Store Setup & the Shrine *Theme*

Section 11 covered the strategy: when to build, what the store needs to do, and how the supplier loop works. **This is the build itself.** Two YouTube walkthroughs plus the Shrine theme files you will use.

The walkthrough videos

WALKTHROUGH · VIDEO ONE

Shrine theme store setup, part one.

The hands-on Shopify + Shrine theme build. Follow it tap for tap with your own store open in another tab. **Pair it with Module 11.2 (the product-page essentials) so you know what you are placing as you go.**

WALKTHROUGH · VIDEO TWO

Shrine theme store setup, part two.

The follow-up walkthrough. Watch both videos through once before you start building, then run through them again with your store open and build as you go.

The theme files

FREE DOWNLOAD

Shrine theme zips.

The actual Shrine theme files used in the walkthrough videos. Open the Google Drive folder, download the zip, then upload it to your Shopify store as instructed in the videos. **Free, no setup tax.**

IF YOU GET STUCK

Watch the videos through first. Most questions answer themselves on a second pass. **If you are still stuck, DM me, or paste the question into Claude** with a description of what you were doing and what is not working. Between the videos, the theme files, Section 11, and Claude, every issue is solvable.
