Scene 1

Create an ultra-realistic surreal haute couture fashion editorial scene with cinematic cloudscape realism and premium luxury-magazine atmosphere. If a model reference image is uploaded, preserve the exact same facial identity, asymmetry, body proportions, skin tone, eye shape, jawline, hairline, and realism from the uploaded reference image without reinterpretation. If no model reference is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and non-AI facial structure. SCENE DESIGN: - model standing and walking naturally through massive soft clouds - endless cloudscape surrounding environment - dreamy atmospheric sky - soft blue sky with warm cloud highlights - cinematic floating-above-the-clouds atmosphere - luxury surreal fashion worldbuilding - emotionally calm editorial mood - tactile atmospheric realism - premium magazine-cover energy - dreamlike but physically believable environment COMPOSITION: - full-body centered composition - vertical fashion-editorial framing - model emerging naturally from clouds - layered cloud depth in foreground and background - immersive atmospheric perspective - cinematic scale and depth - balanced negative space - realistic environmental hierarchy - subtle asymmetry in pose and framing - premium haute couture composition MODEL: - calm confident expression - relaxed couture posture - natural body tension - realistic anatomy and proportions - authentic facial asymmetry - subtle movement while walking through clouds - understated editorial presence - cinematic stillness MODEL REALISM: - visible pores - readable pores - natural skin micro-detail - realistic dermal texture - natural matte finish - subtle skin imperfections - realistic under-eye texture - freckles - vellus hair - natural skin tone variation - capillary detail around cheeks and nose - realistic lip texture - physically accurate skin response - subsurface scattering - editorial beauty realism - documentary skin honesty - unretouched look - no beauty-retouch aesthetic WARDROBE: - oversized orange couture puffer coat - voluminous sculptural silhouette - layered luxury styling - monochromatic pale outfit underneath - realistic textile puffiness - physically accurate fabric compression - subtle wind interaction - believable fabric gravity - tactile luxury material realism - couture editorial styling CLOUD REALISM: - physically believable cloud density - soft volumetric cloud formations - realistic atmospheric layering - natural cloud texture variation - cinematic daylight diffusion - believable environmental depth - tactile cloud realism - no CGI fantasy-cloud styling LIGHTING: - soft natural daylight above clouds - cinematic atmospheric diffusion - realistic ambient bounce from clouds - subtle warm highlights - premium fashion-editorial lighting - controlled contrast - physically accurate skin rendering - no artificial glow - no overprocessed HDR lighting CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 80mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism AESTHETIC: - cinematic surreal couture realism - luxury fashion-editorial atmosphere - elevated cloudscape photography - premium magazine-cover energy - tactile atmospheric realism - understated fantasy - emotionally cinematic composition STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI clouds, fantasy game aesthetic, 3D render, octane render, synthetic fabric, fake shadows, artificial lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic haute couture editorial photography, cinematic cloudscape realism, documentary-level texture realism, premium luxury fashion photography, atmospheric surreal couture aesthetic

Scene 2

Create an ultra-realistic surreal haute couture fashion editorial scene set inside an oversized botanical garden with cinematic realism and documentary-level texture detail. If a model reference image is uploaded, preserve the exact same facial identity, facial asymmetry, body proportions, skin tone, eye shape, jawline, hair texture, and realism from the uploaded reference image without reinterpretation. If no model reference is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and non-AI facial structure. SCENE DESIGN: - model standing inside a giant surreal flower garden - oversized pale-pink peonies towering around the model - lush moss-covered ground - soft botanical depth throughout environment - dreamy pastel atmosphere - cinematic spring-garden realism - luxury couture editorial mood - tactile natural textures - premium magazine-cover energy - soft atmospheric haze - dreamlike but physically believable worldbuilding COMPOSITION: - full-body centered composition - vertical editorial framing - slightly low camera angle looking upward - oversized flowers surrounding model naturally - immersive environmental depth - layered botanical foreground and background - cinematic spatial hierarchy - balanced negative space - subtle asymmetry in flower placement - premium fashion-editorial composition MODEL: - calm confident expression - relaxed couture posture - realistic anatomy and body proportions - natural body tension - authentic facial asymmetry - subtle wind movement in hair and garments - understated editorial presence - cinematic stillness - believable human realism MODEL REALISM: - visible pores - readable pores - pore detail - skin texture maximum - natural skin micro-detail - subtle skin imperfections - realistic dermal texture - natural matte finish - realistic under-eye texture - freckles - subtle blemishes - vellus hair - natural skin tone variation - capillary detail around cheeks and nose - realistic lip texture - physically accurate skin response - subsurface scattering - editorial beauty realism - documentary skin honesty - unretouched look - no beauty-retouch aesthetic WARDROBE: - pastel pink couture jacket with feather-texture sleeves - layered romantic couture dress - soft monochromatic pink styling - mint knee-high socks - sculptural luxury footwear - realistic textile layering - believable fabric gravity - physically accurate textile texture - soft matte couture fabrics - tactile feather realism - premium haute couture styling BOTANICAL REALISM: - realistic peony petal translucency - visible flower texture detail - natural botanical imperfections - moss with tactile organic texture - cinematic environmental depth - believable plant scale - realistic color variation in flowers - physically accurate outdoor shadows - no fantasy-CGI flowers LIGHTING: - soft cinematic daylight - subtle overcast diffusion - realistic ambient bounce - natural shadow transitions - premium fashion-editorial lighting - physically accurate skin rendering - soft atmospheric highlights - no artificial glow - no overprocessed HDR look CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 80mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism AESTHETIC: - ultra-realistic surreal couture photography - cinematic botanical realism - premium fashion-editorial atmosphere - romantic haute couture mood - tactile environmental realism - elevated spring fantasy - luxury magazine-cover aesthetic STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI flowers, fantasy game aesthetic, 3D render, octane render, synthetic fabric, fake feathers, artificial shadows, fake lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic haute couture editorial photography, cinematic botanical realism, documentary-level texture realism, premium luxury fashion photography, romantic surreal couture aesthetic

Scene 3

Create an ultra-realistic surreal haute couture fashion editorial scene set inside a dreamy oversized peony landscape with cinematic realism and documentary-level texture detail. If a model reference image is uploaded, preserve the exact same facial identity, facial asymmetry, body proportions, skin tone, eye shape, jawline, hair texture, and realism from the uploaded reference image without reinterpretation. If no model reference is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and non-AI facial structure. SCENE DESIGN: - enormous oversized pale-pink peonies towering above landscape - surreal open meadow environment - narrow winding dirt path crossing through grass - dreamy pastel sunset sky - soft pink-lavender atmospheric gradient - cinematic spring atmosphere - luxury surreal-fashion worldbuilding - oversized botanical realism - emotionally calm editorial mood - tactile environmental realism - physically believable fantasy scale COMPOSITION: - full-body vertical composition - model positioned slightly off-center walking naturally along path - giant peonies surrounding frame with one flower dominating foreground - cinematic environmental depth - layered perspective from foreground flowers to distant horizon - immersive scale contrast between model and flowers - balanced negative space in sky - premium magazine-cover composition - subtle asymmetry in scene layout - realistic spatial hierarchy MODEL: - calm confident editorial expression - relaxed natural posture - realistic anatomy and proportions - subtle walking movement - authentic body tension - understated fashion-editorial energy - natural facial asymmetry - cinematic stillness despite motion - believable human realism MODEL REALISM: - visible pores - readable pores - pore detail - skin texture maximum - natural skin micro-detail - subtle skin imperfections - realistic dermal texture - natural matte finish - realistic under-eye texture - freckles - subtle blemishes - vellus hair - natural skin tone variation - capillary detail around cheeks and nose - realistic lip texture - physically accurate skin response - subsurface scattering - editorial beauty realism - documentary skin honesty - unretouched look - no beauty-retouch aesthetic WARDROBE: - pale blue sculptural couture gown - strapless corset-inspired upper silhouette - voluminous layered skirt - realistic couture fabric architecture - believable textile gravity - soft matte luxury fabric - subtle wind interaction - physically accurate folds and compression - tactile textile realism - premium haute couture styling BOTANICAL REALISM: - realistic peony petal translucency - visible botanical fiber detail - natural flower imperfections - believable stem thickness and structure - tactile grass textures - realistic organic color variation - cinematic outdoor realism - physically accurate environmental shadows - no CGI fantasy-flower look LIGHTING: - soft cinematic golden-hour daylight - pastel atmospheric diffusion - realistic ambient bounce from sky and grass - subtle warm highlights - premium fashion-editorial lighting - physically accurate skin rendering - soft environmental shadow transitions - no artificial glow - no HDR overprocessing CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 80mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism - subtle analog-film softness AESTHETIC: - ultra-realistic surreal couture photography - cinematic botanical realism - dreamy spring editorial atmosphere - premium fashion worldbuilding - tactile environmental realism - elevated fantasy minimalism - luxury magazine-cover aesthetic STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI flowers, fantasy game aesthetic, 3D render, octane render, synthetic grass, fake shadows, artificial lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic haute couture editorial photography, cinematic botanical realism, documentary-level texture realism, premium luxury fashion photography, dreamy surreal couture aesthetic

Scene 4

Create an ultra-realistic surreal fashion-editorial landscape with cinematic fine-art realism and soft luxury-magazine atmosphere. If a model reference image is uploaded, preserve the exact same facial identity, body proportions, hair structure, skin tone, and realism from the uploaded reference image without reinterpretation. If no model reference is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and believable anatomy. SCENE DESIGN: - endless pastel-pink botanical pathway - gigantic oversized pale-pink peonies lining both sides of the road - monumental sculptural flower petals rising in background like architectural forms - soft monochromatic pink environment - dreamy minimalist worldbuilding - luxury surrealist atmosphere - cinematic stillness - premium fine-art editorial mood - delicate environmental softness - physically believable fantasy scale COMPOSITION: - wide centered composition - model walking away from camera down middle of pathway - symmetrical oversized flowers framing scene - massive negative space in upper frame - immersive depth perspective - clean minimal horizon line - cinematic spatial balance - subtle asymmetry in flower placement - premium magazine-cover framing - soft architectural rhythm in composition MODEL: - woman viewed from behind - calm slow walking posture - soft relaxed body language - realistic anatomy and proportions - natural shoulder positioning - understated editorial presence - believable human movement - cinematic emotional stillness WARDROBE: - long pastel-pink luxury coat - minimalist monochromatic styling - soft matte textile texture - realistic fabric folds - believable garment weight - subtle movement in coat hem - understated couture styling - tactile fabric realism BOTANICAL REALISM: - realistic peony petal texture - visible organic fiber detail - natural petal translucency - believable flower scale and structure - soft environmental shadows - realistic botanical imperfections - tactile floral realism - no CGI flower styling ENVIRONMENT REALISM: - soft pastel daylight atmosphere - subtle atmospheric haze - realistic ground texture - natural environmental depth - physically believable light diffusion - cinematic color harmony - tactile environmental realism LIGHTING: - soft diffused daylight - luxury fine-art editorial lighting - realistic ambient bounce - subtle pastel highlight rolloff - smooth shadow transitions - no artificial glow - no HDR overprocessing - premium atmospheric realism CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 65mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism AESTHETIC: - ultra-realistic surreal botanical photography - cinematic pastel minimalism - luxury fine-art editorial atmosphere - dreamy architectural floral worldbuilding - tactile realism - premium magazine-cover aesthetic - understated surrealism STRICT NEGATIVE PROMPT: plastic flowers, CGI petals, fantasy game aesthetic, 3D render, octane render, fake shadows, artificial lighting, synthetic textures, over-sharpening, instagram pastel aesthetic, HDR overprocessing, doll-like atmosphere, fake environmental depth Output style: ultra-realistic fine-art editorial photography, cinematic pastel botanical realism, premium luxury fashion atmosphere, documentary-level texture realism, minimalist surreal couture aesthetic

Scene 5

Create an ultra-realistic surreal haute couture fashion editorial portrait with cinematic botanical realism and premium luxury-magazine atmosphere. If a model reference image is uploaded, preserve the exact same facial identity, facial asymmetry, body proportions, hair texture, skin tone, eye shape, and realism from the uploaded reference image without reinterpretation. If no model reference image is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and believable anatomy. SCENE DESIGN: - giant pale-pink peony flower functioning as a natural throne - model sitting naturally inside the flower petals - rolling soft green hills in background - clear vibrant blue sky - dreamy surreal spring landscape - oversized botanical realism - cinematic luxury-fashion atmosphere - tactile environmental realism - premium editorial fantasy worldbuilding - physically believable fantasy scale - emotionally calm couture mood COMPOSITION: - full-body vertical composition - slightly low-angle camera perspective - model centered naturally inside flower - oversized peony filling majority of frame - rolling hills creating soft layered depth - cinematic environmental balance - premium magazine-cover framing - subtle asymmetry in pose and petal placement - immersive perspective depth - luxury editorial composition MODEL: - relaxed couture sitting pose - calm editorial expression - realistic anatomy and body proportions - natural shoulder tension - subtle hand placement on flower petal - believable seated posture - authentic facial asymmetry - understated fashion-editorial energy - natural body realism MODEL REALISM: - visible pores - readable pores - pore detail - skin texture maximum - natural skin micro-detail - subtle skin imperfections - realistic dermal texture - natural matte finish - realistic under-eye texture - freckles - subtle blemishes - vellus hair - natural skin tone variation - capillary detail around cheeks and nose - realistic lip texture - physically accurate skin response - subsurface scattering - editorial beauty realism - documentary skin honesty - unretouched look - no beauty-retouch aesthetic HAIR: - long natural black wavy hair - realistic strand separation - subtle environmental movement - natural volume and texture - believable flyaway hairs - cinematic hair realism WARDROBE: - romantic pastel-pink couture dress - sheer embroidered fabric details - delicate floral embellishments - soft translucent sleeves - layered luxury textiles - pale-blue sculptural platform heels - lace-texture socks - realistic textile transparency - physically accurate fabric folds - believable couture construction - tactile luxury material realism BOTANICAL REALISM: - realistic peony petal translucency - visible petal fiber detail - natural flower imperfections - tactile botanical texture - physically believable oversized flower structure - realistic organic color variation - cinematic outdoor realism - soft environmental shadowing - no CGI flower styling LIGHTING: - bright cinematic daylight - soft directional sunlight - realistic ambient bounce from grass and petals - natural skin highlights - premium fashion-editorial lighting - physically accurate skin rendering - soft shadow transitions - realistic atmospheric depth - no artificial glow - no HDR overprocessing CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 80mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism AESTHETIC: - ultra-realistic surreal couture photography - cinematic botanical realism - dreamy spring editorial atmosphere - premium luxury fashion worldbuilding - tactile environmental realism - elevated romantic surrealism - luxury magazine-cover aesthetic STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI flowers, fantasy game aesthetic, 3D render, octane render, synthetic fabric, fake petals, artificial shadows, fake lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic haute couture editorial photography, cinematic botanical realism, documentary-level texture realism, premium luxury fashion photography, dreamy surreal couture aesthetic

Scene 6

Create an ultra-realistic surreal fashion-editorial scene with cinematic spring realism and premium luxury-campaign atmosphere. If a model reference image is uploaded, preserve the exact same facial identity, facial asymmetry, body proportions, hair texture, skin tone, and realism from the uploaded reference image without reinterpretation. If no model reference image is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and believable anatomy. SCENE DESIGN: - giant flower tunnel made from vibrant orange and soft pink cosmos flowers - circular floral arch framing bright blue sky - immersive flower pathway - dreamy spring landscape - surreal oversized sneaker perspective - cinematic outdoor atmosphere - tactile botanical realism - premium editorial worldbuilding - physically believable fantasy scale - energetic but elegant fashion mood COMPOSITION: - dramatic worm's-eye low-angle composition - oversized sneaker dominating foreground - model walking directly toward camera - one foot stepping over lens naturally - circular flower arch surrounding upper frame - immersive perspective distortion from wide-angle lens - layered floral depth in foreground and background - cinematic environmental framing - premium magazine-cover composition - subtle asymmetry in walking pose MODEL: - relaxed natural walking posture - calm editorial facial expression - authentic body mechanics while stepping - realistic anatomy and proportions - believable limb positioning - understated fashion-editorial energy - natural movement in clothing - cinematic stillness despite motion MODEL REALISM: - visible pores - readable pores - pore detail - skin texture maximum - natural skin micro-detail - subtle skin imperfections - realistic dermal texture - natural matte finish - realistic under-eye texture - freckles - subtle blemishes - vellus hair - natural skin tone variation - capillary detail around cheeks and nose - realistic lip texture - physically accurate skin response - subsurface scattering - editorial beauty realism - documentary skin honesty - unretouched look - no beauty-retouch aesthetic WARDROBE: - oversized minimalist cream sweatshirt - loose beige wide-leg trousers - chunky beige luxury sneaker - monochromatic neutral styling - realistic fabric folds and weight - subtle movement from walking motion - tactile textile realism - physically accurate garment compression - premium casual editorial styling SNEAKER REALISM: - oversized foreground sneaker with realistic proportions - visible mesh texture and sole detail - believable material transitions - physically accurate stitching - realistic outsole texture - natural perspective distortion from lens proximity - premium footwear campaign realism BOTANICAL REALISM: - realistic cosmos flower petal translucency - visible organic texture detail - natural flower imperfections - realistic stem structures - tactile floral realism - cinematic outdoor depth - physically accurate sunlight interaction - no CGI flower styling LIGHTING: - bright cinematic daylight - warm natural sunlight - realistic ambient bounce from flowers - subtle golden highlights - premium fashion-editorial lighting - physically accurate skin rendering - realistic outdoor shadow transitions - natural atmospheric depth - no artificial glow - no HDR overprocessing CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - ultra-wide 24mm editorial lens - aperture f/5.6 - ISO 100 - dramatic lens perspective distortion - authentic luxury editorial photography realism AESTHETIC: - ultra-realistic surreal fashion photography - cinematic botanical realism - premium footwear-campaign atmosphere - tactile environmental realism - elevated spring fantasy - luxury magazine-cover aesthetic - immersive perspective storytelling STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI flowers, fantasy game aesthetic, 3D render, octane render, synthetic fabric, fake shadows, artificial lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic surreal editorial photography, cinematic botanical realism, documentary-level texture realism, premium luxury fashion campaign photography, immersive spring couture aesthetic

Scene 7

Create an ultra-realistic haute couture fashion editorial scene inside an endless field of oversized red poppies with cinematic realism and premium luxury-magazine atmosphere. If a model reference image is uploaded, preserve the exact same facial identity, facial asymmetry, body proportions, hair texture, skin tone, and realism from the uploaded reference image without reinterpretation. If no model reference image is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and believable anatomy. SCENE DESIGN: - immersive field of oversized deep-red poppies surrounding the model - flowers extending endlessly into background - dreamy overcast sky with soft white-gray atmosphere - cinematic floral density - lush organic environment - premium surreal botanical worldbuilding - emotionally calm couture mood - tactile environmental realism - physically believable flower scale - elevated luxury-fashion atmosphere COMPOSITION: - centered full-body composition - model standing still inside dense flower field - flowers naturally framing foreground and background - layered botanical depth - immersive environmental perspective - cinematic visual symmetry - premium magazine-cover framing - subtle asymmetry in flower placement - shallow atmospheric depth - elegant editorial balance MODEL: - calm confident editorial expression - relaxed natural posture - realistic anatomy and body proportions - understated couture presence - authentic facial asymmetry - natural body tension - believable stillness - cinematic emotional quietness MODEL REALISM: - visible pores - readable pores - pore detail - skin texture maximum - natural skin micro-detail - subtle skin imperfections - realistic dermal texture - natural matte finish - realistic under-eye texture - freckles - subtle blemishes - vellus hair - natural skin tone variation - capillary detail around cheeks and nose - realistic lip texture - physically accurate skin response - subsurface scattering - editorial beauty realism - documentary skin honesty - unretouched look - no beauty-retouch aesthetic HAIR: - long natural black hair - realistic strand separation - subtle movement from outdoor breeze - believable flyaway hairs - natural volume and density - cinematic hair realism WARDROBE: - dramatic layered crimson couture gown - oversized ruffled tulle construction - sculptural haute couture silhouette - monochromatic red styling - realistic textile transparency - physically accurate fabric layering - believable textile gravity - tactile tulle texture - subtle movement in dress layers - luxury couture realism BOTANICAL REALISM: - realistic poppy petal translucency - visible organic petal texture - natural imperfections in flowers - realistic stems and foliage - tactile floral realism - cinematic environmental density - physically accurate outdoor shadows - no CGI flower styling LIGHTING: - soft cinematic overcast daylight - natural atmospheric diffusion - realistic ambient bounce from flowers - subtle shadow transitions - premium fashion-editorial lighting - physically accurate skin rendering - realistic outdoor mood - soft environmental contrast - no artificial glow - no HDR overprocessing CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 80mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism AESTHETIC: - ultra-realistic couture editorial photography - cinematic botanical realism - premium luxury fashion atmosphere - tactile environmental realism - elevated romantic surrealism - dreamy floral worldbuilding - luxury magazine-cover aesthetic STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI flowers, fantasy game aesthetic, 3D render, octane render, synthetic fabric, fake petals, artificial shadows, fake lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic haute couture editorial photography, cinematic botanical realism, documentary-level texture realism, premium luxury fashion photography, dreamy romantic couture aesthetic

Scene 8

Create an ultra-realistic surreal fine-art fashion editorial scene inspired by oversized lotus leaves and tranquil water landscapes, photographed with cinematic realism and premium luxury-magazine atmosphere. If a model reference image is uploaded, preserve the exact same facial identity, body proportions, hair structure, skin tone, and realism from the uploaded reference image without reinterpretation. If no model reference image is uploaded, generate a naturally realistic editorial-fashion model with authentic human imperfections and believable anatomy. SCENE DESIGN: - enormous translucent white lotus leaves towering above shallow reflective water - minimal dreamlike botanical environment - endless calm water surface with soft ripples - oversized lotus stems rising vertically from water - soft monochromatic sage-green and ivory color palette - tranquil surrealist atmosphere - cinematic stillness and silence - premium minimalist worldbuilding - physically believable fantasy scale - emotionally meditative editorial mood COMPOSITION: - centered rear-view composition - model walking slowly away from camera through shallow reflective water - giant lotus leaves framing upper composition - immersive negative space - elegant vertical symmetry - layered botanical depth - calm cinematic perspective - premium luxury-editorial framing - subtle asymmetry in leaf positioning - mirror-like reflections in water surface MODEL: - woman viewed from behind - slow graceful walking posture - relaxed body language - realistic anatomy and body proportions - understated editorial presence - believable movement through water - natural shoulder positioning - calm meditative energy MODEL REALISM: - visible pores - readable pores - pore detail - skin texture maximum - natural skin micro-detail - subtle skin imperfections - realistic dermal texture - natural matte finish - realistic under-eye texture - freckles - subtle blemishes - vellus hair - natural skin tone variation - physically accurate skin response - editorial beauty realism - documentary skin honesty - unretouched look WARDROBE: - flowing ivory minimalist gown - soft draped silhouette - lightweight matte fabric - realistic textile movement - believable fabric gravity - subtle water interaction near hem - oversized elegant ivory sun hat - understated couture minimalism - tactile textile realism BOTANICAL REALISM: - realistic lotus leaf translucency - visible organic vein texture - physically accurate leaf structure - subtle natural imperfections - cinematic botanical softness - tactile environmental realism - realistic stem thickness and water interaction - no CGI leaf styling WATER REALISM: - shallow reflective water surface - soft natural ripple patterns - realistic mirrored reflections - subtle water distortion around feet - cinematic water depth - physically accurate light diffusion through water - calm atmospheric reflections LIGHTING: - soft diffused daylight - minimal atmospheric contrast - realistic ambient bounce from water and leaves - subtle soft highlights - premium fine-art editorial lighting - physically accurate environmental rendering - calm luminous atmosphere - no artificial glow - no HDR overprocessing CAMERA: - shot on Hasselblad X2D medium format camera - Phase One detail fidelity - 65mm editorial lens - aperture f/5.6 - ISO 100 - realistic optical depth - authentic luxury editorial photography realism AESTHETIC: - ultra-realistic surreal fine-art photography - cinematic botanical minimalism - luxury meditative atmosphere - tactile environmental realism - elevated minimalist surrealism - premium gallery-fashion aesthetic - emotionally calm visual storytelling STRICT NEGATIVE PROMPT: plastic skin, porcelain skin, waxy skin, smooth skin, flawless skin, glowing skin, CGI leaves, fantasy game aesthetic, 3D render, octane render, synthetic fabric, fake reflections, fake shadows, artificial lighting, doll-like anatomy, over-sharpening, instagram aesthetic, HDR overprocessing, AI face symmetry Output style: ultra-realistic cinematic editorial photography, premium botanical realism, documentary-level texture realism, luxury minimalist fashion atmosphere, meditative surreal couture aesthetic
