accents for CTA buttons. Footer should contain store policies, customer care, and newsletter signup. Maintain a clean, luxury aesthetic with high spacing and delicate typography.

04

Car Service Landing Page

Create a bold, high-trust landing page for a car service and repair shop. Use strong, clean typography (Montserrat / Bold geometric sans). The header should include the logo on the left and a bold CTA button "Book Service" on the right. Hero banner: a full-width image of a car in a workshop, with a headline like "Reliable Car Service You Can Trust" and a subheadline beneath it. Include a phone number and quick-booking button directly under the headline. Below the hero, add three service feature blocks (Diagnostics, Engine Repair, Tire Replacement) with icons and short descriptions. Add a pricing table section with three tiers. Use dark greys, steel blues, and yellow accents to match automotive themes. Footer should include opening hours, location map, contact details, and certification badges.

I. Infographics Prompts

1. Create a clean, modern vertical timeline infographic illustrating the major milestones of AI evolution from 2010 to 2025. Use a white background, thin grey dividers, and circular markers for each year. Include minimal icons, short text blocks, and smooth gradient accents in blue. Ensure the layout is symmetrical, evenly spaced, and visually balanced, with a bold header at the top reading "Evolution of AI: 2010–2025."
2. Generate a summary-style infographic titled "2025 Marketing Insights Overview." Use four large rectangular sections, each with an icon, a bold title, and 2–3 bullet points. Maintain a pastel color palette (muted blues, greens, corals). Keep typography clean and modern, using bold headers and light-body text. Add subtle dotted patterns and clean left-aligned layouts for readability.
3. Design a structured infographic showing "5 Steps of B2B Content Marketing Analysis." Arrange the steps in a horizontal zig-zag or ladder-style format. Each step includes: a large number label, a strong icon, and a two-line description. Maintain a corporate aesthetic: navy, cobalt, and white palette with geometric shapes. Add a footer bar with "Source: ImagineArt Research."
4. Create a visually engaging infographic showcasing survey results titled "What Consumers Expect from AI Tools in 2025." Include: A large header section, Three bar charts, Two pictogram-style percentage visuals, Small illustrations of users interacting with AI devices. Use bright colors, rounded shapes, and friendly minimal icons. Keep overall layout organized and data-heavy but clean.
5. Design a medical-themed infographic titled "5 Essential Tips for Lung Health." Use hospital-style minimal visuals: clean white background, soft blue accents, thin teal icons, and a human lung illustration at the top. Include sections like: "Avoid Smoking," "Exercise Regularly," "Improve Indoor Air," "Stay Hydrated," and "Get Regular Checkups." Use soft shadows and high readability.
6. Create a sustainability infographic titled "10 Ways to Reduce Your Carbon Footprint." Use earthy greens, warm beige, and natural leaf illustrations. Display information in numbered circles arranged in a grid. Include small eco-icons (leaf, water droplet, recycling, solar panel). Add a footer section showing a simple "impact score" chart. Use textured, organic shapes to reinforce the eco theme.

J. Floor Plan to Interior Visualization

1. Make a realistic image of this floor plan
2. Create a clean, top-down 2D floor plan for a small one-bedroom apartment. Include: living room, bedroom, kitchen, bathroom, and a small balcony. Use thin black outline walls, light gray interior fill, and clearly labeled rooms. Keep proportions realistic but simple.
3. Generate a minimal 2D office floor plan with: a reception area, 2 meeting rooms, 1 open workspace with 8 desks, a break area, and a storage room. Use clean grid alignment, soft pastel color coding for each zone, and readable room labels.
4. Create a top-view floor plan for a small coffee shop. Include: entrance, counter area, espresso station, pastry display, seating area with 6–8 tables, and a back kitchen. Use modern cafe-style icons, thin outlines, and clear labels for each area.

K. Image to Image Prompts

Dramatic Group Shot

A dramatic ultra-wide, low-angle group shot taken from ground level looking straight up (worm's-eye view / bottom-up perspective). The camera is placed almost on the floor, pointing vertically toward the sky. A group of 6–8 people form a loose circle around the camera, leaning in and looking directly down into the lens as if they just discovered it on the ground. Their faces and hands are close to the lens, creating a slightly stretched, fisheye effect. Some people are reaching toward the camera with their hands, pointing, waving, or making playful hand signs. Others are laughing, smirking, or making bold, expressive faces. The mood is energetic, carefree, rebellious, fun, street-style and Gen-Z coded. The sky above should be clear blue and occupy the center of the composition. Buildings or walls should appear slightly on the edges, framing the circle of faces. Style:– Use a wide-angle / fisheye lens (10mm–14mm)– Strong foreground distortion on hands + faces– Bright, saturated colors– High contrast, punchy sunlight– Slight overexposure on skin highlights– Crisp detail, high shutter speed to freeze motion Posing direction for people:– Lean in toward the camera– Crowd the frame– Use bold hand gestures– Tilt heads at different angles– Make it playful / chaotic / dynamic Overall vibe: Y2K, street fashion, festival energy, skateboard / hip-hop / creative youth culture

Emotional Album Art

A highly detailed, layered, and conceptual digital illustration, inspired by emotional pop music album art. The overall color palette is dominated by various shades of blue and white, with contrasting hints of darks. The central focus is a powerful, upward-gazing portrait of a young individual's face (either male or female, specify if desired) with their mouth slightly open, a look of longing, ecstasy, or deep emotion, and light blue or piercing eyes. Their dark hair cascades around them. Above this main portrait, a full-body figure of the same individual is depicted in a dynamic pose, reaching upwards, surrounded by swirling, ethereal clouds or smoke, as if ascending or expressing freedom. This figure is wearing casual, baggy clothing (e.g., hoodie, loose pants) with a logo or text on the shirt (e.g., "BILLIE EILISH" style, or a placeholder). Numerous small black birds fly upwards in the background towards a distant, slightly ajar door in the sky. Below the main portrait, a third, smaller figure of the same individual is shown lying back languidly on a simple chair, looking upwards, in a state of rest or contemplation. Large, stylized, ethereal text or lyrics are integrated throughout the composition, subtly fading in and out, spelling phrases like "I love you 'til the day that I die" and "when the light leaves my eyes." The typography should be evocative and flow with the artwork. The overall style is modern illustration, rich in texture and emotional depth, with dreamlike and symbolic elements.

Winter Holiday Scene

The scene features a cozy winter setting with a snow-covered landscape. The main subject, whose appearance must remain 100% identical to the reference image (including makeup, expression, and details) is a woman sitting on the hood of a classic vintage red car, decorated with a festive Christmas wreath. The person wears a fluffy, beige fur coat, a white sweater underneath paired with off-white pants, and cozy boots. The person wears soft red earmuffs adorning their head. Behind the subject, there is a stack of gift boxes wrapped in Christmas paper and a small Christmas tree decorated with ornaments and baubles. The background is filled with snow-covered trees and soft twinkling lights, adding to the holiday atmosphere. The person has a subtle smile, exuding in this festive scene.Facial Constraint: Use the attached reference image. Maintain 100% identical appearance as in the reference image, and their face must be preserved with 100% accuracy, ensuring that every detail is identical to the reference image.

Sketch Style Portrait

Create a photo-style line drawing / ink sketch of the faces identical to the uploaded reference image — keep every facial feature, proportion, and expression exactly the same. Use blue and white ink tones with intricate, fine line detailing, drawn on a notebook-page style background. Show a right hand holding a pen and an eraser near the sketch, as if the artist is still working.

L. Text Rendering Prompts

1. Render the word "IMAGINE" in 3D block letters with metallic gold texture, soft shadow, and high-resolution, centered on a clean white background.
2. Display the phrase "AI CREATIVE POWER" using a futuristic sans-serif font, neon cyan glow, subtle reflections on a dark gradient background, emphasizing clarity and letter spacing.
3. Create a motivational quote: "Creativity is intelligence having fun." Use hand-lettered calligraphy with flowing curves, ink texture, and watercolor background with soft gradients.
4. Design the text "Higgsfield AI" integrated with a looping S-curve symbol, glowing neon green accents, shadowed high contrast, suitable for digital and print display.
5. Render a data chart with headings, labels, and percentages ("Revenue 2025: 42%", "Growth: 18%", "User Engagement: 76%"), each label styled consistently in legible modern sans-serif, with realistic depth, shadows, and clean visual hierarchy.
