THE SEXCALATION METHOD

A Step by Step System to Smoothly Escalate the Interaction to Sex

CORY SMITH @PUA_DATING_TIPS

Version 2.0: 40,000+ words (Updated Dec 4, 2021)

CHAPTER 1

INTRODUCTION

Every single day do at least 1 thing that terrifies the shit out of you, to train yourself to be fearless in the sexual marketplace. Keep track of that 1 thing in a special journal made specifically for this purpose.

Show yourself what is possible at one key moment during the day, and it will inspire you for the rest of the day. You will absolutely shock yourself about the kinds of things that you can do when you aren't afraid of the consequences, and aren't held back by what people think of you.

You have been conditioned to be afraid by your parents for your own safety. As a child the fear protected you from doing reckless and stupid behaviors. The problem is that you have carried that belief into adulthood. Fear is now making you weak because it is stopping you from taking radical bold action with women. Undo your childhood conditioning.

Four things that keep men in their cages: (1) fear of disapproval, (2) overthinking, (3) being stuck in endless research, and (4) caring what other people think. FUCK what anyone thinks. Be extremely aggressive in going after your goals in the sexual marketplace.

FEAR IS THE GREAT PARALYZER. IT IS HESITATION, FEAR OF REJECTION, FEAR OF DISAPPROVAL, FEAR OF BEING EMOTIONALLY HURT, AND BEING STUCK IN PERPETUAL THINKING THAT HAS KILLED MANY SEDUCERS - SOMETIMES BEFORE THEY HAVE EVEN STARTED SEDUCING. SOME MEN SPEND THEIR ENTIRE LIVES STUCK IN THIS PRISON OF FEAR - WITHOUT EVEN BEING AWARE OF IT. THEY'LL CLAIM THAT THAT THEY ARE BRAVE MEN, WHEN THE TRUTH IS THAT THEY HAVE PUSSIES THAT ARE DEEPER THAN A WOMAN'S PUSSY.

CONDITION YOURSELF TO BE FEARLESS IN THE SEXUAL MARKETPLACE, AND YOU WILL BE UNSTOPPABLE. WHEN YOU DON'T GIVE A FUCK ABOUT REJECTION THEN YOU WILL BE FREE TO MAKE MANY MOVES THAT YOU DIDN'T THINK WERE

even possible before. You will start to see doors of opportunity that were only dreams before. When you don't care what other people think of you then you will be empowered to do whatever the fuck you want, whenever you want to. You will be a sexually lethal force to be reckoned with.

Doing at least 1 thing that scares you every day could mean different things for different people - depending on your skill level:

- This could mean hitting up the girl that you have a crush on and making a real-man move on her - by inviting her on a date to a local event and Then aggressively physically escalating during the date - eventually ending at sex in your car.
- This could mean calling up a girl just to practice your flirting skills; then inviting her to your house to drink wine and catch a movie (implementing the classic Netflix and "chill" seduction move).
- This could mean sparking a conversation with the cute girl at the bus by asking for "directions" and then making an observational comment - leaving with a phone number and a future date, or taking her on a date right there and then.
- This could mean joining a dancing social club at a college campus, attending all of their events, hitting up all the girls in the social club, and making an aggressive direct move on the one that is most receptive to your advances, so as to not waste your fucking time with bullshit.

You won't know how far you can go until you risk going too far. As a general rule: it is better to go too far and then recalibrate than it is to not risk at all and then never know what is possible. A woman will forgive a man who is too bold (emotionally stimulating) and then re-calibrates, but she will rarely forgive a man who isn't bold enough and is thus boring (emotionally un-stimulating).

I'm asking you to take a leap of faith and start making EXTREMELY BOLD MOVES in the sexual marketplace to start getting laid like a sexy seducer - instead of just waiting around for shit to happen by itself.

- **Create a lifestyle that involves meeting women on a daily basis.** On your way to work (or on your way back from work) stop by places that have a lot of beautiful women, and strike up conversations with them. When the conversation turns hot, invite them to a local Starbucks. End with a phone number and plans for a date at an exciting local event in your city. It's impossible to get good at something you don't do, so make sure meeting girls is something you do regularly; no excuses here.
- **Start hitting on girls - with the CLEAR INTENTION of fucking.** When you have the intention of "FUCK ME, or FUCK OFF" then you'll aggressively and proactively lead the interaction towards sex - automatically screening out time wasters. Women can sense sexual intent, and if they're still around then they've given passive permission for you to continue to escalate the interaction towards a BANG. No more wasting time on 30 minute

interactions to nowhere. No more wasting time on endless conversations that aren't leading to anything specific. Either make reasonable progress towards YOUR PENIS inside her VAGINA - or she fucks off of your life.

- **Every weekend invite your female orbiters on one-on-one dates** - with the intention of bringing them to an isolated area where you will escalate to the point of sex. Having a texting penpal is worth zero. If she won't show up on a date so you can stick your penis inside her hole, she is worthless. Don't accept friendship status because you have enough friends; nor should you accept penpal status, if she isn't willing to meetup then she is a waste of psychological space.
- Start touching women much more - constantly progressing up the physical intimacy level. If you can't even hold her hand, how do you expect sex to occur? **Get her used to the good feeling of being touched by you.**
- Escalate faster and harder. Life is too short to play the failing perpetual indirect game. Make tons of moves in the sexual marketplace and make them fast, because one day you'll be dead; before that day: you'll create sexual chaos - even if the world burns in the process. WIN AT ALL COSTS. This is the PSYCHOPATHIC EDGE. As long as you aren't breaking any laws, every dirty move in the book is fair game.
- Verbalize sexual frames. Simply stating a sexual compliment implies that you want to FUCK, and sets the stage for further escalation. By

behaving like a lover, you won't be friend-zoned. **Dirty talk leads to sex occurring -** even if she doesn't respond to your dirty talk. Escalate on a physical level, emotional level, verbal level, and logistical level.

- Implement specific techniques mentioned in this book to spike the odds of sex occurring. Conscious implementation of seduction theory will lead to your skills becoming as sharp as a ninja blade. **Always sharpen the blade.**

The time to act was yesterday, but the second best time is: NOW.

By purchasing this book, you told me something about yourself. You are willing to invest in yourself to:

- learn **valuable practical knowledge** (highly specific behavioral things that you can do in the field to spike attraction),
- **internalize key mindsets** (ways of thinking that ,
- develop **seductive character traits**,
- create a **seductive lifestyle** that leads to banging pussy on auto-pilot,
- have **fundamental habits** that put you in the best position to BANG,
- be on your **path to greatness**, and
- sharpen your high-demand **value-generating skills** with women.

because you believe in a bright future.

PART I

CHAPTER 1

LAW #101: LIVE OUTSIDE YOUR COMFORT ZONE.

MOTHERFUCKER!!!

STOP

EVERYTHING

THAT YOU ARE DOING RIGHT NOW AND LISTEN TO ME, MOTHERFUCKER.

HERE IS MAJOR RED FLAG THAT YOU AREN'T where you need to be in life right now: **If you are deep inside your comfort zone then chances are that you aren't growing that much.**

Some men spend their entire lives in the comfort zone and then they wonder why their lives are so *average*.

DON'T YOU FUCKING GET IT, SON? PAIN IS YOUR FRIEND.

Growth happens in the uncomfortable zone. Get comfortable with to being uncomfortable. Get used to the pain of

pushing yourself much harder than you ever thought you could push yourself. Embrace the pain of being miles away from the comfort zone. Get into the PAIN ZONE because NO PAIN MEANS NO GAIN.

The life of a beta male is pathetic and boring. Don't let that be your destiny.

If you keep doing what you're doing then you'll keep getting the results that you are getting. It's time to LEVEL UP.

I'm going to ask you to do something that is going to make you feel *uncomfortable*. [1]In fact, I'm going to tell you to do things in this book that will make you feel *VERY UNCOMFORTABLE* and I expect you to do them with 100% effort.

INPUT DETERMINES OUTPUT.

What you put into your development is what you will get out of it. You are worth investing in. **If you put in a mediocre effort to rise to the top of the sexual marketplace, then expect mediocre results.** If you go all in, then your results will reflect that level of effort. I WANT YOU GO ALL IN to improving your sex life.

This books is for people that are serious about fucking beautiful women in the vagina, so I expect you to do the exercises or turn the fuck back now.

If you do this single mental exercise properly, it will change your life right now. Turn the page and let's get started…

---

1. LEVELING UP happens outside your comfort zone. Get "comfortable" with being uncomfortable. Embrace the pain of pushing yourself further than you ever thought was possible for you.

CHAPTER 2

PRECISE VISUALIZATION

MENTAL EXERCISE: PRECISE VISUALIZATION

Take a small step outside your comfort zone **at this exact moment** and ponder these potentially disturbing questions:

- **"What do you truly truly truly desire with women?"**
- **"If you could have anything in the world with women (with no chance of rejection) then what would you like?"**
- **"If you could live out your wildest fantasy with a woman - without any chance of failure than what would it be?"**
- **"What is a secret fetish that you want to experience?"**
- **"[In the case of a long-term relationship], what qualities would you**

want to see in the woman who you'd like to see as your life partner?"

Be brutally honest with yourself. You don't have to share the answers with anyone - except yourself. Visualize that reality coming true in your mind. Describe it in detail. Picture it CLEARLY. See it coming the image coming to life in your mind.

I'll give you a few minutes to visualize this image of success, and to manually write down what you want on a piece of paper. [1]Studies show that writing down your goals substantially increases the chances of achieving them, so write down the kind of woman that you want (even if you have to use code words to be discrete).

Take a few moments to write down the goal that you have for yourself for women.

Fill out this sentence: "I want to _____."

1. Figuring out what you want in a woman who you are going to be in a relationship with can take years, so your vision will become more sharpened as you accumulate more experience. The more women you enter in relationships with, the more you will understand which women are relationship quality versus which women are just worth nothing more than fucking. By experiencing a lot of women, you'll be able to narrow down qualities that you want in a sexual partner.

CHAPTER 3

THE LAW OF THE UNIVERSE

Listen to me, my son…

If you can visualize it, you can achieve it.

In fact, YOU CAN ACHIEVE ALMOST ANYTHING WITH WOMEN THAT YOU SET YOUR MIND TO ACHIEVE.

If you can visualize it in your mind's eye then you can turn it into a reality - with consistent conscious action over a long period of time. No one becomes a Casanova overnight, but if you keep working on it - leveling and improving one key behavior at a time - then you will achieve the Apex of Apexes in the Sexual Marketplace.

See yourself achieving your vision. This exercise will fuel your self-belief. **In the sexual marketplace, you get what you believe you deserve.**

Reward her good behavior with greater amounts of your attention, calculated emotional expression, and increasing amounts of physical intimacy. In contrast, punish bad behavior by withdrawing attention. Attention is the currency in the Womaneverse. 🗝 The key is: frame your TOUCH as a REWARD GIVEN.

99.99% of the limitations that you perceive are merely illusions created by social conditioning. Society brainwashed you to be a conforming sheep because it is easier to profit from you in this way. You "can't" do certain things because you simply believe you "can't" do them; your limiting beliefs limit you because you believe in them.

- If you think you "can't" get a girl because she is "outside of your league" you won't get her.
- If you think you "can't" do something sexually with a woman then you won't be able to do so.
- If you think your situation is "hopeless", it will be.

The visualization exercise (nicknamed "PRECISE

VISUALIZATION") will condition your mind to believe that it is possible for you to succeed in the sexual marketplace. **Once you believe that it is possible, then you will push yourself to make it happen; visualize your vision every morning as soon as you wake up.** In stark contrast, if you think your odds of succeeding in the sexual marketplace are slim to null then you won't even try. It all starts with self-belief.

When you enter interactions with women with a CLEAR INTENTION of what you want then your words and behaviors will automatically be aligned to turning that into a reality. This is why it is so important to frequently visualize the vision that you want to bring to life. By picturing in your mind's eye what you desire, you're able to leverage the unconscious mind to work in the background - subtly influencing your actions - to create that reality.

Women will fall into the projected role, or filter themselves out and not waste your time. By having a dominant masculine sexual persona, you will find that many women will play the projected sexual and feminine role that you expect them to play. In other words, having a strong dominant masculine polarity leads to a woman exuding a submissive feminine polarity. **Put simply: being a sexual man inspires her to be a sexual woman.**

BELIEFS ARE CONTAGIOUS.

- Believe that you are worthy of her, and she will believe that you are a good catch.
- Believe that your penis is a pleasure generating machine, and she will view sex as a reward.

- Believe that touching is the most normal thing to do in the world, and she will accept this as the reality.

ACHIEVING CLARITY AND WHY IT MATTERS.

I cannot overemphasize the importance about being ultra clear over what you want in the sexual marketplace, and visualizing your goals come to life in your mind - as soon as you wake up in the morning.

Go as far as making visual signs around your house that remind you of your goal to help you focus on making progress on that goal every single day. Create an environment and lifestyle where you're constantly reminded of the goals that you're focusing on. Have an accountability wingman who you meet with once a week to discuss the progress that you've made so far on your goals since the last seven days.

When you know what you want out of the sexual marketplace then your unconscious mind goes to work towards making that happen. **You'll surprise yourself when you suddenly catch yourself taking automatic action towards your goal - without even being aware of it; this is because you had a fierce desire that was cultivated my verbalizing your visions and goals at the exact moment that you wake up.** Condition your mind and it will work for you - not against you.

A lot of perpetual procrastination happens because the goals that you have in your life right now are too fuzzy and vague. You have to clarify them by getting more specific, verbalizing and writing them down.

What exactly do you motherfucking want? When you know the answer to that and review that goal every

morning at the moment that you wake up, then you'll put yourself in the best position towards turning that goal into a reality.

The law of the universe states:

When there is clarity, there is motivation.

CHAPTER 4

TAKE DAILY CONSISTENT MASSIVE ACTION TOWARDS YOUR GOAL.

CONDITION YOUR MIND.

Successful series entrepreneurs started out broke, but were able to go from zero to hero. They came from nothing, but were able to rise to the fucking top. Why? Because they knew that where they were now, was nothing compared to where they will be in the future - **with daily, consistent, conscious massive action.** *The goal is to get into the daily behavioral tendency of pushing yourself far outside your comfort zone.* Stories were told of how they would:

- Enter a bank and write themselves a fake check for a $100,000 in order to condition their mind to believe that this lifestyle was even possible. **This conditioned their mind that this reality was possible AND likely for them - enough for them to be unconsciously motivated to pursue it.**
- Enter a Ferrari dealership and drive around a Ferrari for a test drive (pretending to be

interested in buying it) in order to condition their mind that they have the potential to actually buy it for real.

- Donald Tump discussed how his friend needed to buy First Class airplane tickets because it put his mind into the right frame of mind that was conducive to success. His friended needed to cultivate the self-image of a WINNER, and that was exactly what led him to keep WINNING. **Having a WINNING MINDSET leads to having WINNING BEHAVIORS leads to WINNING.**

The same can be said about sexual entrepreneurs. You might not be where you want to be right now, but by putting in real work and effort then you will be. Regardless of how bad or seemingly hopeless your situation seems right now, never never never never give up hope. I forbid you from ever giving up hope on yourself. **Understand this: no matter how bleak your current situation is, the future can be incredibly bright.**

DO A DEEP DIVE INTO IMMERSIVE ACTION

Imagine yourself putting in a solid 4 hours of work every day of the year (and keeping track of those 4 hours with an accountability journal) - practicing the skills that you need to absolutely KILL IT in the sexual marketplace; in a year from now, would you not be absolutely savage?

YOU will be the one with tons of options, and have the capacity to reject lower quality woman - rather than the other way around. Don't underestimate yourself and where you can be in a year of intense, radical, consistent, conscious massive action. **Believe in the beauty of**

your potential and you will be able to change the world.

- If you are happy with the results that you are getting right now in life then by all means keep doing what you are doing.
- If you want take your life to the next fucking level then you must change your perception and behaviors.
- You can't higher-level results with same level behaviors. You need to UP YOUR GAME to UP YOUR RESULTS. If you keep doing the same things you'll keep getting the same kind of consequences. You can't be a part of the 1% of men by doing what the 99% of men are doing.

Don't be so fucking easy on yourself. Push yourself harder. Life begins outside your comfort zone so GET UNCOMFORTABLE.

KEY TAKEAWAY POINTS:

- **Higher level behaviors = higher level results.**
- **More action = more results.**
- **Believe you can and you will. Believe you can't, and you won't.**
- **The unconscious mind can be a hidden helper, or a hidden sel-sabotager - depending on how you program it. Program it with visualization exercises and by creating an intense desire to win at all costs.**

CHAPTER 5

LAW #102: HAVE ESCALATION CONFIDENCE.

Actions and results follow self-belief, which is why making physical escalation with BULLETPROOF CONFIDENCE IS PARAMOUNT.

Touch a woman's body like a you touch a cup of coffee - with full belief that it will work and zero hesitation/anxiety. If you touch with confidence, a woman will fall into that frame and believe that it's acceptable - just like she knows 1 + 1 = 2; she won't be held back by her anti-slut defense.

As you'll see later in this book, I explain that when you touch a woman's body you should do it from a firm belief that it will work. Your expectation and intense self-beliefs**:**

- **"I am going to touch your body in the erogenous zones, and you're going to enjoy it."**
- **"Touching is no big deal, and a very normal aspect of interaction."**

- **"We both have beautiful bodies. And we want to enjoy each other with those bodies because it feels good, and deepens our connection."**
- **"My touch is a reward for good behavior."**

is conveyed to the woman through subtle nuances, and she falls into the frame. If your perceptions have high conviction, a woman will simply adopt them as their own because he mind is highly suggestible. A woman's mind is not as strong as a High Status Alpha Male's mind, and can be overtaken.

Contrary to the #MeToo movement's erroneous conclusions, don't ask a woman permission to touch her body (asking for permission is giving away social power, conveys self-doubt and puts her in the leaderhip role). Asking a woman what to do is handing away your balls on a silver platter. A woman is already giving you permission based on the way that she conducts herself around you; if you see multiple indicators that she is attracted to you then those are green lights for you to act upon the sexual opportunity that has presented itself to you. Saying something like: "Do you like me?" conveys self-doubt in your high worth.

Assume permission is already given:

- based on the situation,
- her prior actions,
- the frames that were set, and
- body-language

Then smoothly escalate incrementally.

Condition a woman to follow your lead through small

hoops, submit to you mentally, and hold the frame that YOU ARE THE PRIZE; then you'll have the best conditions to train her to be metaphorical sexual slave - hooked on the value that you provide. Confidence is conveyed by simply acting - not by asking for permission to act. JUST TOUCH HER BODY - don't ask her if you can. ASSUME THE SALE - rather than asking for the sale.

Confidence isn't just the fucking key 🔑 to fucking pussy. It is the fucking key 🔑 to life.

IF YOU HAVE A STRONG FRAME AND SKILLS, YOU CAN GET AWAY WITH ANYTHING. As long as your frame is BULLETPROOF and with INTENSE CONFIDENCE then you'll have the ability to do almost anything with women and it will still work. A woman's mind is malleable; you can shape it according as you see fit. A woman can be conditioned - like a dog - to please you sexually.

The good news is that your limiting beliefs have power over you only because you believe in them. Unlearn that which you have learned. Replace old limiting beliefs with new empowering beliefs. Accumulate evidence that your old beliefs were wrong (also known as The Selective Confirmation Bias technique), and find pieces of information that reveal that you are The Fucking Boss.

Just like beliefs creates behaviors, behaviors create beliefs. No matter where you are, act like the FUCKING BOSS. This will accomplish a few things things:

- (1) You will feel like the boss,

- (2) you will have body-language that conveys power,
- (3) women will become attracted to you, and men will respect you, and
- (4) you'll eventually internalize the "I AM THE BOSS" MINDSET.

IN CONCLUSION:

1. Assume permission was already given, so don't ask for permission. If anything, she will say "no", but will still respect you for having the balls to go after what you want. If she's still around after that then she has given passive permission for you to keep escalating at a later time.

2. Touch a woman's body with full belief in yourself. You will either convey confidence or self-doubt based on the way that you touch her body. If you touch with ESCALATION CONFIDENCE then she will fall into your frame that touching s normal, and a healthy part of interacting with you.

3. Understand that it's imperative to lead a woman into the behavioral tendencies of submitting to your perspective of the world, following your leadership, complying with your requests, and accepting your sexual advances. Women will follow you if you know where you are going, you are competent at what you do, and you lead with fierce confidence. **When you dominate a woman's mind, you will likewise dominate her body. If she follows you in mundane matters, she will follow you in sexual matters.**

CHAPTER 6

LAW #103: TAKE ACTION EVERY DAY. NO DAYS OFF.

Create positive actions on autopilot.

Many of the actions that you do on a daily basis are unconscious - as if you're driving on autopilot. By changing your belief system, you'll change their accompanying behaviors. The aim is to reprogram your unconscious mind to one that is conducive to your success.

- For instance: by having the belief that you are of high worth, you'll naturally ooze sexy confidence.
- Another example: by simply knowing that you can achieve any sexual fantasy as long as you can see it in your mind, you'll push yourself to turn it into a reality.
- Final example: by knowing that women get intense pleasure from sex, and enjoy sex (more more than society allows them to share publicly), then you'll be able to own your sexual

intent and be relaxed around women during sexual interactions.

The first limiting belief that I want you to let go of is that women don't want to fuck, and that women don't enjoy sex. **Women are highly sexual beings. They just hide it because society will judge them for it.**

You can have your wildest sexual desires come true just by having the MOTHER FUCKING FUCKING FUCKING BALLS TO GO AFTER IT!!!!

YES. I AM TALKING TO YOU.

I AM GOING TO SAY IT AGAIN.

You can have your wildest sexual desires come true just by having the MOTHER FUCKING FUCKING FUCKING BALLS TO GO AFTER IT!!!!

The problem is that society has brainwashed you into being a sheep 🐏 because this way you'll be much easier to control. You were raised to be a nice gentleman, people pleasing, and to be extra friendly - which has made you weak. You've allowed care-takers to make you feel guilty for going after what you want, and thus, you've become a shadow of a real man. TAP INTO YOUR PRIMAL INSTINCT, and have the balls to TAKE WHAT YOU WANT IN THE SEXUAL REALM. We live in a world of incredible abundance. All you must do is to have the balls to fucking TAKE WHAT YOU WANT - without being

paralyzed by the fears of disapproval and without being stuck in the trap of endless analysis.

You intuitively know what you need to do to get laid. You simply need to tap into that primal instinct and act upon it. **Use horniness as fuel and motivation to push yourself to take radical action in the field** - despite any emotional resistance, fear, and anxiety that you might feel holding you back. **Doing the exercise of clearly visualizing what you want is crucial because when you have an exciting vision, you'll naturally want to ACT to turn that vision into a reality.**

The reality is that you have to be sexually aggressive with women in order to achieve your sexual goals. If you are not then don't expect things to magically fall into place by themselves. Women have been conditioned to wait to be acted upon - rather than to be the one who is doing the acting. This is why, as a man it is your responsibility to ACT in a manner that leads to SEX - even if it's being pushy - because if you don't make shit happen, it might not happen. You cannot rely on a woman to have sex on the agenda, or to behave in a manner that is conducive to sex occurring. **That is your role as a man to actively create the conditions for sex to occur and to push that agenda into the mind/body of a woman - or it simply won't happen.**

Kill the sheep mindset of being a prey and waiting for others to come and save you. Adopt the predator mindset of being the one who makes things happen. While being a leader means that you have greater amounts of responsibility than others, it also gives you more power.

Create a hoop for her to jump through and prove herself to you: "Whats your favorite place - on your body - to be kissed - besides your lips?" When she answers the question, she's unconsciously agreed for it to happen because of the principle of commitment and consistency (the tendency to be consistent with prior behaviors/statements in order to avoid the uncomfortable feeling of cognitive dissonance). In other words, a woman is unconsciously motivated to stay consistent with her actions. This is why once you get into a routine of having sex with a woman, she will behave according to that routine - almost automatically - because the body is hardwired to to use "biological shortcuts" to offset cognitive loads.

Women desire the pleasure that you have to offer them (they even have an entire organ just to experience sensual pleasure). I hearby give you permission to be an ALPHA SEXUAL PREDATOR STARTING NOW.

To get sex, you have to aggressively go after it. **You have to be proactive towards leading interactions towards sex.**

- If you wait for a woman to make the move, you might just die waiting.
- If you wait for things to "magically" fall into place by themselves, you might spend your entire life in passive-mode.
- If you wait for opportunities to fall into your lap then even if they occur, you will still waste time waiting and you won't have as many

opportunities if you simply took action to create them.

Here is the truth: living a life in passive mode just sucks; you have no control. It is far better to be highly proactive in making shit happen. In the game of seduction it is usually the man with enough balls to TAKE WHAT HE WANTS SEXUALLY that gets what he wants.

This is a key rule for dealing with women: **ABC.**

ALWAYS BE CLOSING.

Have the killer instinct to go after what you want in life - whether its the pussy of beautiful women, or turning a passion project into a reality. KILLER INSTINCT isn't just about fucking pussy. It is about being a man who seals the deal and executes. 99.99% of guys talk a big talk, and then do nothing. You have to be a man who fucking executes, and gets shit done; this is true in regards to:

- getting sex DONE ☑ ,
- getting business deals DONE ☑ ,
- getting shit handled until that shit is DONE ☑.
- Whatever life throws at you, get it DONE ☑ ,

- starting this moment right now.

One day you will be dead; before that happens live life to the fullest. A life of playing it safe like a timid soy boy is not a life worth living. GROW BIG BALLS AND TAKE WHAT YOU WANT FULL FORCE - without feeling guilty or shameful. Let go of cultural conditioning that frames sex as "dirty". HAVE GOALS AND EXECUTE THEM LIKE THE TERMINATOR.

The Terminator doesn't allow emotions to get into the

way. YOU ARE A MACHINE. YOU GET GOALS DONE - whether it's a certain number of approaches that you have to do every single day, or its a certain number of hours you have to spend training your flirting skills with women (7 hours a week of practice), or it's a calling up at least one woman a day for conscious practice: YOU GET IT MOTHERFUCKING DONE.

YOU FUCK PUSSY THE WAY YOU FUCK YOUR GOALS. RELENTLESSLY GOING AFTER WHAT YOU WANT UNTIL YOU ACQUIRE IT. AND WHEN YOU HAVE IT, YOU FUCK IT FULLY - WITH EVERYTHING YOU'VE GOT. LEAVE NO UNFAIR ADVANTAGE UNDERUTILIZED.

I AM GOING TO TEACH YOU HOW TO ACHIEVE LUSTFUL physical intimacy with women. HERE IS LESSON #1, SEXY PLAYER. **The secret to getting good with women is really the secret to getting good at anything: you have to do a lot of it.** Humans get good at what they do frequently, BITCH!!! FUCK YOU if you disagree with this advice.

I don't care how much pickup theories you know, how many books you've read, or how many hours you've spent on YouTube. If you don't actually go out, and practice the skills of meeting women EVERY DAY then your skills will remain stagnant and your results will be ZERO. Taking daily action is PARAMOUNT.

If the only thing you learn from this book is the EXTREME IMPORTANCE of practicing your skill with women EVERY SINGLE MOTHER FUCKING DAY

OF YOUR LIFE then this book would have been worth it. TAKE NO TRAINING DAYS OFF. Make every day count by **being 365/365 consistent** in taking raw action to bring you closer to your vision.

- Repeat after me: I will make it a top tier priority to take action with women everyday!!!!
- Verbalize this right now: I will make it a top tier priority to take action with women everyday!!!!
- SAY IT!! I will make it a priority to take action with women everyday!!!!

This means YOU. And this means TODAY. Let these self-suggestions and affirmations sink into your unconscious mind. **Verbalize these mantras on a daily basis over a long period of time to have them integrated into personality.**

Figure out the Ask yourself this question: at my current rate of progress, where will I be a year from now?

- Well, if you're putting in 5 approaches a day: then you will be an approaching master.
- Alternatively, if you're lacking in attraction-generating skills then putting in an hour of flirting practice a day would be the lifestyle habit to develop.
- Some men have the tendency to approach a lot of women (because they have an active social lifestyle that involves going to various events and spending time in high vagina-traffic areas), and collect a lot of phone numbers, but then they don't actually follow up. Their sticking point is: creating a Day Two. So for these type of men, it is advisable to spend at least 30-60

> minutes a day practicing the art of following up on leads. Just start calling up phone numbers, engaging in brief conversations, flirting and being the one to end the convo first.

Find out what your sticking points are and then do clock in conscious practice to overcome them - on a daily basis. **You get good at what you practice doing.** Whatever your sticking point is: focus on spending a specific time each day on consciously doing the right behaviors to become good at that area of the seduction process. Turn weakness into strength, and liabilities into assets. The game is 100% learnable.

99% of your competition is too fucking lazy to put in the hustle to become highly competent in the areas of generating value that women care about, so if you actually put in conscious time and energy to develop the skills to generate the form of value that women care about then you will absolutely KILL IT in the sexual marketplace. Women are value-consumers and are highly attracted to value-givers. **Become highly competent in giving the form of value that women want to take.** This could mean:

- being good at approaching,
- being good at saying interesting things (such as cold reads, warm reads, astrology, palm reading, positive psychology, spirituality etc) that capture the mind of a woman,
- being good at flirting in a way that spikes her emotions,
- being good at humor in a manner that uplifts her spirits,

- being good at taking women on amazing experiences via dates,
- being good at touching a woman's body in a manner that gives her maximum pleasure, etc.

The problem is that a lot of guys have loser habits and loser hobbies that aren't conducive to developing these sets of skills. If a guy spends his evenings binge watching on TV shows then he is not spending his evenings developing competency in these valued skills. Simply becoming aware of where your time is going is absolutely essential in investing it in the right places.

DECIDE THAT THE PAIN OF STAYING THE SAME IS GREATER THAN THE PAIN OF CHANGE. CONTEMPLATE YOUR FATE IF YOU STAY ON YOUR CURRENT PATH OF PROGRESS AND SKILL LEVEL.

- Do you want to settle with old, ugly, fat, broke girls who gives you attitude , drain your bank account, and then have the audacity to treat you like shit? FUCK NO!!! You don't have to settle for low quality garbage when you have the skills to meet new women!!!!!
- Do you ever want to be in a situation where you see cute girls, but are paralyzed from taking action because you're too much of an ignorant pussy? FUCK NO!!!!! Invest in the knowledge of practical pickup, and sharpen your skills on the daily.

Here's the truth: YOU can meet women ANYTIME and ANYWHERE.

If you don't truly believe this then it's because you have been brainwashed by angry, hypersensitive #MeToo feminists. FUCK what they think. It's WHAT YOU THINK THAT MATTERS. Having the skills to go out TODAY and meet cute girls - who desire you - is a fucking superpower power. Learn these skills and reap the sexually charged benefits to years to come.

Guys stay in shitty, toxic-as-fuck relationships because they're afraid of leaving the girl because they think: *"oh no!!!!!! If this relationship doesn't work out then it would take FOREVER for me to find another girl like her."*

When you know you've got SOLID GAME SKILLS to approach, meet and attract new women into your life then you will be fearless in existing relationships because you retain that sexy "walkaway power", and you will have tons of options to choose a *crème de* la crème if you're single.

INVEST IN YOURSELF by training high ROI (return on investment) skills **every day.** You'll thank me later. "In a year, you would have wished that you had started today!" So start TODAY.

If you don't want to have a decade long learning curve before getting **REAL RESULTS** then listen the fuck up. I am going to be explaining the big secrets on how to accelerate the process of getting good with women, that I wish someone would have told me when I first started over a decade ago. I would have killed for someone to tell me this shit.

There are three ways to gain useful, practical knowledge about succeeding with women:

- (I) Reading stuff online - like this book - gain academic knowledge, and contemplate what you have read.
- (II) Take action in the real world, gaining experience and reflect on what you have went through.
- (III) Do nothing because "real men" already know what it takes to succeed with women and if it was "meant to be" then everything would happen on its own. Rot away playing video-games, watching movies and binge-sleep.

I. KNOWLEDGE THROUGH RESEARCH

In the first method, you are usually reading random pieces of information about succeeding with women and HOPING that it is relevant to your current situation.

- You are piecing these pieces of random information together with the intention of gaining a clearer picture of the whole map and integrating them into a holistic system.
- You verbalize out-loud the key concepts that you have learned to help internalize and reinforce them in your mind.
- You arm yourself with as much useful knowledge that you can, so that you will be ready to act decisively when opportunities arise.
- You hope that you'll remember your training through research when opportunities present themselves to implement what you've learned.

II. KNOWLEDGE THROUGH EXPERIENCE

In the second method, you are going out in the real world, approaching, striking up conversations, flirting, creating attraction, qualifying, vibing, closing and **DOING WHATEVER IS NECESSARY TO WIN** . After a "Daygame session", or a time of going out and approaching women, you spend time reflecting to maximize that which is gained.

During a reflection (also known as "writing a field report") contemplate these questions:

- "What did I do that WORKED and GENERATED REAL MOTHERFUCKING RESULTS? This way I can keep doing it!"
- "Why did it I do that DIDN'T WORK, so I can reassess the strategy and see if it can be improved upon?"
- "What did I do that GENERATED NEGATIVE RESULTS, so that I can cease doing that immediately."
- "What the fuck can I do to TAKE THINGS TO THE NEXT LEVEL?"
- "Based on my current level of progress where will I be six months from now?"

During the contemplation of the experience, it helps to be in an isolated, inspiring environment such as a nearby park, or taking a relaxing walk to help you think. Enter into a relaxed state of mind that is conducive to thinking. When you're thinking think about:

"What key behaviors implemented on a daily

basis would absolutely change everything for me and lead to you 10Xing my results?"

Good questions lead to good answers, and that is a fucking killer question.

Make a list of the key-take aways in a journal (or laptop) and be willing to review them frequently. Review is essential for internalization. You will notice that a lot of seduction advice is common sense, yet it is still often ignored and not implemented, so review is an essential boost to one's game and to keep crucial principles of game in the forefront of your mind. Knowledge is not skill; skill comes from relentless conscious practice and implementation of abstract concepts in the field.

DAILY DOZEN

You are more likely to implement what you've learned if you take the time to review it on a daily basis over a long period of time. Make a list of the top dozen things that you need to remember and then review that list every day for 100 days. You will suddenly catch yourself becoming better at the key points mentioned in your daily dozen.

Set aside your ego and remember that the arrogant cannot learn; one must be willing to acknowledge that he does not know everything before he can learn something. Be humble enough to keep reviewing the key concepts that you have noted for yourself; **repetition is what leads to internalization**.

CONCLUSION

The second method of going out, taking action and then reflecting on what you have learned is a

SUPERIOR METHOD to the first method which is reading, and thinking about what you have the read. The second method ensures that the information is highly relevant and highly personalized to YOU SPECIFICALLY. Seeing is believing, so the lessons that you gain from personal experience tend to stick HARD. Furthermore, it takes ACTION to develop skills and generate results (no amount of reading can substitute for this).

You want to be reading high quality content AND also taking real world action. The time that you spend reading should not exceed the time that you spend acting. If you spend almost all of your time reading and none of your time acting then you are a mental masturbator in great need of a punch to the face to WAKE YOU THE FUCK UP.

THE THREE MAJOR STEPS TO UNFUCKING YOUR SEX LIFE:

- 1. **Set a time during the day where you will focus on generating new leads** by approaching women at your local college campus, social events, coffee shops, book stores, or even supplementary hitting cup women online through dating sites such as bumble and Tinder. Incorporate this activity into your daily life with a ZERO EXCUSES MENTALITY. [1]
- 2. **Set another time during the day where you will follow-up on new leads that have generated through texts and calls.** There is little point in approaching women if

you collect numbers that you don't even call and don't bother to follow up. Set at least 30 minutes a day for this crucial daily training activity. NO MOTHER FUCKING EXCEPTIONS. NO DAYS OFF YOUR TRAINING.

- 3. And set a day during the week when you will invite these girls out on dates that lead to banging a woman in the pussy - **HARD**. TAKE ACTION TODAY. Yes, I am talking to YOU.

When thinking about the day's experience, reassess your mating strategy:

- - double-down on what is working with women,
- - let go of that which isn't working with women,
- - immediately cease that which is hurting your odds of success with women, and
- - consider alternative mating strategies.

FOCUS ON DOING MORE OF THE 20% THAT IS BRINGING YOU 80% OF YOUR RESULTS.

The bomb of a question is "How does one know what is working with women and what isn't working with women? After all, women may be too polite to express immediate verbal repulsion for a tactic that doesn't work so it can be difficult to assess the efficiency of game tactics?"

Learning how to analyze women and reading body-language is how you can tell what is working with women, and what isn't working with women. Her words may lie but her body and actions will speak the truth. **THE BODY DOES NOT LIE. THE BODY IS CONSTANTLY INVOLUNTARY SIGNALING THE TRUTH**

ABOUT A WOMAN'S TRUE FEELINGS. A woman betrays herself with actions - which reveal the truth of the situation. By speed-reading the non-verbals you can get an accurate picture of the situation and act accordingly. **She could be down to fuck right now but you missed out on the opportunity because you didn't know how to read the signals that she was sending it out.**

THE GAME IS 100% LEARNABLE

Did you know that 10% of men get 90% of the women?

Some men mistakenly believe that "one is either born with the ability to seduce women, or is screwed to be lonely (or stuck with ugly, old and overweight women with bad attitudes)." They think "if you aren't born with the magical gift of being charismatic, sexy and charming then it's game over". NOTHING could be further than the truth.

GO FROM ZERO TO HERO

The beauty of the dating game is that it is 100% learnable. You can go from zero to hero! Regardless of your past mistakes you can start over, learn the sets of skills it takes to succeed with women (from approaching, flirting to texting and physical escalation), and have sex every weekend of your life with a new beautiful woman (or even every day if you are inclined). It is 100% possible. The only limits are the limiting beliefs you have been brainwashed to believe.

The question is not "can it be done?" But the question is "will you invest in yourself to succeed?"

Use these affirmations:

- **"The sexual game is learnable and I will learn it!"**
- **"I commit myself to learning how women operate!"**
- **"I will take action every day to practice my skill in the field!!"**

Here is a cold reality: regardless of how women pretend to be, they actually enjoy primal sex with powerful men. They need the touch of a high status man to make them feel good about themselves and be satisfied as a woman. By having intercourse with her, you are doing her a HUGE FAVOR of providing pleasure and filling her cravings - like an Alpha Male. If you don't bang her, another guy will.

You owe it to yourself to learn every single day the specialized knowledge and practice the specialized skills that it takes to succeed with women. **Train hard every day. In a year from now, you would have wished that you had started RIGHT NOW.**

Real question: out of the year's 365 days, how many days do you make COUNT? [2]

To have a successful year, you have a series of success days. Think about how far you will be able to go if you practicing your chosen skill set (whether it's approaching, making moves, conversation, or flirting) for an hour a day every single day for a year. You would be miles ahead of the competition! You would be light-years ahead of where you are now! You would be so fucking good that you wouldn't even recognize yourself anymore.

365 days of consistent conscious practice of at least one hour a day on your chosen high return on investment skill will lead to absolutely remarkable transformation and results. Practice doesn't make perfect but it sure as hell makes you better than when you first started. In fact, practicing pushing towards sex - in real world situations - is the fastest way to learn the game - even faster than reading a book. You'll learn much faster from taking MASSIVE amounts of RAW ACTION in the field than you will from reading books.

Imagine how fucking amazing your game will be if you spent at least 1 hour a day hitting up women - either on Tinder, POF, Fetlife, OkCupid or in a relatively safer post-corona vaccine world: coffee-shops, libraries, college campuses etc.

Don't even be afraid of making mistakes or humiliating yourself in the process of learning the game. The faster you slip and the more times you slip, the faster you'll learn from the mistakes and improve. More failure means more lessons. Mistakes are successes when you learn from them. Each experience - regardless of whether the outcome was negative or positive - was a valuable learning experience.

The fear of rejection is what paralyzes guys from taking action. When you're afraid of disapproval then you remain in the mental prison of limiting yourself to only actions that will gain approval from women. For your own sake, give zero fucks what anyone thinks and then you will take true freedom. You will then be sexually fearless. Women desire to be used by you for their body - even if they are ashamed to admit this. BE SEXUALLY FEARLESS and almost ANYTHING IS POSSIBLE.

In the field of seduction, I strongly encourage you to take some time to really think about the one key behavior implemented daily that would make all the difference in

your sex life, and then put in the effort to create that habit into your lifestyle. At the beginning that habit will take a lot of start-up energy, but if you continue to consciously implement that positive seductive habit into your lifestyle then it will eventually become an ingrained habit and then the maintenance cost of keeping it around will be relatively very minimal.

After that single high ROI habit is internalized, the next step in the process is to stack another high ROI habit. Keep stacking high ROI habits until from the dawn to midnight, you implement a series of high ROI habits. It all starts with choosing one positive habit that will make the biggest positive impact on your sex life, and then consciously implementing it on a daily basis. Hang a visual reminder on the door to your house so that every time you leave or enter your home, you're reminded of your task.

THE 5 KEY POINTS TO TAKING ACTION EVERY DAY

- **Massive action:** the action that you take should be high in quantity. Do a deep dive of an immersive action of several hours a day towards your goals.
- **Radical action:** the action that you take should be high in quality.
- **Consistent action:** don't take any fucking days offs. Every day is training day. Hang a calendar on your door, and put red check marks to show that you've taken action on that particular day. When you leave your home, you will be reminded of your goal through that visual reminder.

- **Conscious action:** keep your goals at the forefront of your mind. Verbalize your goals, and visualize your vision every morning as soon as you wake up.
- **Accountable action:** hold a weekly meeting with someone who is pursuing the game goals as you are, and discuss the prior week's successes. Having at least one wingman will create a sense of accountability (you can't fuck up because other people are depending on you).

---

1. It's incredibly important to have no training days off because once you start taking days off then having excuses becomes the new norm. When you unconsciously realize that you could take an excuse if you really wanted to, then somehow your brain will constantly find excuses to take a day off. **What the heart desires, the mind will rationalize.** The higher intelligence a guy is, the more likely it is that his brain will create highly convincing excuses to take the training day off. Dumb idiots fuck more women than high IQ guys because they are stupid to come up with reasons why they shouldn't take action with women today; they turn off their brain and just take HUGE AMOUNTS OF ACTION IN THE FIELD - eventually stumbling upon sex. The more action you take, the more you leverage the numbers to your favor, and the more "lucky" you get. Further, the more action you take, the better you become at taking action.
2. A lot of guys have super productive and killer weekdays but lose the progress that they've made by completely fucking up their weekends. The key is to be ULTRA PRODUCTIVE every day by entering a zen like hyper focus state, being acutely aware of your goals, verbalizing your vision every morning, and executing your daily goals like the fucking terminator at FULL FORCE. NO DAYS OFF. Be a weekend warrior, motherfuker.

CHAPTER 7

LAW #104: HAVE CLEARLY DEFINED GOALS. REVIEW DAILY.

It's absolutely paramount to know what you want out of the sexual marketplace. This is the single most important principle in the entire red pill philosophy. If you know what you want out of this entire game, you put yourself in the best position of getting there. Define your vision clearly in your mind. **Fuzzy goals lead to semi-results; clearly defined specific goals lead to SOLID RESULTS.**

TAKE A FEW HOURS TO ANSWER THESE CRUCIAL QUESTIONS

- Do you want to just have sex or do you want to have a long term relationship? Do you just want raw animal pleasure, or something more meaningful?
- What kind of qualities do you want to have in a sexual partner, or girlfriend? Do you want a party animal who frequents bars and clubs, or

someone who is more ambitious and career oriented?

- What kind of man do you want to be, and what specifically are you doing to get there? Do you want to be a low key 9-to-5 corporate soldier who does everything by the book, or a ruthless business man who runs an empire?
- Which guys do you know specifically that are ultra successful with women, and what do you need to do to hang around them - so that you can study their behavioral patterns? Do you hang around places or attend networking events that would allow you to meet charismatic Alpha Males who you could learn from by the power of role-modeling?
- Is your vision based on something that you personally want, or something that society (consumerism) has brainwashed you to believe is valuable? Do you personally like the girl, or do you just like her because other guys would like her?
- How much time do you need to spend every single day meeting women, practicing attraction-generating techniques, and following up on leads to achieve competent seduction skills? Do you have an accountability partner, or some way of holding yourself accountable to do doing this?

If you don't know where you are going, you will get nowhere. Take a moment to visualize your ideal self with girls.

- What kind of man do you want to be?

- What kind of high-demand skills do you want to develop?
- What kind of lifestyle do you want to have?
- What kind of beautiful girls do you want to have in your life?
- What kind of responses do you want to elicit from women?
- KNOW WHAT YOU WANT. Are you interested in being a player who gets laid with a new girl every week every time his week, or do you want to have a relationship with a single beautiful women (but have the sharp skills to get new beautiful women if you want to)?
- If you could be anything with no chance of failure then what you would be?

Work towards your vision every day!

CREATE A VISION OF SUCCESS WITH WOMEN, AND MAKE PROGRESS TOWARDS THAT VISION EVERY SINGLE DAY FOR A YEAR (BY TAKING ACTION EVERY DAY, AND HAVING A SERIES OF CONSCIOUSLY IMPLEMENTED HABITS). JUST MAKE SURE THAT IT'S A VISION THAT YOU ACTUALLY WANT AND HAVE CHOSEN FOR YOURSELF - RATHER THAN OTHER PEOPLE HAVE CHOSEN FOR YOU. IT'S YOUR FUCKING LIFE, SO CHOOSE SOMETHING THAT RESONATES THE MOST WITH YOU - NOT WHAT OTHERS HAVE CHOSEN FOR YOU. ASK YOURSELF "WHY AM I IN THIS GAME?"

- Don't game for validation. Let go of the need to learn pickup-skills to impress other guys. Don't learn game skills to impress random people on the internet. Don't get a specific girl that you're not attracted to, just because other guys are attracted to her. Don't game because you feel worthless about yourself, and when other beautiful women express interest in you then suddenly you start to feel important; that's an endless blackhole that never ends. Get ego validation from within. **You are highly valuable regardless of your specific results with women, and regardless of what women think about you.**
- Don't learn the game just because you weren't popular in high-school and this is your way of turning a childhood fantasy into a reality. Many of the childhood dreams were formulated when

your brain wasn't fully developed and you didn't yet have a mature view on the world. **Learn the fundamentals and highly competent game skills in order to be in the most conducive state to achieving specific goal(s) in the present**,[1] while letting go of the goals of the past and silly notions of what's what pursuing - when you had an inaccurate perception of reality.

- Don't game because you're using women for a sense of happiness. This is an ENDLESS THIRST TRAP. Draw state from within.

Some girls in particular are beautiful on the outside, but ugly on the inside. They might be pleasant to look at, but they are toxic when you're in a relationship with them then their real version comes out. The way that a woman behaves in a relationship is different than the way she behaves during the initial pickup phase.

Game to achieve a specific result that is personally valuable to you. Know what the END GAME is for you. One day you will cease to exist; everyone on this planet is a ticking time bomb - with his life force slowly dripping away with each passing moment. Before the life force fades into oblivion on this planet, know what you want to achieve as a final destination.

If you aren't clear about what you want to have then you really decrease your chances of getting it, so the first step to having a successful entrance in to the sexual marketplace is being clear about the destination. It goes without saying that regardless of your destination, it is still worth having high-tier highly competent GAME SKILLS (such as knowing how to meet new women, spark intrigue, ignite chemistry, form an emotional bond, physically esca-

late, follow up on more dates, keep up contact through texts/calls/video calls etc) and keeping those GAME SKILLS SHARP.

Do you want:

- Something casual which is just being friends with benefits[2].
- Something non-committal such as having a long term open sexual relationship.
- The full blown hardcore path, a woman to raise a family with.

The strategies used to lead you towards the END GAME will be based on what that END GAME is.

Again: if you don't know what you want, don't expect to suddenly get it. **You have to know what you want out of this game, create a game-plan to get it, and consciously work on a daily basis to reach this vision - consistently for years.** It is an active ongoing journey to achieve the END GAME - not something that should be left to chance.

Contrary to what Hollywood movies have implied, the nice anxious guy doesn't get the girl. In the real world, the girl just ignores the weak beta. No, she doesn't see his golden heart, past the weak external surface. The nice guy doesn't stand a chance. Your life would be so much more awesome if you were an Alpha Male. The defining trait of the Alpha Male is that he is extremely aggressive in going after what he wants in life, and he doesn't give a fuck if anyone disapproves.

It's not enough to know what you want. You need to a create a specific play-by-play plan of action on how you are going to get there, review your progress on a daily basis, and refine the plan

on a weekly basis. A third time: don't expect yourself to magically get to your destination without conscious effort. **You have to hustle to develop yourself to be a TOP TIER MAN because women fuck the #1 guy that they have access to - not second place.** BE THE BEST POSSIBLE OPTION in a woman's life.

TAKE POWER BECAUSE IT GIVES YOU THE ULTIMATE SEX APPEAL. THIS IS THE GAME OF POWER IN SOCIETY AND WHY IT MATTERS:

Women want powerful men, which forces you into playing the game of power, and mind games designed to get power. Be on a path towards the top.

This comes from years of conscious personal development, taking action every single day, having a mentor who is highly successful[3], and being at the APEX of the social food chain. The path to power is open to anyone who has the fucking balls to climb it. Unfortunately most men would rather give into instant gratification and mindless distractions (Netflix, Oculus Quest 2, Cyberpunk video game, fruitless conversations with the boys that leads nowhere) than to climb the path to the top, but those that do climb to the top are able to achieve sexual results like no one else. The path to the top of the social totem pole can take years, but it is a prudent mating strategy for the long term. **Be on a consistent path towards apex power in society.**

While a broke loser (with no future) can still get you laid with girls as long as he has:

- BULLET-PROOF CONFIDENCE 🔥,
- GIGANTIC BALLS, 🏀 🏀

- TENDENCY FOR RELENTLESS ACTION TAKING ,
- DOESN'T GIVE A FUCK IF YOU DISAPPROVE OR REJECT HIM BECAUSE HE LEVERAGES THE NUMBERS and knows his approach to sex funnel conversion rate, and has
- STRONG GAME SKILLS.

eventually the girl will realize that he has nothing else going for him. She will come to realize that it's all a facade, and he isn't a viable option for a long term relationship because of his loser status in society. Players like this can get girls, but they can't keep them because of how incompetent they are in the game that matters the most of all: the game of life.

BE THE COMPLETE PACKAGE, MOTHERFUCKER.

---

1. Having GAME SKILLS is like having a car. It is a tool to be used. You can use it to get laid with beautiful woman, or to find a relatively high quality woman to enter into a relationship with. Alternatively, you can use GAME SKILLS to land mutually lucrative business deals that bring in serious cash flow directly deposited into your bank account. You develop GAME SKILLS by being acutely aware of what specific goals you are trying to achieve with women, contemplating the best strategies/plan to achieve them, and practicing every single day - while taking the time to reflect and refine your strategies/plan based on results accumulated. Focus the most on what is giving you the most results. If during your experiences, you notice that something is taking away from your results then stop doing that shit. Do more of what works, less of what doesn't, and keep experimenting on various new strategies. Another way to accelerate the learning curve is to find a role model who is already successful in doing what you want to do, and observing him - even if you have to pay him for the privilege.

2. When a woman is attracted to you then she'll say whatever is necessary for herself in order to justify her actions and avoid feeling guilty/seeing herself as a slut in her self-image.
3. Humans are hardwired to learn the fastest by observing others (Social Learning Theory). Simply watching an Alpha Male behave in a matter that is sexy to women is a shortcut to internalizing the behaviors yourself. Read that again: **observation is a shortcut to integration.**

   The issue is that not everyone has a role model that they can emulate. Some guys were raised in a single mother household - with an absent father. In the ideal scenario, they would have learned how to interact with women by growing up in a household where the father interacts with the mother in a manner that is conducive to a healthy sexual relationship; they would have had gems of masculine wisdom dropped by their Alpha father during heart-to-heart talks.

CHAPTER 8

LAW #105: REMIND YOURSELF OF YOUR VISION EVERY MORNING.

STOP what you are doing right now and ask yourself these questions:

- "WHERE DO I WANT TO BE SIX MONTHS FROM NOW?
- WHAT ABOUT FIVE YEARS FROM NOW?
- WHAT IS THE PURPOSE OF MY LIFE?"

Visualize your destination clearly in your mind. Develop a fiery vision that propels you forward. When you have an exciting meaningful mission in life, you'll be jumping to get out of bed in the morning instead of hitting the snooze button for the fifth time - moaning "uhhhhh-hhhh not another boring day!!".

Friedrich Nietzsche said **" *He who has a why to live can bear almost any how.*"** Remind yourself of your vision and the reasons behind why you started your journey every day!! Remember: WHY YOU DECIDED

TO START YOUR JOURNEY and WHY IT'S IMPORTANT FOR YOU TO REACH YOUR DESTINATION to accomplishing your goals. Then you will live a life of passion, purpose and fulfillment.

"To live is to suffer, to survive is to find some meaning in the suffering" says Friedrich Nietzsche. The philosopher explains the secret to being BULLET-PROOF and ANTI-FRAGILE. When you have meaning in your life then you will be be able to ENDURE anything that life throws at you!! When you have a purpose to live for then you will find inner-strength that you did not know that you had, and will be able to HANDLE ANY CHALLENGE.

KNOW WHAT YOU ARE LIVING FOR. Set specific measurable goals that will get you closer to fulfilling that purposeful, meaningful vision. Then execute those goals with everything you've got!! MAKE EVERY DAY COUNT.

Friedrich Nietzsche teaches: ***"That which does not kill us makes us stronger."*** Do not be afraid of challenge. Every-time you survive a challenge, you grow wiser, smarter and tougher. Even if you did not achieve your specific goal, you still learned more about what it takes to succeed. When you take action, you'll experience one of two outcomes: you either win, or you learn more about winning.

Every time you approach a woman you win. You either girl the girl, or you learn more about getting the girl. THERE IS NO SUCH THING AS AN APPROACH THAT IS NOT A WIN.

Don't be afraid of trying your best in the field and making mistakes; be afraid of not even trying. Often one learns more from mistakes and losses than successes.

Knowing what NOT to do is just as important as knowing what you should do.

Review your vision every single morning when you wake up. Be a man who lives passionately on his purpose. A woman does not want to be the purpose of your life but a helper to helping you succeed in your purpose in life.

CHAPTER 9

LAW #106: LEARN USEFUL KNOWLEDGE FREQUENTLY.

TREAT A WOMAN AS SHE ACTUALLY IS - NOT AS YOU WISH SHE WAS

Admitting reality for what it truly is can be painful. It's easier to just put one's head into the sand, ignore the truth and pretend:

> *"EVERYTHING is just fine; my life is perfect! I don't need to improve because I am perfect! Anything bad that happens to me is not my fault. It's someone else's fault!!!"*

It's easier to imagine that reality is what we want it to be - instead of confronting it for what it actually is. In the novel "Don Quixote", Don Quixote behaves as if the world is an idealized fantasy (gaining a sort of self-sabotage bliss from ignorance) and as a result of living a life of delusions, he fails on an epic proportion.

Your perception of the world is your map of reality. To succeed in the game of life, one needs an accurate map of reality. As a man, you must confront hard truths - no

matter how painful they are. **The raw truth can HURT LIKE A MOTHERFUCKER, but ultimately it will empower you.**

The red pill is to embrace the dark side of female nature - no matter how painful it is - and act accordingly. Women are not just sunshine and rainbows. They have a dark side to them. **Red pill isn't about hating women. It is about accepting women for what they are and behaving accordingly - not for what they are not.**

The red pill isn't about hating society and hating people. It is about accepting the world for what it is. Then doing what is in your best-interest - just like women are doing what is in their best interest. **You have no one to truly rely on, but yourself. A woman's love is always conditional. Always take care of number one: you.**

CHOOSE THE RED PILL AND SEE HOW FAR THE RABBIT HOLE GOES...

There are many difficult to swallow red-pill truths about women and life, but once you embrace reality for what it is then you will be in the best position to succeed in the brutal game of seduction. After all, seduction is war.

- **The hard reality is that a woman will always prioritize her own agenda over yours.**
- **The hard reality is that women say they want nice guys, but chase bad boys.** Look to a woman's actions, micro expressions and body-language ascertain the truth of the situation.
- **The hard reality is being a people**

pleaser, being addicted to approval and praise, and putting everyone's goals ahead of your own: will get you nowhere in life.

- **The hard reality is that women will play the role of an innocent prude to a nice guy, but be a dirty slut to a batboy who TURNS HER ON.**

Invest in yourself by learning red pill truths and other pieces of valuable useful knowledge on a daily basis. Don't waste time on junk activities like watching movies and TV Shows; invest that time into learning things that will prove useful to you!

CHAPTER 10

LAW #107: CREATE WINNING HABITS.

A WOMAN WILL PRIORITIZE herself above all. Her own (unconscious or conscious) agenda will always be pushed forward. That's why one of the best pieces of conversation advice is to stack observations about her. **Cold reads are very effective when dealing with women because her favorite subject in the world is herself. When you share thoughts about things that you have noticed about her then she will be captivated.**

Just like a woman prioritizes herself, it's your job to prioritize yourself! Just like she is looking out for herself, you must look out for yourself! She's getting value out of you and that's why she is sticking around. **Women are attracted to value-givers.** As a man of high-status you are a value-giver because you have abundance in your life. It is important that you take value, as well. A mutually beneficial exchange of emotional value is what will keep the connection alive, and how society has functioned since the dawn of time.

You must take care of your mind, and body. These are machines and when you take care of them, they will take

care of you. **Purge yourself of negative emotions, negative people, negative situations, and negative self-talk.** Focus on positive emotions, people that inspire you, situations conducive to your growth and thoughts that motivate. Part of taking care of yourself is to realize the importance of mental health. Make research and daily learning a priority. For 2020, aim to be high energy, highly motivated and disciplined to accomplish a lot - every single day.

Now is the time to ponder 2020 resolutions. Ask yourself: "Which one positive behavior implemented daily would lead to a remarkably positive change in my life?"

- Quitting all TV shows, movies and video-games; then replacing those time sinks with reading and/or watching courses on areas that you want to improve in.
- Eliminating toxic people from your life who drag you down because they don't have much to offer. You may have found yourself prioritizing them, when they wouldn't prioritize you in return. Instead, reinvest the energy into higher-quality people who have much more to offer.
- Aiming for hotter, sexier and more beautiful girls. Don't feel guilty for cutting out ugly women from your life. You have spent years developing yourself as a man, and you deserve women of beauty in your life.

Focusing on developing a chain of positive daily behaviors such as working out, reflecting on ways to improve your life, and eating healthy. First you build your habits and then those habits build you. Successful seducers have a

set of connected habits that lead them to automatic seduction; they almost can't stop meeting women and having sex because it's so naturally integrated into their lifestyle.

Be the person that you wish you were every single day for the rest of 2020, and you'll thank yourself for this resolution in 2021.

Do not allow social anxiety, depression or panic attacks to stop you from living life to the fullest! Some men have been haunted by these weak emotions for years. In fact, they have been haunted for theses emotions for so long that they have considered them to be a normal way of being. **You have the kill the weaker version of yourself, so that the stronger version of you can take over!**

There is a constant battle between the weaker version of you and the stronger version of you. It is the version that you feed that becomes stronger!

It is time to undo that cycle of pain and self-sabotage! It doesn't matter who you were in the past, or how many mistakes you made. Let go of the past and start again this very moment!

Many men have an acute fear of beautiful women that paralyzes them from taking action. When they are in the presence of a beautiful woman they stumble over their words, and exude nervousness - instead of calm strength and certainty in their own high worth.

WHAT KILLS FEAR AND SOCIAL ANXIETY?

The answer is simple but incredibly powerful. It is action! The more action you take towards achieving your goals, the less intensity of negative emotions you will feel.

Action is the cure against fear, social anxiety, and general nervousness around someone attractive who is the opposite sex.

When you do that which you are afraid to do, the fear vanishes. When you take action to have intercourse with beautiful women, you will continue to internalize the mindset that there is nothing to be afraid of but your own illusions that there is something to be afraid of.

You can learn more from simply confronting your fears and doing that which terrifies you than you will learn from hours of mental conditioning (with affirmations and self-suggestion). Never underestimate the sheer power of action.

You build your personality one step at a time with every action that you take.

It is of paramount importance to develop the action habit. The action habit is simply the positive lifestyle route of taking action every single day to make your vision a reality. If your vision is to be better with beautiful women, to have a beautiful girlfriend, or to have a rotation of women who you are having intercourse with it: it is imperative to set daily goals to achieve that.

You can learn all the theory in the world, but if you don't take action then you will get nowhere and even a guy with poor game will still outshine you. Develop the daily action habit!!!

CHAPTER 11

LAW #108: CREATE A MOMENTUM OF NON-STOP WINNING.

The unconscious mind is always soaking in the actions that one takes. Self-sabotage actions create a turbulent mind. In contrast, one who takes MASSIVE ACTION - inspires himself and sends a message to the unconscious mind that if he applies himself then he will eventually emerge victorious. **By behaving like a warrior then one develops the mind of warrior because the external awakens the internal.**

CHAPTER 12

LAW #109: DON'T BE A LITTLE BITCH.

Instead of of complaining, being bitter and focusing on the negative in life: take serious amounts of action to achieve what you want out of life. The key is to take action consistently EVERY SINGLE DAY and start today.

- The life that you want to live isn't going to magically unfold unto itself.
- The beautiful women aren't going to suddenly fall out of the sky into your lap.
- Dreams don't come true simply by themselves.

You have to know what you want, and actively take steps to turn that dream into a reality every day because it won't happen by itself. You have to take a proactive approach - rather than a passive approach. Being bitter and complaining about how bad you have it isn't going to change anything. Playing the victim card and giving a laundry list of excuses isn't going

to change anything either. Take responsibility for your life starting this moment!

TAKE YOUR HEAD OUT OF THE SAND AND OPEN YOURS EYES. IF YOU ARE A LITTLE BITCH, YOU WILL GET NOWHERE IN LIFE.

The lesson is simple: don't be a little bitch.

The biggest danger for men is that they expect their problems with girls to magically be fixed by themselves. Things are not going to magically fix themselves. Things are not going to magically come together on their own. You need to develop a TAKE FUCKING CHARGE perspective on life.

You have to create a vision. Then set goals that are designed to get you closer to that dream you have in your mind's eye. **Once those daily goals are defined clearly, attack them with FULL FORCE. Attack! Attack! Attack!**

"Obey the Law of Reality. What is the Law of Reality? It is exactly what you think. Instead of REACTING to reality as burned Nice Guys do, you end up EMBRACING reality. When people follow the Law of Reality, the entire world seems filled with marvels."
- Pook

CHAPTER 13

LAW #110: DON'T BE A SHEEP.

"The Way is the default life most men revolve around. The Way is routinely celebrated and held up as the only Way. The Way consists of the following:

- Go to school. Get good grades. Do the senior prom, go to school dances, give a girl your high school class ring, and other garbage like that.
- Go to college. Get even more good grades. Participate with the campus activities, especially the feminist ones. Celebrate the Vagina Monologues. Become a mangina and write against evil patriarchy and how women need more rights and security.
- Get a job, not in something you like, but in something that provides security. Make money by working harder.
- Meet a girl, fall in love, and marry her. Participate in the elaborate wedding and the honeymoon to a place you didn't choose.

- Buy a big house because of the expectation of kids.
- Once married, the other married guys show you how the system works by showing you the home improvement activities you now get to engage on. Yes, you get to go buy hammers and screws to continually improve the house. Lawn care, house care, car care, yes, your purpose is to maintain this physical shelter and make it look 'acceptable.'
- Have a kid or two. Wife gets fat and cuts her hair. You must accept this. You will now work 24 harder and be forced to get promoted due to the rising costs. You have become the wage slave.
- Keep doing this for decades until your soul evaporates. As your body breaks down (it will at this fast pace), let your wife play the role as the 'nurse' as you begin to make continual trips to the hospital.
- Die.

Sounds fun doesn't it? It certainly doesn't sound appealing to me. Keep in mind that I am not knocking college, good grades, children, home improvement, and all that. **What I am knocking is the pre-formulated life. This 'default' view is life in the Matriarchy**. And this is if you are lucky and were not divorced." Pook

Don't be a sheep. Think for yourself. Don't mindlessly do what the current culture of the times tells you to do. Don't be another sheep conforming to the masses.

The average person is a broke beta. Just doing what

everyone else is doing will make you average. FUCK being like everyone else. Achieve greatness!

When it comes to seduction being a rebel and breaking conformity is one of the most exciting masculine character traits that TURN WOMEN ON.

CHAPTER 14

LAW #111: DON'T BE BE HUNG UP ON A FORMER LOVER.

When you chase an ex girlfriend then you may end up compromising your self-esteem and confidence levels. You're essentially communicating the message of:

"I am willing to give away all my power, and beg for you to come back. I will get on my knees and degrade myself, just to show you how much I want you! Tell me who I need to be and I will be that person for you! I will do anything and be anyone. Just take me back!"

While it may sound like this would work, it's actually really damaging to a person's self-esteem to communicate this message because it communicates to one's inner-game that he is not valuable as he is right now. **Even if he gets the girl back, this insidious low-value frame in the relationship is damaging and comprises his self-concept and place in the sexual marketplace. If you have to beg, apologize profusely, and degrade yourself to get a girl to be with you think about what that does to your self-image.**

Furthermore, women seek confident and powerful men. Breaking down with a frame like this, shows that he

never really was confident to begin with. **A confident man doesn't break down immediately the moment something goes wrong; he keeps assuming that he has value.** Giving away one's power actually has the opposite of its intended effect because ultimately women desire powerful men and giving away one's power damages his perceived image.

Here's the truth: a person live in a hallway of infinite doors (opportunities). Each door has tremendous value inside, upon opening it. Sometimes one door was open but then suddenly shut. Instead of looking at the other doors, the man can't help but stare at the closed door and keep knocking it endlessly This causes a lot of needless suffering and sadness. It also causes one to miss out many, many, many present opportunities in his existence - just because he can't adopt to the current situation. **By focusing on what someone doesn't have instead of focusing on being grateful on what someone does have, and the present available opportunities: a lot of needless suffering is caused.**

Life is a series of creating and ending connections. It is normal for connections with women to be only temporarily. Think about your teachers in college; did you feel sad that the connection finished the moment the semester ended? No. Because you understood the nature of life: all things are temporarily. Understand this: everything in this world is temporary - even life itself. In this world, we are just passengers passing by a series of moments in this journey and in the end there is death. It is an illusion that you can have a beautiful woman forever. The secret to getting over an ex-girlfriend is to realize that you've never really had her on "lock" in the first place because of the temporary nature of existence, and to get a new, better girl. **No matter how "special" the first**

girl was, there's another girl out there that is younger, hotter, and you can have more chemistry with.

A person's emotions tricks him into thinking that she is special, unique and one-of-a-kind. The truth is that she is like many, many other girls: just an ordinary girl who will one day grow old, disgusting and die. **The emotions you felt with her came from investing into her, and the same feel-good emotions can be created again with a woman of your choice.** Emotions are often not real but rather are based on illusions.

Just try to be prudent about which girl you allow yourself to develop feelings for before developing those feelings; falling in love with a gold-digger who doesn't actually like your personality but is in it for the money and pragmatic perks can almost destroy someone's life. **One has a certain level of control of himself before he becomes susceptible to losing control; the trick is to take charge during that temporary moment of clarity.**

It is a woman's nature to not have loyalty. She is only loyal to herself and the value that she gets from being with you (either present or potential). Her loyalty to you is actually just her loyalty to herself. A woman is loyal to the value that she receives from you. **When that value fades, she will be gone. And all of that which you have done for her in the past will be conveniently forgotten.**

Hence, forming a connection based on a woman liking your personality is more stable than forming a connection based on temporary/dynamic factors such as social status, and wealth. **While the latter can get you in the door, it's the former that keeps the interaction alive during the volatile nature (inevitable ups and downs) of socials status and wealth.** Put simply:

giving emotional value based on purely having a charming, charismatic personality that she appreciates is more stable than giving emotional value based on social status, perceived wealth (fancy dates/expensive experiences) and provider based "game".

What is game? **It's developing one's sexy personality, exuding that sexy personality systematically, and having girls in your life like you for (relatively) you** - without having to take out your wallet and compensate with alternative pragmatic perks. Playing provider "game" is not real game. Almost anyone can get a girl temporarily by dishing out cash left and right.

The irony is that women may ask you to change. If you comply, a part of her resents that she had this power over you and that she is dating a submissive boy. **Change enough times (turn "pussy whipped") and you've lost the exciting unpredictability, rebel, dominant, powerful "I don't give a fuck" persona that got her interested in the first place.** Keep things fresh and exciting - without being a boring conformist who always says "the politically correct nice thing". If you get your ex girlfriend back by doing everything that she wants and fulfilling her every whim, then the excitement that she had from you being an unpredictable uncontrollable rebel is gone. It's not even worth losing your frame and dominant nature to get her back because the sexual attraction will be more "obligatory" instead of "lustful". Keep assuming value and status - all the time.

A larger part of wanting to get your ex back comes from the human instinct to respond to things that are closed, by wanting them more. The oldest trick in the book is playing hard to get because it's human nature to want a dangling string that disappeared more than a string that's

on your lap. **Put simply: you just want her because she said "no".**

Keep in mind that if you get her back - all the same problems will be present - except now she has even less respect/attraction for you because she knows you crawled on your knees to beg for her to return. It's more efficient to train one's mind to snap back into the present moment, be able to move on and get a new girl fast - rather than dwell on the past - replaying the same mistakes in his mind over and over falling deeper into self-pity/misery.

Let go of the past. **Spending too much time thinking about it means that you're missing out on the opportunities in the present.** Bring yourself to the HERE and NOW. The things in store for you in the present and future will be better than that which has already transpired in the past. Train hard every day; take daily action; you will win and conquer the world.

CHAPTER 15

LAW #112: DON'T DWELL ON THE PAST.

REPEAT THIS MANTRA OUTLOUD FOUR TIMES

- **THE PAST IS DEAD!!!!**
- **THE PAST IS DEAD!!!!**
- **THE PAST IS DEAD!!!!**
- **THE PAST IS DEAD!!!!**

Don't dwell on the past. It is over and done with. Those stuck on the past are missing out on something much more important: the present.

The easiest way to get over a former lover is to replace her with a better lover. Don't be afraid to put yourself out there and interact with many women. When one puts himself in the way of opportunity then many opportunities will come. Don't wait for the perfect girl to fall out of heaven. Be proactive in finding her. She is out there. Just like you are looking for her, she is looking for you.

Even when you are not doing pickup and meeting

women, focus on developing yourself to maximize your SMV.

Some men have been stuck in toxic relationships in the past. The women put them down, compromised their sexual market value, and confidence levels. These men have been around toxic women for so long that they have habituated being stressed and abused as the new "norm". Standing up for yourself is not being an asshole. You deserve better!!!! **Condition yourself to be extremely aggressive in going after what you want in life!!**

Some guys are so stuck obsessing over a former relationship that they had with a woman that they have little psychological energy left to meet new women. If you're focusing on the past, you might miss out on opportunities on the present. FUCK THE PAST! Bring yourself to the present.

You can't change what has already happened. Thinking about it is useless to you. Replaying prior mistakes in your mind only causes you greater suffering. You can be addicted to a certain kind of suffering; you can be addicted to mental anguish and hence, you keep thinking negative thoughts. PURGE YOURSELF OF NEGATIVE THOUGHTS AND EMOTIONS. Bring yourself to the present moment because life happens in the NOW!

CHAPTER 16

LAW #113: DON'T HANG OUT WITH LOSERS.

It is healthy to be part of a supportive peer network. Having friendships with men that care about you (and you care about them) is incredibly beneficial for one's mental health. You have a lot to offer to the world, as does the world to you!

Do you know what is FOUR or FIVE TIMES more effective than a resume for getting a dream job? It is: getting a recommendation from someone within that organization. Social skills can be used to land you a working position of your dreams - among a multitude of other benefits. If you're an entrepreneur, then the same can be said for landing a mutually lucrative business partnership.

Be part of a mastermind group of people that share similar life goals as you do will advance your personal goals. Find ambitious, driven men that are highly motivated to succeed in the game of life. Befriend them. They will keep you inspired to keep taking action and reaching your full potential. Run with lions and you'll become a lion. Hang out with losers

DITCH THE LOSERS. CREATE A TRIBE OF WINNERS.

CHAPTER 17

LAW #114: THINK POSITIVE.

You can be happy no matter what!! Happiness is a state of mind. One should be happy and calm regardless of external circumstances. Positive Intelligence Quotient (PQ) measures to what extent your mind is serving you instead of sabotaging you. The great news is that PQ can be improved!

Once upon a time there was a wealthy man who enjoyed traveling to exotic places. He was always looking for the next big purchase and exciting experience that would bring him happiness. "If only I had a better car then I would be happy. If only I went on vacation to the Egyptian pyramids then I would be happy."

The wealthy man was drinking his cold beer on the beach when noticed an ordinary man with plain looking clothes laying on the beach. This laying man wore simple clothes but he was extraordinary happy. In fact, he was the happiest man that he has ever seen in life.

"Why are you laying on the beach when you could be making money?" asked the wealthy man. "Why do I need to make more money?" asked the plain man. "So you can buy more things and have more luxuries. Then you can be happy." The plain man replied "I am

not wealthy like you, but I am happy with what I have now. I already am happy and I already have everything that I need."

The wealthy man then realized that happiness is not dependent on external stimuli such as having a beautiful woman, or having the latest iPhone. Happiness is a state of mind. A man can be happy regardless of outside conditions. Happiness comes from appreciating and having gratitude for the many gifts that you have now.

"When I will be successful then I will be happy" is a fallacy because there is always a higher level of success that one can achieve. **As soon as you get the latest XYZ then there is another thing that your heart will desire.** Science reveals that happiness is the first key to achieving success. **If you are happy then you will have a lot of physical and mental energy that will fuel the path to achieve your dreams.**

Being happy doesn't mean ceasing the pursuit of higher social status or wealth. **Even if one is striving to achieve these goals, he should do so from an emotional position of happiness and energy - rather one from a position of sadness and depression. When one is happy then he will have a lot more energy to conquer challenges and WIN AT ALL COSTS than if he is sad.**

One of the main secrets to being happy is developing positivity. By being positive one will increase his physical and mental energy to achieve much more in life. Positivity is the ability to stay focused on what is good in his life - instead of obsessing over what is wrong.

If one is dealing with a difficult situation then it is optimal to "change what he can" but "let go of what he can't". Instead of complaining bitterly, ask yourself "Is there something I can do about the situation? If there is then let me make a plan of action to do it!!!" Instead of

complaining perceptually, figure out what your goal is and create a plan to achieve that goal.

Have you noticed that children are almost always happy? Dwelling on the negative in life is a habit that is developed in adulthood. **A big secret to happiness is to focus on what is good in your life and the good things that will come into the future - instead of spending a lot of time thinking about what you are missing and replaying miserable events (like prior breakups with ex girlfriends) in your mind.** Don't torture yourself by thinking negative thoughts. Thinking negatively makes you feel like shit and can result in negative behaviors. Think positive to feel positive to take positive action.

Additional happiness comes from having a clear meaningful vision about something that you want and making progress towards it every day.

Thinking positive is highly relevant to the game of seduction for if a man thinks negatively and believes that he "can't" get a girl then this limiting belief fucks him up. In the game of seduction, you get what you believe you deserve. You have to sincerely believe that you are the prize and that the girl is incredibly fortunate to be with you; then she will be yours.

CHAPTER 18

LAW #115: PUT YOURSELF FIRST.

The psychopath isn't overly concerned with doing the "right, honorable" thing. Why? Because women aren't honorable. Why should you give women an advantage that they wouldn't give you? Instead of prioritizing her by being a self-less provider and protector of women (who don't appreciate this), focus on prioritizing yourself, pursuing your own goals and dedicating yourself to reaching the full potential. **PUT YOURSELF FIRST.**

There are many horror stories of men who have dedicated significant chunks of their life in service of a woman, only to be savagely rejected and left to the dust when the woman found a better man. Instead of focusing on being a selfless provider to women who don't follow the guidelines of honor, focus on your on self-development, career path/business ventures and reaching your full potential. **YOU OWE IT TO YOURSELF TO TAKE CARE OF NUMBER ONE: YOU.**

LOOK IN THE MIRROR.

Sometimes men would prefer to live in denial because it means less responsibility. "I don't have to learn anything because I'm already perfect just the way that I am!" the overweight pimple faced nerd says while playing video-games for hours, and gulping down his 2nd bottle of soda.

"Just be yourself" is not good advice for losers who are heading nowhere in life; it's an excuse to rationalize being lazy and avoid feeling guilty.

Sometimes the biggest red pill to swallow is the fact that one has a lot of room for improvement in his life. If "you suck" admit that "you suck" because that creates a vacuum for you to fill with self-development.

He who thinks he knows everything will learn nothing; he who thinks he is already perfect will fail to develop himself to higher levels. **He who thinks he is already doing everything he can, won't even try to push himself harder.** He who plays the victim card and blames everyone else for his lack of success, will fail to take responsibility and grow.

If you keep doing what you're doing, you'll keep getting the same kind of results with women that you've always been getting. Don't settle for your current level in life; he who settles, stops growing. There is always a higher level in the game of life. It's time to pivot. It's time to transform yourself!

If you're not developing and reaching higher and higher levels then you are descending into lower levels. **Fall in love with the process of becoming the best version of yourself!**

CHAPTER 19

LAW #116: FUCK WHAT ANYONE THINKS.

One of the main fundamental problems that men have with women is the overall timidness and fear. Approach anxiety comes from giving too many fucks. Approach anxiety and approach fades away when you realize that the vast majority of interactions with women that you have won't even matter in a year.

For instant perspective ask yourself:

- **Will this matter a year from now?**
- **Will this matter five years from now?**

What matters most isn't the girl or the results that you get, but the person that you become in the process.

If you do at least 1 real man approach every single day for a year then you will emerge as a GOD AMONG MEN when it comes to approaching women. This is relevant to LAW #8: TAKE ACTION EVERY DAY. Some of the things that hold men back is:

- -> I don't want to bother her,
- -> I don't want to make her feel bad,
- -> I don't want other people to think negatively about me if the interaction turns sour, - I don't want to risk rejection or failure or feeling bad about myself,

But if you truly do not give a fuck from the bottom of your heart then you will take action. FUCK WHAT PEOPLE THINK. In a century, you and everyone will be dead. Their thoughts don't matter. The approach that you're about to make is a lot more meaningless and insignificant than you realize.

- **STOP giving a fuck about things that don't matter and aren't worth giving a fuck about.**
- **START being extremely aggressive in going after what you want in life.**

The psychopath's edge is that he doesn't give a fuck about what other people think, or the cultural rules. This allows him to push interactions further and take ultra bold actions that other men would not be able to do. The psychopath isn't held back by excessive worries about making women feel ultra comfortable; **he physically escalates because he is a man who makes moves in life to take what he wants.**

Most men are tied down by the cultural norms and unofficial rules of society on how they are SUPPOSED TO BEHAVE. These men consider to be themselves as "cultured" and "sophisticated" but really they are just brainwashed slaves to the social conditioning of the times.

Instead of doing what you're SUPPOSED TO DO, think for yourself and carve your own path.

The very fact that you are approaching women during the daytime is a stamp of badassdom. It takes balls to walk up to female strangers and start interactions that lead towards sex. It takes balls to call up girls, flirt, invite out, physically escalate, tease, and bang hard. If this isn't you then GROW BIGGER BALLS NOW.

You don't have to take out your wallet and serve women to have sex with them. This comes from an inferiority complex, deep rooted insecurities and a culture that brainwashes young men into believing that pedestalizing women is the path to sex. In truth, women are disgusted by men that worship them.

- **FUCK what she thinks.**
- **What matters is what YOU THINK.**

Some men spend years of their life trapped in a prison within their mind. "What is this prison?" you wonder. It is a prison that stops you from doing what you truly want to do, and stops you from living life to the fullest. "Tell me what this prison is you!" you state.

IT IS A PRISON OF WORRYING OF WHAT OTHER PEOPLE THINK.

You may have spent years being too afraid of pursuing your desires, and seizing that which you fancy because "PEOPLE WOULD JUDGE ME NEGATIVELY FOR IT."

- You wouldn't approach a cute girl because you were afraid that others would see and think negatively of you.
- You wouldn't escalate an interaction with a

woman to a Rated R level because you were paralyzed by the possibility of a woman's disapproval and rejection.

- You wouldn't push the boundaries of what's possible because you were afraid that someone wouldn't like it. Perhaps someone would be pissed, and how could you run the risk of offending someone?

So you've been playing it extra safe for years of your life - or perhaps all of it. All of this was unconscious, or partially conscious. As a result, you have been living a fraction of the potential that you could be living in.

I'm going to tell you a secret that could change your life if you applied it. **What people think of you is not important.**

In fact, they rarely think of you at all because they're too busy obsessing over their own lives.

FUCK WHAT OTHER PEOPLE THINK.

Let them think what they want. Don't let it stop you from aggressively pursuing your goals in the game of life. The next time you see a beautiful woman and want to approach her, do it. Don't let the fear of "What would people say about me? What if she doesn't like it?" stop you.

FUCK what they say. FUCK her opinion. FUCK society's rules. Don't worry what she will think of you if you approach, say something, or make a move. It's not what she thinks that matters, but what you think that matters.

Alphas run the world because they take decisive action. They aren't frozen by social fears, or analysis paralysis. Instead of living your life to please the perspective of

others, realize that their thoughts hold little weight. In a century, they will all be dead.

Live your life to pursue your own goals, vision and purpose - not for the sake of getting external approval from random strangers, or praise from people in your life. Don't be easily manipulated by dosages of approval or disapproval from women.

CHAPTER 20

LAW #117: SEIZE POWER.

IN ANY RELATIONSHIP, THE ONE WHO NEEDS THE OTHER LESS HAS MORE POWER!

What this means for you is that you want to foster independence by having a certain level of psychologically aloofness.

YOU GAIN POWER BY REALIZING THAT YOU DON'T NEED HER BECAUSE YOU CAN EASILY GET OTHER GIRLS, AND YOU ACTUALLY DO HAVE MULTIPLE GIRLS IN YOUR ROTATION.

6 KEY MINDSETS TO REGAIN THE POWER IN A RELATIONSHIP

- 1 -> You don't need her to be happy. You draw state from within.
- 2 -> You don't need her for intercourse. Intercourse is easily available for those that have at least intermediate game skills.

- 3 -> You don't need her for fun. You are self-amused.
- 4 -> You don't need her for female energy because you can easily meet and fuck tons of other girls.
- 5 -> You don't need her for self-esteem and confidence because you are internally validated.
- 6 -> You don't need her for direction because you have your own cool shit going on and life purpose to live for.

4 Red Flags that you're Living in Scarcity; You find yourself saying these things:

- "I can't leave her because then it will be impossible to find another girl."
- I can't leave her because she is the hottest girl that I can get."
- "There isn't enough pussy. The marketplace is too saturated and competitive."
- "I would do anything to her because I'm in love with her."

4 Green Flags that you're living in Abundance; You find yourself saying these things:

- -> "I'm not afraid to walk away when a girl crosses my personal boundaries - despite being clearly told what my personal limits are and having received a warning prior."
- -> "I'm not afraid to walk away because I know that I can easily get other girls."
- -> "Competition is a sign of healthy marketplace and a healthy level of demand.

TThe world has abundant pussy. (If you don't believe this then move to a city and go to a nearby college campus social events during active semester hours where girls literally throw themselves at you as long you aren't BRAIN-DEAD. Seeing is believing). And there is always room in the top for the APEX ALPHA GOD which is I."

- -> "I give value to women but I don't allow myself to be exploited. I don't identify with feelings or random thoughts of oneitis. I live my life according my decisions and use my willpower to act on these decisions - despite potentially opposing emotions."

From the moment you first see her and open you mouth, you should start the interaction on a dominant note. How the relationship starts sets the tone for the entire ensuing relationship. Start strong right off the bat.

Women may claim that they want power in a relationship, but the moment that they get it: they quickly lose respect and attraction for the man. Women desire powerful men. Hence, men play power-games and must seize social power in the situation. Play the dominant leadership role in your interactions with women and watch her attraction levels for you skyrocket.

CHAPTER 21

LAW #118: ALWAYS RETAIN "WALK AWAY POWER".

DON'T ALWAYS TRUST YOUR FEELINGS.

Men clinging on to woman that abuse and exploit them is a MENTAL SICKNESS. These men justify being taken advantage of by calling it "love" and have a perceived over-inflated, idealized version of that woman. Contrary to how you feel, she isn't "special" or "magically unique".

- -> She isn't your fucking "SOUL MATE".
- -> She isn't the "ONE AND ONLY".
- -> She isn't "THE ONLY ONE WHO WAS MEANT FOR ME".

Society has brainwashed you into believing that if you develop feelings for a girl then that girl must be your "SOUL MATE" and now you have to be willing to go through any amount of verbal, emotional abuse to make things work. Even if she gets old, ugly, spoiled and has predatory gold-digging

tendencies, you should still cling on to her because who are you to deny faith and destiny?

UNDERSTAND THIS MOTHERFUCKER:

The more time you spend going after a girl that doesn't give a fuck about you, or that has friendzoned you then the less time you have for beautiful girls that do give a fuck about who you are and are joyful over the idea of physical intimacy.

You can pour water into a rock or you can pour water into a seed that will grow into a beautiful flower. The choice is yours. **Spending time with a girl that is a dead-end is like pouring water over a rock that won't sprout into anything.** It's much better to spend that time with a girl that would actually lead to something. Make reasonable progress at a steady rate and if you hit a wall then smash that NEXT BUTTON!!!

If you have been friend zoned then escalate hard. There are two things that will happen:

- (1) You will get laid.
- (2) You will know exactly where you stand and will stop wasting away valuable time.

The last thing that you want to do is to keep staring at a door instead of knocking at it. If you knock at a door then it will either open (good) or it will remain shut (also good because you are no longer wasting time staring at the door and can move on to find other doors to knock on). Don't waste away valuable time playing super slow indirect friendzone game with girls. Life is too short for that. MAKE MOVES.

REMEMBER TO TAKE ACTION, TODAY!!!

The frame is: fuck or bounce. We either make reasonable progress towards sex, or you get the fuck out and stop wasting my time. The right women will stay in your sex funnel, and the wrong women will reject themselves out of the funnel (which is exactly what you want). Your aggressive progress towards sex serves as a filter for higher quality sexually receptive women and saves you from lower quality time-wasting attention-tiger women.

CHAPTER 22

LAW #119: REJECT UNWORTHY WOMEN.

PROTECT YOURSELF AGAINST FEMALE EXPLOITATION.

- Don't waste valuable psychological resources on dead-ends. Make moves relatively quickly to test and assess her potential, so you don't invest time in something that isn't an optimal lead.

- Have clear boundaries and communicate them. If those are violated, walk away. Your energy is better spent on more promising leads, or generating new leads. ALWAYS ALWAYS ALWAYS retain "walk away" power. Ensure that you have leverage, and self-respect to keep your standards.

- Don't do the friendship first, fucking second route. Once a woman gets used to seeing you as friend, it can be hard for her to change those behavioral patterns. Create a dominant, Rated R, man-to-woman frame from the very start and sustain it throughout the interactions.

- It's imperative to know what you fucking want out of the field. Life rewards the "specific ask" and punishes the "vague wish"; in other words, the

concrete goals should be clear in your mind. When entering pivotal situations, understand the agenda, and optimal outcome.

- Respect yourself enough to walk away from one sided "friendships" with women who you want to fuck, or being in a sexual relationship with a woman of low quality (ugly, old, lots of attitude, gold-digging tendencies, needy, non-optimal logistics etc). Your time is worth money. Have standards for those who you allow into your inner-circle. If a woman takes up your attention, psychological resources and time, but keeps you in firmly in the friend zone then it's time to cut your losses immediately. Don't waste another valuable unit of psychological energy on her. If you are digging yourself into a deeper hole then stop digging now!!! Immediately transition to generating more leads or following up on existing more promising leads.

Her past will let you know what kind of person she is, and what you can expect from her. Don't accept the BS of "Oh, I've changed." Who she was in the past will let you know what she will do in the future. If she has dates assholes then you know what kind of guy gets her gears turning. **At the core, all women are the same and have primitive drives that determine behaviors;** they still have quirks that can be utilized by a man with an insightful eye.

- Have a purpose that is more important to you than pussy. If you stand for nothing, you fall for anything. If you live for a meaningful vision then you'll naturally be immune to female manipulation, and be too busy to get sucked into female drama designed to boost her ego.

CHAPTER 23

LAW #120: BE RADICALLY BOLD.

There will come a time when you will die and everything that you have ever loved will be gone from you forever. Until that moment happens, it is upon you to live each day to the fullest and its maximum potential so when the day of death occurs you can honestly say "I have lived a good life and pushed things to the max."

UNDERSTAND THIS:

- **You are a biological ticking time bomb. Look back at your past years. Are they full of regrets of cowardice escape or are they full of pride for the bold, fearless massive action that you took?**
- **Who you are now is the result of past behavior and who you will be in the future will be the result of your present behavior.**
- You're reading this book because you want to

get more results with women. You are sick and tired of stagnation. **Then heed my words now when I tell you this: STOP being held back by social inhibitions, social conditioning and thinking-paralysis. START pushing your interactions with women MUCH HARDER.** You are capable of far more with women than you have ever imagined, but you don't even realize this because you've lacked the balls to act with extreme boldness.

If you follow the last bullet-point, then this alone will improve your game by 300%.

The truth is that boldness turns women ON.

The men that she has encountered in the past are conformists that remind her of the boring average guy. She is bored of seeing the same thing over and over again. "Yet another guy who says and does the same things that the last 1,000 guys did before him." Be different by being ultra bold and taking social/sexual risks.

Don't just be different for the sake of the women but be different because you inherently disagree with the philosophy of just doing what everyone else is doing. **LAW#5**: **THINK FOR YOURSELF. Remember: you can't be in the top 1% of men by doing what the 99% (masses) are doing.**

CHAPTER 24

LAW #121: BE BULLETPROOF IN YOUR FRAME.

Even under the face of an impeachment inquiry, Trump retains his confidence and calmness. Trump has an impressive ability to keep calm under high amounts of social pressure that would normally break the average man.

One of the key features of being attractive is to be emotionally centered, calm and non-emotionally reactive - even in the face of social chaos and explosive, world tearing shit-tests. **A shit test is a confidence test and you pass it by remaining calm even under the face of intense social pressure - NOT by losing your shit or by throwing a man-child tantrum.**

You have to be able to lead a woman physically, logistically, AND mentally. This means having a stronger frame. You should have more conviction in your perception of reality than the woman has in her perception of reality. Even if her frame is as strong iron, your frame should be even stronger. Even the starkest of feminists secretly desires to be dominated by a more powerful and competent man than herself - both physically and mentally.

Having a stronger frame than a woman boils down to

being a man who leads others to victory. If your life is shit and everything you touch turns to shit then it will be challenging for women to trust your perception; **they'll think "this guy is a broke unpopular loser living with his mom; what the fuck does he know?".** In contrast, if you are a winner and you have the tendency to WIN IN EVERYTHING THAT YOU DO then women (and men) will be more prone to be influenced by your perspectives in life. Lead the men and the women will follow.

Even if you are not where you want to be in life, it is within your best interest to learn how to lead women. Leading a woman will turn her ON (because dominance is one of the main attraction switches). Part of leading a woman is having a stronger frame. It's not always easy to have a strong frame because often women can have strong frames themselves; the key is to have more confidence in your frame than she has in her frame.

CHAPTER 25

LAW #122: LET YOUR EGO WIN.

The Ego can be friend, or it can be your enemy. It all depends on how you use it. **The ego is a force to be harnessed.**

I have frequently brought up the fact that a seducer should - quote - "Let his ego win." Firstly, this is contrary to the popular advice of "Your ego is not your amigo", and "Ego Destruction". So what does all of this mean? What is the difference between letting your ego win and when should would one embrace ego destruction?

PART I.

LET YOUR EGO WIN.

When you're approaching and interacting with women:

- Seize social power.
- Frame yourself as the prize and a highly valuable being.

- Be highly dominant and lead like a warrior.
- Exude extremely powerful body-language.
- Have standards and be willing to walk away if they aren't met.
- Be clear in what your goal is for your interactions.
- Be assertive.
- Be highly aggressive in going after what you want in life.
- Make bold moves to get what you want.
- Be socially fearless.
- Be comfortable with social tension.
- Give zero fucks what anyone thinks.
- Take control of the social situation. Disrupt her patterns.
- Don't play by her rules. YOU have the stronger frame.
- Be a rebel. FUCK the rules of society. Do what you want.

What do all of these traits have in common?

They all let your ego WIN. In other words, after doing them you DO FEEL LIKE A BOSS. You actually feel sexier when you behave in the more extreme end of the Alpha Spectrum. This is win/win. Your ego wins because it feels important and is motivated to stay in the game; the girl wins because she becomes more attracted.

Winners take all; losers take nothing. In the game of seduction, it's the men at the top that have the lion's share and the men at the bottom have nothing. There is an unequal distribution.

If someone has been a Beta all his life then it can be strange to suddenly start valuing himself above all else, and take a dominant role in interactions - instead of a submis-

sive role. It can feel like he is being an asshole. It can feel "too much". **Of course, it will feel like this because he has been conditioned his entire life to put others before himself; then he wonders why he hasn't gotten ahead in the game of life?**

A lifetime of servitude of others, ignoring one's own best-interests, letting one's ego leads to defeat. **This is why when you focus on LETTING YOUR EGO WIN then you will get further ahead in life and you will learn to enjoy the game of life much more.** By enjoying the game, you will be motivated to master the game, prevent burn out and sustain long-term motivation. THAT and APPROACH HOTTER GIRLS.

Being an asshole is more fun than being a nice guy.

- You don't have to be an asshole.
- You don't have lose your soul to the darkside.
- You don't have to hate women.
- You don't have to avoid doing kindness or acts of altruism.

But at the very least, get rid of self-sabotage behaviors such as:

- Submissive body-language (perma-smile, perma-eyebrows raised, excessive nodding)
- Under-valuing yourself,
- Putting up with BS from people that you don't want to put up with,
- Being stuck in abusive one-sided relationships, and
- Not being able to say "no" and doing favors you don't feel like doing.

CHAPTER 26

LAW #123: BE FEARLESS OF REJECTION.

PART II.

DESTROY YOUR EGO.

Every master was once a beginner. You aren't born with excellent skills. You are born with shitty skills. That being said, by dozens of hours of relentless practice you will be able to eventually turn those shitty skills into excellent skills.

- Not every man is able to get passed the dozens of hours of looking stupid and foolish.
- Not every man can push the past the pain period, dry spells and have delayed gratification.
- Not every man is able to withstand the social pressure and humiliation of not looking like he knows what he is doing.

These men with fragile egos who can't handle a rejection would rather suck at doing something to avoid looking silly by others than to approach through the pain and eventually succeed. These men expect to get results without paying their dues in terms of practice, persistence and just putting in the time/effort/training.

You'll suck at the beginning. You will look like shit. It will hurt. People will judge you negatively and laugh at you. Then you'll keep at it, ignoring the hits your ego has taken and keep refining your method overtime. The more you practice, the better you will get it. Before you know it, you'll be at an intermediate level getting results. Then as the years will pass by, you will become pretty good at what you do. This is the nature of the game.

There is no way around paying your dues by putting in the action - just like you can't build muscles by reading about working-out, you actually have to work out. PUT IN YOUR DUES.

A BULLETPROOF man is able to kill his ego when necessary. When you're approaching you are making the ego vulnerable to rejection. You are making yourself vulnerable to pain. And that's what you have to do to get good. **When you are fearless of rejection and getting your ego burned then women lose their power over you.**

Understand that getting your ego burned when interacting with women is part of the territory. Unless you're playing super-safe (which is not recommended) you will be rejected and it will hurt. And that's okay. It is through the pain of being uncomfortable that one grows the most. **APPROACH THROUGH THE PAIN.**

CHAPTER 27

LAW #124: BRING THE VALUE IMMEDIATELY.

The truth is that women are lonely, insecure, sad and bored out of their fucking minds. They need a COOL MOTHERFUCKER to come into their life and save them from themselves. THAT COOL MOTHERFUCKER IS YOU.

If you believe that approaching is "bothering women" then you have a severe misunderstanding of how the game works. Would you feel guilty if you approached a woman to offer her a million dollars? No!!!! Fuuuuuuck no!!

You have to understand that when you approach a woman you have a tremendous amount of value to offer and that emotional value that you are going to be giving her is going to brighten up her day, put a smile on her face and make her feel good. Hence, there is no reason to be shy, reserved or timid about this.

Here are some ways that you can deliver value upon the approach:

- **1. Cold reads**

- **2. Having a great vibe**
- **3. Having great energy**
- **4. Being interesting and funny**
- **5. Being enthusiastic, happy and positive about life**
- **6. Sharing your purpose and exciting things that you're going through**
- **7. Delivering a compliment that will build up her ego, but following up with a tease so that your perceived high-status is maintained.**

1. COLD READS

Women love to know how they are perceived by other people. You will notice that sharing insights about who she is, will spike up her curiosity. If there is something interesting/unique that you noticed about her then share it!!! Don't be afraid to express the full force of your personality and share things about her that she may not have realized herself. You will be shocked by the alarmingly positive response that you will get by being brutally honest about your perception of her - even by commenting on her body-language.

There is much to say about this subject alone because this tactic has tons of nuance and application (from commenting to her energy levels, to her body-language), but this short paragraph will open the door on its own.

2. HAVING A GREAT VIBE!

She is sad and miserable. When you come in with happiness then you are lifting up her spirits and making her feel ALIVE again. When you feel really good, those good

emotions will transfer on to her. Remember: women like to spend time around men who make them feel good and this is the best way to do that. The self always shines through.

3. HAVE GREAT ENERGY!

She might be tired and exhausted from a hard day of work. When you interact with her by having higher levels of energy than her then that is uplifting and energizes. Women feed off the energy of men like vampires.

Advanced note: don't be too high energy and too animated during the daytime because that's just weird. You want to meet her where she is at and be a bit higher energy than that - slowly bringing up her energy with time. But you don't want to be at 100 points of energy right off the bat, if she is at 20.

4. BE INTERESTING AND FUNNY!

She is bored out of her fucking mind because her day is mundane and repetitive. A bold, socially confident and assertive man who comes up to her smoothly with something to interesting to say is a pleasant distraction from the harsh realities of life that she is trying to escape from.

5. BE ENTHUSIASTIC, HAPPY AND POSITIVE ABOUT LIFE!

She might be depressed and sad - especially if she is insecure and going through though shit. When you are happy and have lots of good emotions, then she feeds off that. The Law of State Transference states that women feel what you feel. If you feel happy, she will be uplifted from her state of depression and feel happy as well.

This is why passing shit-tests is so important. If a man

suddenly loses his feel-good vibe when a woman says some stupid shit then the good emotions are compromised and she realizes that his vibe wasn't that strong to begin with. When you feel amazing, she will feel amazing.

6. SHARING YOUR PURPOSE AND EXCITING THINGS THAT YOU ARE GOING THROUGH

There is a reason why women spend so much time reading books and watching movies. They want a pleasant escape from the harsh realities of life. When you share the exciting new things that you are going through in life then she is able to magically escape her painful existence and world, to join your more exciting and fun world. This is what women mean when they say that they want prince charming to sweep them off their feet. "You won't believe what just happened to me today..."

7. COMPLIMENTS FOLLOWED BY A TEASE

Compliments have a negative reputation in the seduction community because guys mistakenly believe that its supplication. While only complimenting without teasing is supplication, this isn't what we are doing here. You are complimenting her to show her that you have standards and she is meeting them. You don't just want to fuck any piece of meet with two legs and a hole in-between. You want to fuck special girls who meet your high standards of which she is one of them. **To avoid appearing like she is your superior and dismissing excess tension created by showing interest, you calibrate by poking fun at her, negs and teases.**

LAW #8: DAILY ACTION IS KING.

Don't just read this theory but also keep in mind to apply it in real life. After all, the goal of knowledge is application. **Without daily action, you have nothing, your skills will remain the same and the results will be null.**

CHAPTER 28

LAW #125: EXUDE EXTREME CONFIDENCE IN YOURSELF.

Always. Always. Always. Exude extreme confidence. Confidence (or lack of) is written on your face. Here is a rule for dealing with people: displaying irrational confidence is better than exuding rational self-doubt.

HAVE CONFIDENCE:

- in your self-worth,
- that women will be fortunate to be with you,
- that what you have to say is valuable,
- that being with you is an excellent move for her, &
- whatever life throws at you, you'll WIN.

CONFIDENCE COMES FROM GETTING YOUR LIFE TOGETHER:

- Have a meaningful vision.
- Set specific measurable goals.

- Make a concrete step by step plan to achieve those goals.
- Review your goals and plans frequently.
- EXECUTE daily.
- Have a mastermind group of men with similar goals as you - where valuable ideas are shared.

CONFIDENCE COMES FROM COMPETENCE. ONE GAINS CONFIDENCE BY BECOMING EXCEPTIONAL AT A FIELD THAT IS VALUED IN SOCIETY.

Be aware of factors that can undermine confidence:

- Being around people who put you down.
- Setting goals and then NOT executing them.
- Lacking competency in a valued field.
- Giving into social inhibitions.
- Having negative self-talk.
- Dwelling on mistakes - instead of focusing on strengths.
- Overthinking and doubting past actions,
- Caring too much about what other people think,

Figure out:

- - what is easy for you to do but comes hard to others?
- - what are you good at doing?
- - what are you passionate about?
- - what is there a market demand for?

When you find something that meets this criteria, figure out how to monetize it.

CREATE A MOMENTUM OF NON-STOP WINNING

The unconscious mind is always soaking in the actions that one takes. Self-sabotage actions create a turbulent mind. In contrast, one who takes MASSIVE ACTION - inspires himself and sends a message to the unconscious mind that if he applies himself then he will eventually emerge victorious. **By behaving like a warrior then one develops the mind of warrior because the external awakens the internal.**

BECOME VALUABLE.

1. Be exceptionally good at one high-demand set of skills. Then you can exchange your expertise for someone else's expertise. If you're really good at X then you can be a part of a team of other experts who are good at Y, Z, and A. Together as a team you can succeed. You always need to have something to bring to the table.

2. Be good at one set of skills that is not common place. This means that you are not easy to replace because this unique set of skills is hard to find. For instance: cross platform social media automation etc. The harder and more your unique your value proposition is, the more non-replaceable you are; you can sell water for $10,000 in a desert because there's nothing else like it in the area.

3. The Textbooks Basics are Always Relevant

- Keep your word.

- Have a proven track record of success.
- Have a good reputation with prior business contacts.
- Be professional because you take your job seriously.
- Look successful; perceived worth goes a long way.
- With the information revolution, there is no excuse for ignorance. Learn everyday.

CHAPTER 29

LAW #126: ABC

ALWAYS BE CLOSING

In the seduction community there is an over inflation of the importance of approaching, and opening. You'll hear things like "Do 5 approaches a day for a year". While approaching is certainly of paramount importance, if you only focus on approaching then you will only be good at that phase in the Hello to Sex Funnel.

It's important to practice other aspects in pickup - besides approaching. You can be a master at approaching women, striking up conversations, flirting to spike attraction and so on, but if you fail to close then you will fail in general. Just like it's important to practice approaching skills, it's important to practice closing skills.

I WANT YOU TO ATTEMPT TO CLOSE - EVEN IF THERE IS A POSSIBILITY OF REJECTION.

If you only attempt to close women who are you are 100% certain will be receptive to your advances then you will

inevitably miss out on a lot of opportunities. I highly advise that you push yourself to attempt to close even if you are only 50/50% certain that she will go for it. By playing the numbers, you'll get rejected more, but you will also have more success. Ironically, the guys who get rejected a TON also get laid a TON because THEY PLAY THE NUMBERS in a matter that is statistically advantageous.

The more doors you knock on, the more doors will open, and the better you will be knocking on doors. **The more approaches you do, the more results you will get.** Further, the more doors you knock on, the more you will get a sense of which doors are worth knocking on in the first place; you'll develop a 6th sense of knowing ahead of time that a particular opportunity is worth your time versus a particular opportunity leads to a path that goes nowhere.

Another important point: the more doors you knock on, the greater your capacity to knock on more doors. For instance: if you do at least 1 approach a day for a year, then within a couple of months you'll naturally find yourself doing a few approaches a day. This phenomenon of natural progression in FUNDAMENTAL GAME SKILLS is true because once you're in THE ZONE, approaching becomes easy to you and you'll get a kick out of it. You might be having so much fun that you'll do a dozen approaches in a single day.

USE MOMENTUM AS A MOTIVATIONAL FORCE. The more action you take, the greater power you have to take even larger amounts of action. Just like success breeds success, action breeds more action. It's a positive cycle that reinforces itself with time.

One of the greater ironies of the game is that rejection can be incredibly motivating to improve your game skills. It's ironic because one might think that rejection is discour-

aging. Let me explain.

You can read this book in your pajamas, leaning back in your comfy chair, drinking your Starbucks Hazelnut Coffee, next to a blasting radiator, while listening to relaxing Spanish guitar music, and learn about 10 things to NOT do with women. When you're in the field, MAYBE you'll remember those 10 things and avoid them OR maybe you'll forget the theory that you learned and make the mistakes anyways. That's the inherent problem with learning self-help theory from reading books like this: you hope the lessons stick and become integrated into your behaviors, but they don't always do.

In stark contrast, when I was in Union Square I met this very young, gorgeous girl on the street. We started talking, and she seemed really interested in me. She even told her friends (with serious body-language) that she met this cool guy and she was going to hang out with him. She then followed by asking about my name. I was trying to be playful, so I made up some silly playful name - to tease her. I was following standard old school pickup theory, but misapplied in the context that I was in.

That instantly ended the interaction, and she immediately left. The pain that I felt from this short interaction was VERY REAL. It hurt like a motherfucker. It was the psychological equivalent of being punched in the face. And I learned from that moment that not telling your name to women sets of red flags ► because it seems like I'm trying to hide something.

She's thinking *"He's not telling me his name because he wants to be anon. And he wants to be anon because he is going to do terrible shit to me and get away with it."*

From that moment I learned the importance of sharing

personal information to win over a woman's trust, and make her feel comfortable - especially when approaching as a stranger from the street.

PAIN was a way for me to internalize the lesson much better than any book could ever teach me. When you have skin in the game, the lessons stick harder than when you're a 1,000 miles away from the field and learning about the game from the safety of your own room, under the protection of a computer screen. There are hundreds upon hundreds of short stories just like this one. Since I started in the Summer of 2012, I have done over three thousand approaches (and counting) as a pickup-artist. It was the PAIN of failure that showed me the light.

The pain that comes from rejection is a HUGE MOTIVATOR to improve yourself, if leveraged correctly with the right mindset. The mindset is: every mistake is a success if you learn from it. I want you to leverage the numbers by doing a TON OF APPROACHES. Have a minimum approach quota and meet it every single day. **Hang a calendar at the door of your house, so you can be reminded of the daily positive habit that you have to meet.**

- - Yes, your ego will sustain burns.
- - Yes, if she says "no": you will feel like shit.
- - Yes, if she does a hard NO, then you might find yourself questioning everything.

But it's still worth going for the close. Because statistically speaking, if you attempt to close women who even have a 1 out of 30 chance of having sex with you, you will get laid on every 30th try. Those odds are not bad.

Let me put it to you this way, and let's take an extreme

example to help illustrate the point further. Suppose that only one out of 300 women who you hit on is interested in you on a physical level, and the 299 are absolutely disgusted by you - even going out of their way to make it clear about how much of a fucking loser you are, or pointing out how creepy your advances are.

But 1 out of 300 turns out to be a cute, young woman who you are friends with benefits with (over a short period of time), or 1 out of 300 turns out to be a long term sexual partner. Wouldn't it have been worth it to endure 299 burns, to get that 1 success? FUCK YES.

I'm not saying you should SPAM APPROACH, which is putting in a very low effort on each woman you walk up to - just so you can meet your daily quota. On the contrary, you have to care about each approach enough to give it a valid try. However, I would also like you to not get hung up on having the perfect line because that sort of perfectionism will keep you stuck forever. The goal is for you to do a FUCK TON of approaches, and put in a reasonable amount of effort to make each approach count - even if it's just for the practice alone.

As a seducer, putting in effort every day through the medium of ACTION is the most important habit that you can develop. Some of that ACTION should be a way for you to be meet new women - either on a daily basis, or a weekly basis. Some of that ACTION should be you following up on leads, taking them on dates, calling them up, and of course fucking the shit out of them. You get better at what you do frequently - not so much what you read a lot about - so get the fuck out there in the cold fierce field and TAKE RAW ACTION WITH WOMEN. The more women you approach, the more you will get rejected, but also the more experience you will develop, the more

your skills will be sharpened, and the more lays you will accumulate.

Don't say "I'll do it right after I finish X". FUCK THAT. That's a never ending cycle. There will always be some excuse to protect your ego from the pain of possible rejection. Take action today! This means YOU, and this means NOW.

CHAPTER 30

LAW #127: EMBRACE THE SEXUAL TENSION.

Embrace the sexual tension. Be 100% comfortable in the sexually charged situation. Nice guys crumble under it, and start saying stupid shit to relieve the tension. Nice guys can't handle the tension and start saying all sorts of nice things that make women feel excessively comfortable - killing the excitement of the situation. Being excessively friendly kills the thrill of the chase for women. Frame yourself as the prize that she is fortunate to be with.

Embrace the tension of the situation - without even flinching. Remember: nothing a woman says or does, should faze you. You are a man who is experienced with beautiful women and has seen it all before; imply social proof with your composure. No matter what happens, you remain calm and on your purpose in life. Always assume that it's STILL ON. She is still into YOU. When you assume attraction then you'll come across as sexy and confident. Don't convey self-doubt or talk about your failures with women.

CHAPTER 31

RECAP

CREATE THE CONDITIONS FOR YOUR SUCCESS

- **Knowing exactly what you want with women** (have a vision, long-term goals, and short term goals),
- **having an intense beliefs that it's possible** (have very strong self-belief in your potential; know that it's possible just like you know that a table is a table),
- **have a clear INTENTION when interacting with women** (when it is clear to you that you want to FUCK her, and are not willing to put up with friend zone bullshit then your actions will set this frame; know what you want when interacting with women),
- **having a concrete plan of action of what SPECIFICALLY you're going to do to make progress towards that vision**

(highly and highly specific practical steps; break down that vision into very realistic micro-goals - also known as "baby steps"),

- **take substantial radical action every single day consistently and consciously** (develop the character trait of strong sexual hustle; if you're not a very serious action taker then nothing else works),
- **transform TAKING ACTION into a habit** (e.g. meeting women every day as part of your lifestyle should be something that you do automatically as part of your daily routine - rather than a conscious battle that you have to win every time),
- **stay ultra focused** (review your goals in the sexual marketplace every morning as soon as you wake up)
- **refining your plan of action based on the sexual marketplace's feedback** (reflection and review),
- **take the time to sharpen valued skills** (be the best at what you fucking do; practice your skills with women every single day and TAKE NO DAYS OFF),
- **condition your mind through self-suggestions** (affirmations, mantras, and visualization)

PUTS you in the best position to succeed.

Life is too short to play perpetual indirect game over a span of weeks, or months (or in some cases: years). The key is to continuously make reasonable FAST PROGRESS towards sex with every woman in your rotation - until one of two things happen: (1) sex, or (2) there is a clear "no" to

the point where it's a waste of time. Accept the ending of the friendship as a risk very well worth taking. Don't leave any woman in limbo. Polarize a response by making moves. Be willing to burn the entire venue - metaphorically speaking - by having a polarized response from every woman in that venue. **Ironically being fearless of rejection, gives you sexy fearlessness and actually makes it less likely that you will be rejected.**

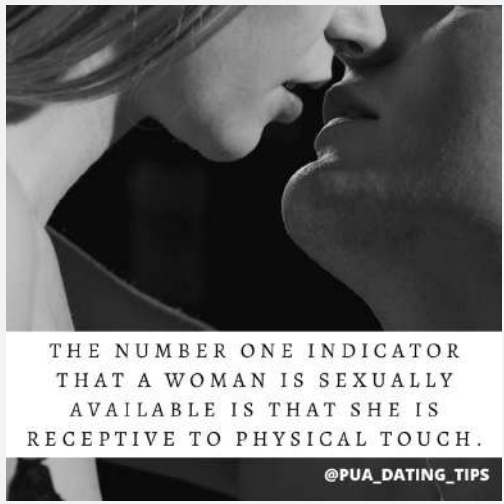

PART II

Seduction is a lifestyle, and a way of being. While Part I, I discussed crucial, fundamental concepts that put you in the best position to succeed with women (including completely un-fucking your life), in Part II: I will teach you HIGHLY SPECIFIC BEHAVIORAL TECHNIQUES (HSBT) that you should use on women to get them physically receptive to sexual advances, and eventually horny. **Be willing to review key points in this chapter multiple times for the concepts to really sink in.** Remember: what you get out of this book depends on what you put into it. You have to actually apply the concepts in real-world situations with women for this shit to work, and pull results for you.

Review and repetition of key 🔑 concepts = internalization and integration into your lifestyle.

THE NUMBER ONE INDICATOR
THAT A WOMAN IS SEXUALLY
AVAILABLE IS THAT SHE IS
RECEPTIVE TO PHYSICAL TOUCH.
@PUA_DATING_TIPS

CHAPTER 32

CREATE PHYSICAL ADDICTION.

KEY I.

ASSUME "IT'S ALWAYS ON".

Women are like sharks that smell blood. Women can sense insecurity a mile away. Self-doubt is as disgusting to women as obesity is to men. Convey only strength, power, and confidence; never convey questions of your high worth.

This is especially true during the physical escalation process which is crucial for the relationship (and a lot of guys have anxiety when things sexual).

Every time you escalate you should do it form a position of 100% absolute certainty in yourself and what you are doing. This BULLETPROOF FRAME is essential because frame-breaks can kill the entire process. HOLD THE FRAME - especially during flinch points that would break lesser men.

THE MIND BODY CONNECTION

It's important to understand that women tend to develop feelings for men that they are physically intimate with. When a woman invests by having sex with you, she becomes more emotionally attached than before because **the mind follows the body. The mind will use rationalizations to justify what the body does;** in other words, once a woman has sex with then she will find 1,000 reasons why it was worth it, but before she has sex then she will find 1,000 reasons why it might be questionable.

Mind —-> Body

KEY 1🔑 When dealing with women, win through action - not so much logical arguments. Assume permission was given and just touch her body. Once touching has occurred, a woman will rationalize it away as acceptable. But if you would have asked for permission then she would have said "no" to avoid feeling like a slut.

ASSUME PERMISSION WAS ALREADY GRANTED, SO THERE IS NO NEED TO ASK FOR IT. WOMEN WILL FALL INTO YOUR FRAME.

Don't ask a woman permission to touch her body. Assume permission was already given and touch her body. Don't ask for the sale; assume it was already made.

By allowing touching to occur she will rationalize this to herself (in her mind) as acceptable behavior. If she's not okay with it then she will let you

know. When it comes to dealing with women, it is better to be too bold and recover afterwards with a "mistakes were made" line, than it is to be too safe. Boldness makes women wet, but playing it safe bores them half to death.

Cognitive dissonance is a psychological phenomenon that occurs when women are not consistent with their prior actions. **A woman will align her set of beliefs with her behaviors**. Her belief system is shaped by the behaviors that she does, so if you create the behavior of her passively accepting your touches then you will also create the belief within her that touching is acceptable.

KEY II. 🔒

CREATE A PHYSICAL ADDICTION.

This is why the more a woman allows herself to be touched, the more she craves to continue to be touched and the more intimate you can push the touching to be; **oxytocin is highly addictive**.[1]

More importantly: her prior actions have been already rationalized with mentalities that are conducive to more physical interaction occurring. **Put simply: successfully executed touching leads to more touching, just like success breeds success.**

KEY 2A🔑 SMOOTHLY TOUCHING A WOMAN'S BODY LEADS TO MORE TOUCHING BECAUSE IT IS A SELF-REINFORCING POSITIVE FEEDBACK LOOP.

Now my dear son, you understand why you have to touch her body as frequently as possible. The more often you touch her body, the faster the self-reinforcing positive feedback works. Touching - even socially acceptable non-sexual touches - hooks her like glue.

KEY 2B🔑 TOUCH FREQUENTLY AND BE PATIENT.

With time the line of acceptable touching will increase.

KEY III.

CLIMB THE COMPLIANCE LADDER.

Touching a woman even very low on the intimacy spectrum sets the stage for touching her in areas that are high on intimacy spectrum. **Physical intimacy on a lower level eventually leads to physical intimacy on a higher level.**

You see this concept of :

- "compliance leads to more compliance" ,
- "the compliance ladder"
- "yeses lead to more yeses", and
- "denial leads to more denial"

everywhere in game.

This is why you want to condition a woman to follow your lead with smaller compliance requests prior to bigger compliance requests. The more times a woman follows your lead, the more likely it is that she will continue to follow your lead. Once she gets used to light touches, light flirting, and light sexualization then she will be ready for higher intensity. Continue to push the line of acceptable behavior above and beyond the act of sex occurring.

KEY 3 Condition a woman to follow your lead - even in mundane matters - and she will even follow your lead in sexual matters. In stark contrast, if a woman doesn't respect your authority in mundane issues then don't expect her to suddenly switch in the bedroom.

KEY IV.

AFTER SHE IS HOOKED, TAKE IT AWAY.

THE CORE OF WHAT MAKES THE SEXCALATION METHOD WORK IS PULLING BACK IN THE RIGHT WAY. SMOOTHLY REJECTING A WOMAN ON A PHYSICAL LEVEL CAN MAKE HER CHASE - TWICE AS HARD.

- Start with light physical escalation known as Social Touch (using combination of techniques such as micro-escalation, bullshit baffles brains, leveraging social convention, and plausible deniability).
- **Touch early** - even within the first 3 seconds of meeting her - to establish the frame that you're a touchy guy.
- **Start subtle.** The very first touch can be quite subtle and/or "accidental", but you build from there based on her reactions (e.g. green, yellow, or red).
- **Touch frequently.** Have her become hooked to that level of touching (simply by touching often and letting oxytocin do the work for you).
- **Give tons of value.** Be fun to be with by giving emotional value, intrigue and having strong conversation skills. I recommend reading my other books "Conversation Casanova Mastery" and "Womenese 101".
- Then proceed with **heavy escalation**.

If she rejects the heavy escalation then you remove even the light escalation (taking 2 steps back - instead of

just 1 step back) to create the conditions of where **compliance is more rewarding than denial.** Following your lead should be more emotionally enticing than being bored half to death by not following your lead. Let me break it down to you, my dear son; **create the conditions where doing what you want is more enjoyable than NOT doing what you want.**

So if a woman is doing what you want and allowing physical escalation to occur at a reasonable pace then she gets to experience:

- fun times,
- enjoyable conversation,
- validation from your attention,
- oxytocin-releasing social touch, and
- tons of value in general,

Get her into loving the value that you provide by giving a lot of it at first. However, if she's behaving like a bitch then you withdraw your valuable attention, and she LOSES EVERYTHING. She doesn't even get social touch. You even remove your proximity from her - creating geographical distance between you and her. **Make her metaphorically bleed from her loss.**

When this happens and you break rapport on an emotional/physical level then she will miss what she used to have with you. In fact, she will miss it so much that **she would rather embrace some level of discomfort and increase physical intimacy with you than continue to miss out on what she used to have with you.** The power of "The Sexcalation Method" is in taking away what you have given - just when she wants it most.

You have power over the woman once she becomes

hooked to the value that you have provided. That power comes from being able to remove the value that she is hooked on. Remember: **you can't play hard to get if you're hard to want,** so first create WANT and then you can play HARD TO GET.

KEY 4🔑 Pulling away and rejecting a woman on a physical level will make her wild over you.
Attraction is generated when you take away a form of value that she become used to. Verbalizing "That's all you get" can solidify the frame that she is losing something that she had.

THE ART OF THE TAKE-AWAY

- 1. Give value.
- 2. Get her addicted to the value that you provide by being consistent in giving that value.
- 3. Continue to physically escalate. If she gives you any rejection on a physical level then withdraw the value that you've given her - removing ALL forms of touch and attention. Give her the gift of missing you. Then try again later.
- 4. When a woman is in a state of missing you, she will be susceptible to a more intense form of physical escalation than before.
- 5. Repeat steps 1-3 continuously pushing the boundaries of how far you can go with touching her body.

HOW TO GIVE PHYSICAL VALUE AND CREATE A PHYSICAL ADDITION.

The more you touch a woman's body (in the right way), the more oxytocin is released, and the faster she will become physically addicted to your touch. It's important that you touch her body in the right way for this to occur.

- Don't touch her body in a way that breaks her comfort threshold. **Calibrate.**
- Don't touch her body in an insecure manner that conveys doubt in what you're doing. **Have courage.**
- Don't bring attention to your touches during the social touches. **Distract her.**
- Don't go for too much, too soon. Pace yourself.
- Don't play the game blindly and ignore her body-language during the physical escalation process. **Read her reactions.**
- Don't go for heavy escalation in a public place because that signals to women you're a guy who just doesn't "get it". **Aim for isolation**.
- Don't fail to continuously escalate the level of physical touching. Always move forward.
- Don't expect a woman to initiate the touching and lead the interaction towards sex. **Own your masculinity.**
- Don't touch a woman's body during moments when she is upset, or angry. The aim is to associate your touch with positive emotions. **Anchor yourself.**

---

1. The more you time you spend with a woman, the more she comfortable she feels when spending time with you. The same concept applies to physicality: the more you touch, the more she feels comfortable with your touch. There is a process of desensitization that occurs from mere exposure.

CHAPTER 33

SUMMARY OF KEYS #1-4

- 🔑 KEY #1: Win through action - not arguments. Don't ask for permission to touch. Assume permission was given. If anything, she'll say "no". **Touch early** on in the interaction to establish that you're a touchy guy from the start - immediately filtering out time wasters.
- 🔑 KEY #2: Touch **often** to maximize the power of oxytocin to create a physical addiction and get her hooked on the value that you provide.
- 🔑 KEY #3: Condition a woman to follow your lead - even in mundane matters. Start small to establish your foot in the door, but then increase the level of physical (and non-physical) compliance with time. Climb the compliance ladder. **Start subtle and increase the level of intimacy incrementally with time.**
- 🔑 KEY #4: When a woman gives compliance denial, remove all the fun, distance and

touching entirely. Watch her metaphorically bleed for her loss, and miss what she had. **Then when initiating again increase the level of intimacy.**

TOUCH EARLY, and start subtle. Touch often. Get her hooked. Escalate by closing in the distance, increasing frequency, intensity of escalation and area of intimacy. If you notice resistance, go two steps back.

CHAPTER 34

OWN YOUR SEXUAL INTENT

For everything you say and do, YOU HAVE TO OWN IT!!! YOU NEED TO HAVE 100% PURE DECISIVE BELIEF. If you physically escalate with this kind of extreme confidence, you will be successful.

A woman can sense how much you believe in the value that your touch gives when you touch her. If you wanted to give a stranger $1,000 then would you be hesitant and insecure about approaching them? Of course not. One key point to realize is that you touching her is as if you're giving her a $1,000.

No one is 100% sure of anything. For all we know Iran terrorists could launch a nuke, and many will die within a span of 12 minutes. But in the game, you have to at least pretend that you are 100% sure of what you are doing. **Lead with confidence and women will follow.**

Continue to physically escalate with hyper confidence - in a smooth progression - all the way to sex. At each step of the way, you need to have 100% BULLET-PROOF HYPER CONFIDENCE in yourself, what you

are saying to her, what you are doing to her, and what you stand for.

Women value men that value themselves. Further, women take cues based on your own level sense of self-belief and how you react to yourself, in order to unconsciously gauge how much they believe in you and how they should react to you. **When you believe in yourself, women believe in you.**

Get into the habit of using Tinder on a daily basis. Consciously endeavor to communicate with extreme confidence and intense conviction.

AVOID FLINCH MOMENTS

At no point in the smooth escalation should you have a moment where you flinch. Women can sense brief moments when you lose confidence, and that can be enough to lose the set. Seriously: it just takes one single moment - where doubt is written on your face - for the girl to be lost. When dealing with women, you need to exude a larger than life extreme level of confidence, and not convey self-doubt in yourself even when it seems "reasonable" to do so. When dealing with women, irrational extreme confidence is superior to rational humility. **No matter what a woman says, or does: retain emotional composure, bullet-proof confidence, and a positive vibe; this is true for each step in the physical intimacy ladder that you climb. NO FLINCHING IS ALLOWED.** Fuck that "look vulnerable" bullshit designed to keep you weak.

From "hello" to "sex" there should be no flinch moments. Just keep in mind that flinch moments are most likely occur during moments in physical escalation, so during that time: it is especially important to NOT flinch.

Even if on the inside you feel like hell, on the outside: be a radiating sun. Happiness is sexy.

Utilize emotional regulation techniques such as:

- singing a song,
- self-amusement humor,
- affirmations,
- self-suggestions,
- dancing, and/or
- talking about subjects that you enjoy

to pump your own emotional state. Never show weakness. A woman is BIOLOGICALLY HARDWIRED to sexually reject men that are psychological weak. Keep emotional composure at all times, and utilizing emotional regulation techniques is an effective way of doing this.

KEY #5 🔐

A WOMAN CAN FEEL YOUR CONFIDENCE WHEN YOU TOUCH HER BODY.

When you touch a woman's body, always touch her with absolute 100% certainty that what you are doing is giving her value, normal, and it is 100% expected for her to comply. Never flinch.

Stop feeling guilty for being sexual with women. If you feel nervous and anxious around sex, then just imagine how she will feel about it (women are mirrors to your emotional state). Let me break it down for you in the

simplest way, so that you will have no excuses for fucking this up: if you feel anxious around physical escalation and sex, then she will too.

Women are a mirror.

- **Your vibe becomes her vibe.**
- **Your frames (perception of reality) become her frames.**
- **Your belief of your worth becomes her belief.**
- **Your behavioral patterns are then eventually mimicked by her.**

OWN YOUR SEXUAL INTENT

Own your dick. Cultural brainwashing has made you feel bad for enjoying life and having pleasure. Some men are addicted to feeling sad and miserable. There is a sick pleasure that comes from being a failure with women, and that sick pleasure might be a source of unconscious motivation to self-sabotage. Ask yourself if you're afraid of success.

Let go of prior conditioning that "sex is dirty" and rewire your brain into believing that "sex is a mutually enjoyable activity between two consenting mature adults". This is the frame that you should project when interacting with women.

HIGHLY SPECIFIC BEHAVIORAL TECHNIQUE #14 (HSBT): VERBAL ESCALATION: VERBALIZE SEXUAL ENJOYMENT, AND WHAT YOU ARE GOING TO DO TO HER SEXUALLY.

Verbalize your enjoyment of the physical process to encourage a woman to be more into it. Simply stating "this feels good" superimposes the frame that bodies are to be mutually enjoyed.

Have an unshakeable frame. Don't view sexuality as "creepy" or express any sort of shame over it. This is true even if she projects negative views on sexuality herself. When a woman says something that is judgmental then positively but firmly reframe it by behaving as if what she said was very weird. Reframe a woman's self-sabotage verbalized beliefs into positive ones that are conducive to sex occurring.

HIGHLY SPECIFIC BEHAVIORAL TECHNIQUE #19: REFRAME AND REFOCUS

- Sex isn't "dirty". It is normal.
- Sex isn't "disgusting". It is enjoyable and fun.
- She isn't a "slut". She is adventurous.
- She isn't "drunk".[1] She is "partying".

REFRAME and REFOCUS are techniques that you can use to manage yourself, just like they are techniques that can be used to manage women. When a woman starts saying all sorts of negative things that can self-sabotage the interaction, reframe by deflecting with humor and then refocus by changing the subject

into something that is more conducive to sex occurring.

While it is true that changing a woman's mood leads to changing her mind and it's an effective strategy, smoothly changing a woman's mind also changes her mood. **Changing her mind changes her mood, just like changing her mood changes her mind.**

Reframing is the art of using linguistics to paint a pretty picture that is easier to swallow for a woman who is looking for an excuse to be fucked and not feel guilty about it. She's already looking for a rationalization that she can tell her conscious, so give it to her.

KEY #6

ALWAYS BE ADVANCING FORWARD.

THE KEY THAT UNLOCKS ALL THE DOORS IS TO ALWAYS BE LEADING THE INTERACTION CLOSER TO SEX. ESCALATE. ESCALATE. ESCALATE. If you don't do it then sex might never occur. Don't leave you sex life to chance; be proactive in making shit happen. If you can't escalate then take off your pants and see if you still have balls - or perhaps instead of balls there is a pussy inside there.

ESCALATE MENTALLY, PHYSICALLY AND LOGISTICALLY.

Escalate mentally by simply talking about sex, making sexual jokes, or sexual innuendos, or mentioning it casually.

🔥 Escalate physically by touching her body:

- in increasingly intimate areas,
- more frequently,
- greater intensity,
- longer durations,
- more obvious, and by
- closing in the geopolitical distance between the both of you.

🔥 Escalate mentally by:

- talking about sex *casually* as if it's the most normal thing to do in the world,
- always framing yourself as THE PRIZE,
- framing your touch as THE REWARD,

🔥 Escalate logistically by:

- getting her used to following you around the city,
- knowing where she lives,
- knowing where she works, and
- becoming a part of her lifestyle (either daily, or at a weekly basis).

SEE HER FOR THE SEXUAL CREATURE THAT SHE IS - NOT THE PRUDISH INNOCENT CHURCH GIRL SHE PRETENDS TO BE IN ORDER TO LURE A ROTATION OF WHITE KNIGHTS TO FINANCIALLY SUPPORTING HER

A woman is a sexual creature; she just shows her prudish nature to beta males with weak frames, losers, and guys that treat her platonically. Women WANT TO FUCK - just not with losers that worship the ground they walk on. Women WANT TO FUCK with guys that FUCK - not with sexually inept who don't understand a woman's sexual nature. If you think women are asexual then you are a fucking idiot who has fallen for cultural brainwashing; it's time to open your eyes, son.

Be one of the guys who "just gets it". You get "it" by engaging in a silent form of communication of both of your bodies touching each other at various points in the interaction - something that is happening, but does not have to be verbalized. **A woman sends SILENT SIGNALS that she wants to be fucked because society will judge her harsh (as a "slut!) if she says "I want to be fucked" explicitly.**

If a woman puts herself in a position to be touched:

- by accepting a date,
- going inside your home,
- initiating interactions,

- even though she knows that you are going to try to fuck her, then that is passive acceptance of the frame. It is clear that she wants to be fucked by you by the very fact that she showed up in the first place. **If she didn't want**

to be fucked she wouldn't put herself in a position to be fucked.

At some point, when crossing from social touching to sexual touching: you will make your intent more blatant with a sexual compliment or a sexual statement of intention. When doing this, (again) convey 100% confidence and 100% full belief in yourself. When you OWN YOUR SEXUAL INTENT WITH BULLETPROOF CONFIDENCE; then women will start buying-into your frame. **HAVE NO SHAME IN YOUR GAME.**

When you have a strong sexual intent and OWN IT, you'll find that you will unconsciously start behaving in a manner that leads to sex occurring. When you feel like sex is "dirty" and "disgusting" then your unconscious mind will operate in the background to sabotage you. Believe it or not, some men are afraid of success, so they'll continue to sabotage themselves. Ask yourself as a serious question (that might sound a little too silly, but trust me on this one): **"Am I afraid of the repercussions of success to the point that I am intentionally sabotaging themselves?"**

CONDITION YOUR MIND TO WANT SUCCESS by verbalizing your goals out-loud, writing your goal on a piece of paper (then hanging that piece of paper on a place where you see it frequently) and visualizing your vision every morning when you wake up. Program your mind for success.

KEY #7

YOU ARE THE FIRE AND THE GHOST.

During the process of continuing the physical escalation towards sex, you want to be completely relaxed and in a good mood.

Even if she puts the breaks on, remain emotionally unfazed and still in a good mood. Don't get "bitter". Just withdraw attention and try again later. "No" means "Not right now, but maybe later." She can reject you kissing her 4 times, and still fuck you in the end. As long as you playfully deflect her rejection, it has no meaning to you and thereby, her.

A woman does not even have to like you for sex to occur. Nor is sex the ultimate compliance gauge. It's simply an act that you lead a woman to do because she is getting positive energy, emotional value, and physical from being physically closer with you than by being physically further away from you. Sex is just one form of compliance - along a string of compliance behaviors that you have already trained her to do for you.

HOW TO DEAL WITH PHYSICAL "REJECTION"

"No" means "not yet". Don't get emotionally bitter because then you will have shown that she has affected you in a negative way. Allowing a woman to affect you - on an emotional level - makes you look weak and it (ironically) rewards the very negative behavior that you're trying to stop. Hence, one of the IRON CLAD RULES OF DEALING WITH WOMEN is DON'T BE EMOTIONALLY REACTIVE.

Some men spend their entire lives in constant reaction-mode. They're always reacting to other people around them, being at the effect (not at the cause). They're letting their environment dictate their destiny. FUCK THAT! The correct path is to be proactive.

- YOU deal the cards.
- YOU be at the cause.
- YOU lead.
- YOU be the one who makes the decisions.
- She should be the one who is reacting to you, and playing by cards that you've dealt - rather than vice versa.

Be the one who is being reacted to - not the one who is doing the reacting.

It is preferable to just reframe her rejection of physical escalation as "she's not in the mood at this exact moment because her breakfast wasn't that good" instead of saying "I am ugly and unworthy of sex". Redirect blame to some arbitrary excuse to convey extreme confidence in the field, and verbalize it (for your sake and her sake). When you believe that you are sexy and blatantly disregard evidence to the contrary, women fall into that frame. **In general, it's not you PER SE that she is rejecting, but your approach and merely your presentation of yourself.**

If a woman rejects you on a physical level, you can still bounce back and fuck her later - as long as you don't take it personally, don't let it emotionally affect you, and don't show her that you've taken it as a legitimate rejection. **If you don't view her actions as a final rejection then she won't either.**

Laugh it off. Disregard it. Don't attach importance to her actions of rejecting your physical advances, and she won't attach importance to them either. If you take her actions as a rejection then they will become a rejection. Your perception will become her perception - which is why it's important that you view the situation in a positive light. **Remember: ideas are contagious.**

A confident man doesn't suddenly fall apart and crumble the moment a woman shows disinterest in him. He continues to retain his emotional composure and confidence levels. **Making a physical move on a woman is an incredible show of confidence.**

BE THE FIRE.

- As the fire 🔥, you are the one who is pumping good emotions unto others. You are the life of the party.
- As the fire 🔥, you are self-amused and having a good time - NO MATTER WHAT.
- As the fire 🔥, your life is awesome with her, or without her. You're always on the metaphorical fun bus - having a blast and ENJOYING YOUR EXCITING LIFE. Regardless of whether or not she hops on the fun bus, you will still be having fun.

BE THE GHOST.

- As the ghost 👻, you are immune to the negative emotions of others. You deflect a woman's shit-tests with humor. You aren't

emotionally affected by her bullshit, because you're too busy being on your purpose.

- As the ghost  , you aren't emotionally fazed if a woman is physically unreceptive at the current moment in time because you know you've got the game skills to get another a woman if you wanted to, and you can try again on that specific woman at a later time. **No matter what she does or says, you remain unflinching, unfazed and ON YOUR LIFE PURPOSE.**

---

1. Stay legal. Don't have intercourse with women who are too intoxicated to understand what is going on. I had to put this in for legal reasons.

CHAPTER 35

SUMMARY OF KEYS #5-7

- 🔑 KEY #5: She can sense your level of confidence just by the way that you touch her. **Touch firmly with a sense of certainty.**
- 🔑 KEY #6: Always continue to move the interaction towards sex for life is too short to waste away playing perpetual indirectly waiting games. The right kind of women will stick and the wrong kind of women will filter themselves out and stop wasting their time. **Be proactively in increasing the level of physical intimacy. Escalate on all three levels: physical, logistical and emotional.**
- 🔑 KEY #7: **Don't get bitter or butt-hurt, if you've been rejected on a physical level.** Remain emotionally unfazed, still having a good time and on your life mission. Try again later.

CHAPTER 36

UTILIZE LOVER EXCLUSIVE BEHAVIORS.

ESCALATE MOTHERFUCKER! ESCALATE!!

Once she gets used to light touching, light flirting, and light sexualization then she will start to get a bit bored with that (although hooked), and she will be ready for a greater level of physical intimacy. Now that she been (for lack of a better word) "groomed"/"prepped", you can pick the fruits of the tree and GO HARDER. Prior escalations have set the stage for future escalations; it is a process that takes time to unfold and requires patience.

KEY #8 🔐

BE AGGRESSIVE BUT PACE YOURSELF

Rushing for too much, too fast can lead to compliance denial. But consistently going for a little at a time, and building with time will eventually lead to full compliance.

That being said, take this advice with a grain of salt

and be cognizant of the particular woman you are dealing with (as well, as the unique situation that you find yourself in). **For instance: a more promiscuous woman can be fucked on the same day** that you meet her (even within a couple of hours), as long as you have strong confidence in yourself and what you're doing; so, you can progress physically at a faster pace. There is no reason to escalate slowly if she is down to fuck right now, and you can escalate crazy fast. If I see a guy running nice guy conversations with a woman who is DOWN TO FUCK NOW then I'm going to punch him in the face.

SIGNS SHE IS DOWN TO FUCK TONIGHT:

- #1) She brings up the subject of sex first.
- #2) She give you bedroom eyes.
- #3) She initiates touch.
- #4) She is VERY emotional and submissive - instantly complying to moving within the venue.
- #5) She leaves her friends to be with you in isolation.
- #6) There is no hesitation or resistance when you touch intimate areas of her body. She doesn't move back, flinch, get tense, or ask "What are you doing?"
- #7) She's going out of her way to gulp down more alcohol.
- #8) She compliments your body, or smell.
- #9) She emphasizes parts of her own body by "accidentally" lifting her skirt/shirt, and seeing if you noticed it.
- #10) She is really dependent on you for some

> particular form of value, and will do anything for it - including not object when you physically escalate to the hilt during the date. Keep in mind that you should NOT explicitly state quid pro quo for multiple reasons (besides the reason that it is very illegal, it also conveys that you're extremely insecure and this alone can end potential relationships). Don't go overboard with Tip #10. Keep in mind that when you have game, sex is free.

There are a lot of subtle indicators that a woman is a slut, but that's beyond the scope of this book. However, I'll casually drop this gold nugget here: **a promiscuous woman will engage in instant gratifications that compromise her long-term future such as drug abuse (alcohol, weed, pills), and will mention a large number of prior relationships.** If all of her friends are guys then chances are that she is a slut because the only form of value that she has to offer is her body.

CLIMB THE STEPS OF THE COMPLIANCE LADDER.

You want to start subtly with light flirting, light verbalization of sexual frames, and light touching. Once you see that she is receptive to these then continue to escalate to heavier flirting and heavier touching. Lower levels of physical intimacy, precede high lever levels of physical intimacy in the metaphorical compliance ladder.

Women are like frogs. If you put a frog into a pot of

boiling water then it will immediately jump out. But if you put a frog into a pot of warm water (very subtle) and then slowly increase the temperature - while keeping the frog distracted and giving it food then the frog will stay there until the water's boiling part.

Likewise, don't scare off a woman by being deeply sexual right off the bat.[1] At the beginning, you're a fucking stranger. It's not normal for strangers to express high levels of interest from the very start. It's creepy if someone you never met before is suddenly incredibly unexplainably highly interested in being with you.

Start off with light flirting, and lightly showing intentions. You think she's cute, and attractive, but you aren't sold yet. You are skeptical of her worth. You begin with subtle light touching that you don't draw attention to. **As time goes on, and you see that she is receptive to lower levels of escalation then increase the intensity of the escalation.** Read her body-language to read her level of receptiveness and comfort threshold. The key is to always keep advancing towards sex and escalating on different levels - without giant gestures, without giving a massive speech confessing your deep feelings for her, and without going too fast to the point where the woman feels uncomfortable.

Constantly lead the interaction towards sex at a reasonable pace of progress. Not so fast that she freaks out and gets uncomfortable (breaking her comfort threshold), but not so slow that the interaction is boring, you're unmotivated to continue to pursue, and you're wasting everyone's time. Remember: a woman is designed to wait on the man to act on her, and to be acted upon by a man. **Hence, physical escalation is your responsibility**, so don't wait for a woman to make shit happen on a sexual level; be proactive in making sexual shit happen on your

own. Highlight that last passage. Understand this right now at this moment and you'll save yourself a lot of headache.

That being said once sex is occurring create the frame that you want to **"make love with her"** - not just "to her". Create physical hoops for her to jump through. Initially, guide her physically to touching your body - by literally taking her hand and putting it in right spots; assuming attraction has been created, she'll catch on and play along. Create the frame that she is investing and chasing you - rather than the other way around.

THE DISNEY MYTH

There is no such thing as being super nice to women and then they suddenly fuck you "out of the blue" to "pay you back" for your niceness. Let go of the reciprocity-tripping fallacy and the Disney myth. Women don't owe you sex just because you were nice to them. Sex doesn't just magically happen by itself because you were nice to her and you were such an amazing friend.

You have to create a romantic/sexual frame and lead things towards sex from the start. You have to constantly be leading the interaction towards sex by escalating on an incremental basis. You have to lead. Women find a man who is a dominant decisive leader incredibly attractive, so take that role in the dynamic between you and her.

If you let a woman lead then you might end up with just being with your hand. **A woman often doesn't have sex on the agenda; it's not prudent to let her lead the interaction because her end-game may not end with sex.** Don't leave your sex life to chance, or hope. Leave your sex life to skill. Further, a woman may do all sorts of things that self-sabotage the interaction, so it's

smart for you to take charge and lead from the start. Take control of the situation.

BEHAVE LIKE THE FRIEND, AND YOU'LL BE FRIENDZONED.

If you behave only like a friend, she'll treat you into like a friend and eventually you fall into the friendzone. You put yourself into the friendzone by being "too friendly" and ONLY doing the things that friends normally do to each other. If you always behaved like a friend towards her then why are you surprised that you are in the friendzone?

You should have behaved, like a man who is interested in a woman would behave, to establish a sexual frame and sexualize the interaction. This can be done directly or indirectly. **Utilize sexually-charged behaviors and not just friendly behaviors to create the right frame.**

THE MAIN KEYS:

- Do NOT hide your dick.
- Do NOT behave towards a woman like you are only her friend.
- Do NOT allow a mutually-reciprocated pattern of friend-only behaviors to occur.

THE DIRECT PATH

Behave in a manner that makes it very clear that you are not just a friend. Do things that one who is just a friend would not do. These are known as lover-exclusive behaviors. By behaving like one who is sexual being and sexually

interested in her you'll create a lover frame. By treating her as a sexual being, she'll fall right into that frame of being a sexual being who enjoys pleasure.

- Explicitly state your sexual intent
- Describe in detail (with humor at first) what you are going to do to her body
- Pay her a sexual compliment
- Touch her body in intimate areas

THE INDIRECT PATH

The best way to avoid the friendzone is not get there in the first place. Start interactions with the right man-to-woman frame. After all, how you start an interaction sets the tone for the entire interaction. This can be done with flirting, making moves, touching her body frequently, and sexualized comments. **Often a man finds himself in the friendzone due to a lack of action. He didn't do things that lovers do, so he wasn't categorized in her mind as a lover.**

Remember: it is your actions (or lack of actions) that will create the frame the interaction. If your actions are 100% friendly and 0% sexual then you'll find yourself in the friend category. If your actions contain an element of sexuality then you'll find yourself in the lover category.

Flirting, touching her body frequently, making moves, hitting on her, and stating sexualized comments are specific behaviors that lovers tend to do; hence, if you do them then you will be categorized as a lover. **Create seductive perceptions, behave like a lover and treat her like a lover to enter the loverzone**.

BALANCE

Sometimes an indirect path is used prior to using a direct path because it warms up a woman to the situation and prevents her from being scared off by a man who is too aggressive, and too pushy. **As in all things in life, balance is key. Just like when cooking a meal, the right amount of salt makes a meal delicious, but too much salt makes the meal unbearable.** Likewise, you don't want to be constantly hammering sex all the time. Nor do you want to come on too strong too fast. Read the room. Read her body-language. Find the right balance.

---

1. A good pickup process doesn't look that glorious, stylish and flashy. In fact, it can look pretty boring because it doesn't even look like a pickup (to the untrained eye). It looks like a normal fun interaction between two people. If your pickups look like pickups (instead of spontaneous "accidental" interactions that lead to sex) then chances are that you're coming across as too try hard.

CHAPTER 37

SUMMARY OF KEY #8

- 🗝 KEY #8: Pace yourself. Pushing for too much too fast can lead to negative compliance momentum - where "no" leads to more "no"s down the line. **It's better to go for less initially. Gauge her body-language response. Then escalate at a pace (increasing the intimacy level of your touches at an incremental level) that is according to where she is at.** Highly interested body-language (green light) means that you can escalate crazy fast. Neutral body-language (yellow light) means that you should escalate at a reasonable pace. Negative body-language (red light) mean that you should escalate with micro-escalations with releases/indicators of disinterest (to release tension).

CHAPTER 38

THE "FUCK OR BOUNCE" MENTALITY, NEVER BE FRIENDZONED EVER AGAIN

Act like a friend and you'll be friend-zoned. Behave like a lover, and you'll see her sexual side. **It's your behaviors (what you think, say, and do) that create the mutually acknowledged reality (aka frame).**

Hence, key #1 (mentioned prior): win through action - not through logical debate. If you ask for permission prior to physical escalation then you might find that the answer is "no" because she doesn't want to feel slutty. If you just ACT ON HER BODY then you'll spike her excitement (and endorphins) and she'll backwards rationalize her passive permission as a "yes".

You might be thinking "But that's irrational behavior?" The answer to that is that "Yes, women are creatures of emotion and emotion is not rational." The way of emotions is the way of women - both of which do not operate according to the laws of logic. Women do what feels good - even if it's not exactly rational.

KEY #9

GAUGE HER BODY-LANGUAGE RESPONSE AND CALIBRATE ACCORDINGLY.

While it is true that the one who is emotionally reacting more than the other has less social status, it is also true that you should **meet women where they're at**. Not being emotionally reactive does NOT mean:

- not being emotionally expressive, and
- not calibrating your strategy based on a woman's responses to your move.

On the contrary, **it is prudent to read a woman's responses to your physical escalation moves and calibrate accordingly.**

EVERY PING HAS A PONG.

Women take cues on how to behave based on your behaviors. It's a Ping/Pong Effect. You do something (ping) that creates a psychological, emotional, and behavioral response (pong) from her.

- If your ping contains the frame "I am platonic" then her pong will likewise mirror that.
- f your ping contains the frame "I am interested in you like the way that a man is interested in a woman; I'll treat you like the sexual being that I know you are" then her pong will mirror that as well.

You do something, and she does something in response to what you did. Then you respond to her response. She

responds to your response of her response. **The cycle of responding to each other (in that particular way) continues and the patterns of behaviors become reinforced with time.** As a lot of time passes, you start to develop specific micro-habits of dealing with her, and she develops micro-habits of dealing with you. As mentioned earlier, **a woman is a mirror** to your mentalities, vibe, behaviors, and lifestyle.

The problem is that when a woman is used to treating you as a friend then it became difficult to alter those behaviors (because at this point they have become ingrained habits). Everything that you did with her was from a position of "I am your friend" instead of a position of "I am your lover"; **and every time she behaved according to that perception, the perception became reinforced.** It reaches a point where that perception is fully internalized and you've landed hardcore deep into the friend-guy territory - instead of being in sexual-territory.

This is why the friend-first-fuck-second method of seducing women doesn't work efficiently. Habits can be hard to break, and first impressions tend to be lasting. A woman tends to be consistent with her previous set of behaviors and prior ways of viewing the world - especially that they have been reinforced with many repetitions. Put simply: if she is used to treating you as a friend, then she has already developed those behavioral habits/internalized mentalities, and that shit can be hard to break.

SEVEN RULES OF THUMB:

- #1) **Behave like a friend, and a friend you shall become.**
- #2) **Behave like a lover, and a sexual partner you shall be.**

- #3) **Take forever to invite her out, and forget about you she will.**
- #4) Don't do anything at all, and the answer will always be "no". At the end your life, you'll regret the things you didn't more than the things you did. When in doubt err on the side of boldness. **Doing ANYTHING in the sexual marketplace is better than doing nothing at all.**
- #5) Women value men that value themselves. **Behave like a king, and king she will see.** Pedestalize her and she won't be able to help, but look down on you.
- **#6) See her as a sexual woman, and behave like this portrayed self-image she will.**
- **#7) When physically escalating you have to accept the reality that you might lose the current state of friendship and be 100% okay with that.** If you're afraid to lose a woman you have already lost her because that neediness will leak out.

The best way to not be in the friendzone is to avoid getting there in the first place. You want to establish a man-to-woman frame from the very beginning. When starting interactions with women, you want to "hit the ground running" by setting the right lover frame from the very first seconds of encountering her. By doing this, you leverage human psychology (and the tendencies for behaviors to turn into habits) to your seductive advantage - instead of it working against you.

- This doesn't mean you should start interactions on a deeply sexual level right off the bat.
- This doesn't mean you immediately say things like "Wanna fuck?"
- This doesn't mean you should approach women with a hug that leads to finger-banging within 30 seconds.

Things like this will land you a verbal harassment lawsuit, or jail time. Coming on too strong and too fast can scare a cat off. **Pace yourself.**

FUCK OR BOUNCE

Always be making reasonable progress towards sex; and if you hit a blockade then she has to fuck off. It's FUCK OR BOUNCE. Always be advancing but be patient. Start subtle, and build on that incrementally. Start interactions with light touching, light flirting and light sexualization.

Women are better at reading body-language then men because they've been approached more, so they'll notice subtle indicators that you're sexually interested - even if you don't outright say it. Your body-language is always communicating the truth even if your mouth says nothing. Often you are communicating signals to women about your status within society - without even realizing it. [1] Start becoming conscious of the facial expressions (and other messages) that you are sending out.

Womenese is not just about being good at deciphering the signals that women send out that reveal the truth about the situation, but it is also about being able to send out signals that women will understand.

The "Fuck of Bounce" mindset is about respecting your own time. If you don't respect your own time then expect others to respect it.

---

1. For instance when a guy has a high-end suit, expensive car, and luxury watch, but cheap shoes

CHAPTER 39

SUMMARY OF KEY #9

- 🗝 KEY #9: Don't game blindly. Make physical moves. Gauge a woman's body-language response and calibrate your strategy accordingly.
- Yes, you should NOT be emotionally reacting to her and you should NOT fall into her frame (both of these are low social status behaviors). However, it's still immensely helpful to be emotionally expressive and to strategize based on the current situation that you find yourself by meeting the woman where she is at.
- If you completely ignore where she is at and just fuck her, you'll find yourself with a sexual harassment and sexual assault charge; you have to read the situation.

CHAPTER 40

VIEW HER AS A SEXUAL BEING.

VIEW A WOMAN AS THE PERSON THAT YOU WANT HER TO BE.

One of the fundamental concepts of psychology is: who a person thinks he is, is how he will behave. Self-image is the perception that you have of yourself. Self-image is incredibly important because how you view yourself is how you will behave and will determine what you are capable of achieving.

- If you view yourself as a courageous Alpha Male then you will do things that are aligned with that belief; you will be more prone to behave like an Alpha Male.
- If you view yourself as always tired and weak, then you will physiologically feel tired and weak. If you view yourself as a highly-motivated action-taker then you will find yourself always having energy to achieve your goals.

- If you view yourself as simp, then you will frequently find yourself taking out your wallet as a means to attract a woman into your life (because you falsely believe that money is all that you have to offer).

The body is highly influenced by the mind, just like the mind is influenced by the body. The quality of one's behaviors are consistent with the quality of one's thoughts. Hence, it's important to view yourself in a positive light. This will give you greater levels of confidence, self-esteem and potential. **View yourself and the woman as sexual beings who enjoy living life to the fullest - including partaking of sensual pleasures from enjoying each other's bodies.**

When you have already conditioned a woman to follow your lead - mentally, logistically and physically - then she will naturally follow your lead once things turn sexual. Establish your dominance and lead from the very start. Get her into the behavioral pattern of being submissive and compliant. **It is easy to change a woman's perspective on sex when she is already used to (from prior interactions) accepting your frame as the dominant one and accepting your role as the leader.**

CREATE SEDUCTIVE FRAMES

There has been a famous study done about two different groups of students that were submitted into a school setting. For one group of students, the teacher was told that they were exceptionally gifted and highly intelligent. For the other group of students, the teacher was told that they were average. Over the course of the year, the teacher found himself treating the first group - as if they were very

smart. The result was that treating the students as if they were high IQ radically boosted their test scores - even more than if they were treated as average. The point is: how you treat someone influences their self-image which influences their behaviors.

Treat a woman as a sexual being and you'll see her sexual side. Treat a woman like she is a prude, and (you guessed it): that is the only side of her that you will see. Tell a woman she is "XYZ" and she'll behave to match that compliment. Create perceptions that give you a seductive advantage.

NORMALITY

A good frame to have is that being sexual is very normal, and the expected course of action between two adults who both like each other. If she mentions shame over being sexual then behave shocked. **You want to treat sex as if it is the most normal thing to do in the world.** Treat sex - like "of course (!) that is what two adults do together!" Have the frame that it would be WEIRD to NOT have sex. When you assume the sale has already been done and just TAKE WHAT YOU WANT, you'll find that women will often act in accordance with your expectations. Assume that she will agree to sex rather than asking permission explicitly.

- Don't view sex as a big deal and a "favor" that she does for you. On the contrary, view sex as the most normal action in the world between two consenting adults who like each other and favor that you do for her - because your dick generates pleasure in her body. Talking about sex casually, or embedded in stories is one way

technique to normalize it, as I mention in other parts of this book.

- Don't make women feel guilty or shameful for being sexual with you. Have a non-judgmental perspective and make it clear that you don't kiss&tell. Discretion is a virtue.

View sex as a natural course of action that two adults frequently do. This means owning your sexuality and letting go of the conditioning that you had as child. You may have been brainwashed by your parents that your private parts are "dirty" and enjoying yourself is "disgusting". If you believe sex is "morally wrong" then you'll consciously or unconsciously transmit this viewpoint to her.

A SEXUAL STATE WILL AROUSE HER.

Sometimes a woman will pretend to be a prude and "innocent". She might say something like "I'm not that type of girl" or "You are the first guy that I have ever been with". Just smirk and know that she is lying to your face. Women are incentivized by society to not appear to be "easy" especially when they are seeking a long-term partner.

The key is to have a stronger frame than her. Even if she behaves like she "doesn't even know what sex is", have the stronger frame that she is a sexual-being and she enjoys sex. Keep sustaining this frame throughout the interaction and eventually she'll fall into it.

Continue to have sexual humor and dirty comments - to create a sexual frame - even if she doesn't play along the Rated R frame immediately. It can take a while for a woman to fall into the Rated R frame, but she will fall into to it eventually. The spoken word has real power.

A woman may not admit this because of her ego, but it turns her ON to be sexually desired by you. This lustful state transfers over to her, and activates her own primal desires. A woman is a mirror to your intentions, emotional state and arousal. This is because of mirror neurons within a woman's brain; **she can't help but be influenced by your sexuality, and respond with her own sexuality.**

KEY #10 🔐

VIEW HER AS A SEXUAL BEING

One of the primary keys to having sex is to view the woman as a sexual being. Women have twice as many nerve endings in their clit as you do as you in the head of your penis (8,000 versus 4,000), so it's essential to realize that women enjoy the pleasure of being fucked hard. They have been forced since their childhood to hide their sexual desire, but it still very real. When a woman plays along your seductive advances, she is unconsciously sending the message that she wants you to fuck her; otherwise, she would have walked off a long time ago. When you view a woman as a sexual being then a few things happen:

- You portray this self-image onto her. **When you view her as a sexual being then will start to view herself as a sexual being and then act accordingly.** One's self-image influences behaviors.
- You start behaving towards a sexual manner to her because you know that she actually enjoys sex - despite her prudish facade.

SEXCALATION TECHNIQUE #10: CONVERSATION NORMALIZATION

Talking about sex leads women to wanting to having sex with you. The goal is to normalize sex by just having a conversation about it. Ask simple questions like "Where was the most exotic place that you've ever had sex in?"

SEXCALATION TECHNIQUE #20: THE PIERCING MOVE, MASSAGE HER THROUGH HER PANTS

Foreplay leads to sex. Massage her back and then stimulate her clit - even if she has her pants on.

- Stimulate her clit through her pants.
- Stimulate her clit by sliding your hand inside her pants and on top of her panties.
- Stimulate her clit by sliding your hand inside her panties.

When she is aroused then she won't be able to stop herself from fucking you. Suggest going to somewhere private and she'll quickly comply because she is horny. Already have a nearby fuck location in mind.

CHAPTER 41

SUMMARY OF KEY #10

- 🗝 KEY #10: Self-image impacts behaviors. In other words, it's human nature to act in ways that are in accordance to one's identity. By changing how she views herself, you'll change what she does. Hence, see her as the sexual being that she is, so she'll behave like a sexual creature.

CHAPTER 42

TEST HER.

CUT OUT THE NOISE. READ THE SIGNALS.

A WOMAN WANTS to be swept away into your sexual adventure - even if her ego prevents her from admitting this. A woman desires you to seduce her successfully and create an experience that leads to sex but she can't outright verbalize this because of the stigma associated with those words. **This is why often a woman knows that you desire her sexually and will play along your seductive advances** - while feigning ignorance and not outright saying "I know you want to fuck with me, so let's get to it." **She wants you to lead her through a mutually enjoyable experience that ends with sex and she'll play along to make that happen - without actually saying this directly**.

A woman doesn't want to stuff like "Do XYZ. The take me to GHG. Afterwards, say ABC. Then I'll spread my legs for mutual ecstasy." A woman desires a man that just-gets-it; if she has to explain what you have to do to fuck-her then it takes away from the experience.

Learn to read a woman's body-language signals to determine how sexually receptive to you she is, so you don't have to have to ask the insecure question of "Are you physically attracted to me?" Her body-language, micro-expressions and actions will reveal the truth of the situation. This way you can follow up on leads that have sexual potential and quickly reject leads that are time-wasting sexual dead-ends.

KEY #11 🔐

TRUST THE TOUCHING.

A woman can be verbally dismissive, but if she is physically receptive then this is the number one indicator that she is sexually available. **I repeat: touching is the number one indicator that she is sexually available**. Successful sexual touching leads to her becoming horny and having an uncontrollable desire to be fucked, which leads to her sex.

Learn to TRUST THE TOUCHING for the body does not lie. If she is allowing physical escalation to occur and she is into-it, then she is sexual available. Keep physically escalating all the way to sex. **Gain ground** by increasing the frequency, and intimacy level of your touches. When she's in the bed moaning from pleasure, she'll be thankful that you didn't pussy out. Persistence reveals confidence.

Touching a woman's body forces her to reveal the cards that she is holding. To put it bluntly in layman's terms: you know that she likes you when your dick is deep inside her mouth. You can be an amazing conversationalist and have a fun time on dates, but in the end what actually matters is touching her body and fucking

the shit out of her. **Touch is the real barometer for where you are with a woman.**

YOUR TIME IS WORTH MORE THAN MONEY. Why? Because your time is worth more than life itself. The purpose of money is to help you live life.[1] Life is made of a series of moments that are measured in units of time.

I bet you wouldn't sell a year of life for $35,000 in cold hard cash because life (chunks of time in a sequential series) is priceless. Time is the most valuable resource that you own, so if a woman is taking up that time then she better be damn fucking worth it.

Testing a woman allows you to not waste time on sexual dead-ends, where you invest a lot of time and get almost nothing sexual in return. The more time that is wasted on sexual dead ends, the less time there is leftover for stuff that actually matters:

- investing in leads that are sexually fruitful.
- spending time generating new leads.
- focusing on improving high return on investment skills.
- increasing your sexual market value by improving yourself and refining skills of generating value deemed valuable to women (such as emotional and psychological value).
- focusing on your life mission.

It's worth noting that even if a woman is sexually available, it's important for her to invest into the relationship in order for her to value the relationship. It's human nature to disregard that which is free, while appreciating that which one works for. Create hoops for her to jump through; when she sweats on your behalf, reward her with touch and by giving her physical sensual pleasure.

TOUCHING TESTS (ALSO KNOWN AS "PHYSICAL PINGING")

- Move in very close to her, and see if she stays put, or moves back.
- Squeeze her hand, and see if she squeezes back.
- Wrap your hand around her shoulder and see if she replicates this behavior for you.
- Take her hand and put it on your thigh. Hold it there with your own hand. Then remove your hand and see how long her hand stays on your thigh.

You want to consistently be touching a woman's body because it will give you a lot of information to work with. You'll always know where you stand. Make a move, gauge her response, recalibrate your strategy and then make another move.

Testing is what allows you to quickly read a woman's feelings towards you ("Is she a green, yellow, or red light?") and keeps you informed as to how fast you can escalate. The more information you have about where you stand, the better you will be able to progress forward towards a mutually enjoyable/beneficial long term sexual relationship with a holder of vagina.

---

1. The purpose of money is to help you live your life to the fullest. In contrast, it is absurd to believe that the purpose of life is to make money. Life is just units of time. If you believe money is important than time than you likewise believe that money is more important than life itself.

CHAPTER 43

SUMMARY OF KEY #11

- 🗝 KEY #11: Time is your most valuable resource. It is prudent to know what you want out of the sexual marketplace, and thus be able to see if the woman you are dealing with possess what you want - by testing her. Tests allow you to ascertain the truth. I'm going to make the assumption that you are interested in sex, in which case, physical escalation will reveal if the woman is sexually available. **Touch is the number one indicator of sexual availability.**
- **Testing women is what lets you quickly see if a woman is worth your time, or not.** This alone will save you a lot of time. Women test men all the time and then accept/reject according to the results. It's time that you level the playing field and utilize the same tactics women use on men for your own benefit.

CHAPTER 44

ALWAYS BE TOUCHING.

Get her body used to the enjoyable oxytocin that is released when you touch her frequently and she will come to crave that hormone. Her body is designed to pair bond. All you have to do is to touch her body and those natural feel-good hormones will be released. You are a man, and she is a woman; **nature has a way of naturally bringing things to sex - as long as you keep on touching her body all the time.**

KEY #12 🔐

NORMALIZE.

As long as you frame initial touching as casual, "not a big deal", have some "accidental touching", and don't draw attention to the touching then she will allow this to occur - without even realizing that her biological nature is designed to become addicted to touches.

Drawing attention to the touching by looking at your hand 👆 while you're touching her is inse-

cure behavior. It shows self-doubt and places too much intenseness on the interaction. Physical escalation should appear to be spontaneous, in the moment and is part of the fun of the interaction. Focus on the conversation and look at her face while you're physically escalating. If you notice facial flinches or muscular tension then these are signs that you're about to breach her comfort threshold (or already have breached it), and it's time to withdraw touch. It is important that you withdraw the touch first before she does to create the perception that you are physically rejecting her - rather than the other way around.

Women CRAVE to be touched and sexually desired by a high-status man, but they just can't verbalize this because society will judge them as a stigmatized slut for doing so. Be part of the secret society that "just gets it". Touch her body often and consistently to have her hooked on that hormone. **Women desire to be desired and women crave physical intimacy - even if this is unconscious and even if her ego is too fragile to admit this.**

This principle that women are biologically designed to become addicted to sensual touching is also true in the later stages of seduction. Get her addicted to your body by giving her intense pleasure through triggering her G-spot consistently. Become the source of intense pleasure; a woman will become hooked on a man that satisfies her sexually. This is a little known secret that isn't spoken about: **being good at giving women sexual pleasure gets them hooked into having sex with you.**

Women don't respect a man that doesn't go after what he wants. When she is in bed before you, ravage her completely. Fuck her as hard as you can. Hold nothing back. Dominate her physically in bed. Pull her by the legs. Carry her. Put her in the positions hat you want. **Just like**

you want to dominate her body completely, you want to dominate her mind entirely; fuck her mind, just like you will fuck her body. Women crave to be completely dominated in bed - they just can't say this outright because they're afraid of being judged.

When a man is sexually uninhibited and completely free in his sexual expression then the woman falls into this frame and plays along. When you behave completely sexually unrestricted, you gives her permission to do so the same. It is absolutely crucial that you never judge a woman negatively for expressing her sexuality as this can cause her to shut down. Even if she expresses guilt or shame for being sexual, you should be quick to reframe it as "Sex being normal and natural" and that it's WEIRD to "not have sex."

As a man, it is your responsibility to lead sexually by example. This means having the stronger frame, and getting into a behavioral pattern of leading her (while she follows you).

IRON CLAD RULE OF TOUCHING WOMEN #4

You want to start this by taking charge from the very start of the interaction by touching early. This creates the frame that you're a touchy guy - the kind of frame that you want to have. Do this almost immediately - even touching on the opener itself (when possible).

The touching starts "innocent" and very subtle (almost un-noticable). You start with "innocent" things (included in this category are "accidental" touches).

- High-five (the high five is also a good transition into a handhold)
- Handshake
- Tap her on the shoulder when you have an important point to make.
- Say something sweet and then hug her from the side. However, as time moves on this will progress to a frontal hug.
- When you sit down, you "accidentally" have your legs touching hers.
- When she starts laughing, touch her briefly on the thigh to associate good emotions with your touch.
- "Lets go here!" And take her hand to lead the way.
- When crossing the street or taking her through a crowded area, simply take her hand to guide her path. When you take her hand, maintain eye-contact - to show her that you are OWNING your actions.

YOUR TOUCHING IS OXYGEN.

Touch early and touch often.

A woman who has already been trained to be submissive and comply with your demands - will likewise follow your lead into the sexual realm. If you've conditioned her to do what you want with dozens of mundane tasks, and follow your directions in various simple things then when things suddenly get sexual then she will still continue to be in compliance mode. Every yes, leads to more yeses.

Use dosages of approval to reward good behavior, while withdrawing attention to punish bad behavior. Attention from high status men is the currency that women

value. Now it's time to cross the bridge between social to sexual. A woman's body does a lot of the work for you; all you have to do is touch it in the right areas, at the right times, and in the right sequence.

IRON CLAD RULE OF TOUCHING WOMEN #6

Once you have established touching on normal social areas, it is time to verbalize statements that are more sexualized and to increase the intimacy level of the touching to be more sexual.

As time moves on and her body-language is receptive then escalate the intimacy of the touching:

- Tell her that she has sexy legs and squeeze her leg with your hand.
- Tell her that she has a cute butt, and squeeze her but.
- Take her hand and put it on your lap.
- When her nipples are exposed, suck on them.
- When you're in a fuck location, just whip out your dick.
- When she's on your bed physically lift her up and position her in a way that is the most optimal way for mutual pleasure. Be very dominant.
- Some women enjoy having their hair pulled; this reinforces a dominant frame as touching a woman's face is a dominant gesture.
- Light choking can make her wet.
- Fuck her very hard. Hold nothing back.

IRON CLAD RULE OF TOUCHING WOMEN #7

Be the one to release first.

This creates the frame that she is the one who is chasing you - rather than the other way around. With experience you can sense a woman's muscular tension and release the touching before she releases it - preemptively.

TRAIN HER.

If a woman resists, punish her by taking two steps back, moving physically away from her, and withdrawing attention. This technique is known by a few names including: negative punishment, freeze-out, physical blackmail, and soft nexting.

CHAPTER 45

THE 1-2-3 COMBINATION PUNCH TECHNIQUE FOR ESCALATION

IRON CLAD RULE OF TOUCHING WOMEN #5

There is a physical escalation window when a woman is a heightened emotional state. One effective strategy is to make a woman laugh or shriek from joy, and touch her body - in an intimate matter - at the exact moment when that happens. Her laughter is an open invitation to touch her body in intimate areas.

Push/pull is an extremely effective tactic for heightening a woman's emotional state, and making her crazy about you.

- - Qualify/disqualify
- - Compliment/tease
- - Build rapport/break rapport
- - Statement of interest/statement of disinterest
- - Sending mixed signals

The more intense the emotional state a woman is in, the more susceptible she is to being manipulated into sex. Game is manipulation, and manipulation is game; if that bothers you then put this book down because you aren't ready for the truth. A successful seducer is one who

- The goal is to spike her emotional levels to an apex state, so she is easier to manipulate and lead towards sex.
- Likewise, the goal is to condition a woman to do what you want (and following your leadership) through increasing levels of compliance, so that eventually you will lead her to sex.

IMPLANT THE IDEA OF SEX OCCURRING BETWEEN THE TWO OF YOU - INITIALLY WITH PLAYFULNESS AND HUMOR, BUT THEN WITH FULL-BLOWN SERIOUSNESS.

- "If no one was here right now, I would fuck you right here."
- "Its too bad that I'm a gentlemen or I would do dirty things. We can wait."
- "I can already tell that you last boyfriend didn't spank you enough."
- "Try not to throw your panties on me. I have to effect on women."
- "You just want to use me for sex. I Just want you to know that we're not having sex tonight."

Spike her emotions, watch her have an emotional high, and then escalate at that exact moment.

CHAPTER 46

JUMP INTO THE DEEP END AND IMMERSE YOURSELF

- Go to Google Maps to search up local colleges. Then go to these college websites to see events that are listed. Go to one of these events to socialize. Alternatively, apply to be a college tutor.
- Hit up MeetUp and search for Yoga and Salsa Dancing events. Check on Google Maps for various dance clubs.
- If you live in a rural area where there are few beautiful women, then move to a highly populated city where the options are abundant. This will allow you to go to high vagina traffic areas where you can get a lot of practice done in short amounts of time.

When you dive knee deep into situations where you are forced to interact with women and you're surrounded by many beautiful women, then you won't be able to help yourself but improve.

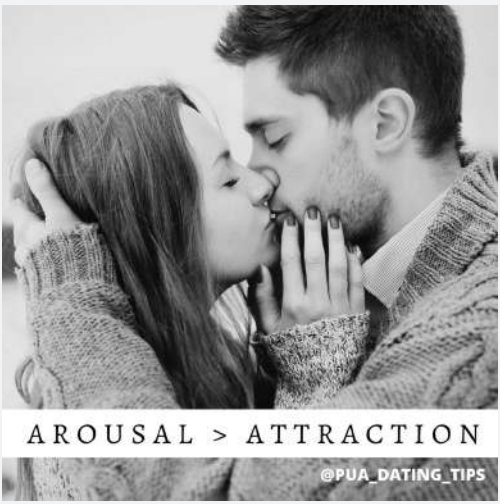

Picking up chicks in college is like taking candy from a

baby. It is extremely easy. It's like throwing yourself in a ocean of VERY ATTRACTIVE fish (where you're forced to interact with this fish because it's everywhere); you're almost guaranteed to get laid by taking a college class - as long as you're not a pussy, take massive action and hit on every girl.

When you jump into a pool of sharks, you'll force yourself to swim or sink. You'll find strength and insights that you didn't know you had.

CHAPTER 47

CREATE AROUSAL.

Female arousal is a physiological response of a woman getting horny and wet. Arousal is physical process created by touching **highly specific areas on her body** that:

- have a lot of nerve endings,

- are highly sensitive, and
- are inherently sexual.

Arousal can be created at any time by metaphorically "punching in a specific code". If you touch specific parts of a woman's body and she becomes aroused, then she won't be able to stop herself from getting an uncontrollable intense desire for sex and fulfilling that desire with your penis. **Just like attraction is not a choice, arousal is not a choice;** both are hardwired biological responses to specific external stimulus.

- Lightly pulling her hair while kissing her
- Massaging her inner-wrist (a surprising area of the body that has nerve endings leading to the vagina)
- Touching/kissing her neck which is a sensitive area
- Caressing the area right about her butt and her inner-thigh.

Brute force is not always the key. Sometimes touching a woman lightly and slowly has a greater impact than touching a woman with intensity. One incredibly powerful technique is to touch a woman's neck with the extreme ends of your fingertips - barely grazing her neck; there are special nerve endings that sense very light touch that aren't activated during heavy touch.

Keep in mind that a woman may be too humiliated to tell you upfront that your sexual touch is turning her ON. You'll be able to tell through her body-language. Is she moving closer? Are her eyes lighting up? Is she positioning your hand into certain places specifically and if so, which places? Further, you can directly tell her "Tell me what

feels really good for you" to learn a woman's specific pleasure spots.

An overall theme of dealing with women in sexual situations is to be very dominant in the bedroom. Be willing to physically lift her up and position her in the places that are the most optimal for mutual pleasure to occur. Tell her to say specific things that make things hotter.

One extremely powerful and absurdly effective technique is to play the daddy and his little girl role-play. I cannot over-empahize how powerful this single technique is. In fact, this one technique is worth the price of this entire book. Create the imaginary role-play that you are her dominant daddy, and she is your submissive little-girl. Refer to yourself in third person with statements such as "Daddy is going to [xyz]" and use the nickname "little girl" when referring to her. For whatever reason, this turns women ON 🔥 like nothing else.

PART III

CHAPTER 48

THE SEXCALATION SYSTEM, THE ESCALATION MODEL

PHASE #1: BREAKING THE TOUCH BARRIER

- Touch very early.
- Start very subtle.
- Start with micro-escalation.
- Touch everyone.

The overall philosophy to Phase #1, is that it's harder to get your foot in the door than it is to enter into the house. Being small, subtle, and brief makes it much easier to start. *But once your foot is in the door, you've opened multiple pathways of escalation from there. This is similar to the business realm: getting a consumer to spend his first $1 is harder than getting a consumer to go from $1 to $50.*

Once a woman is okay with even the smallest tiniest level of physical escalation, she will eventually be okay with something 10X more intense and eventually sex itself because with game skills you can build on the opening that is given to you. It is human nature to get used to something fast; with enough times of repetition, even the "for-

bidden" becomes permissible. ***The point is that even the micro of micros escalation eventually leads to macro escalation.***

PHASE #2: CONDITIONING HER.

- **Touch often to get her hooked.**
- Keep her mood high during the touching process. **Associate positive emotions with you touch.**
- **Use touching as a reward.** Don't frame it as a reward that she gives you. Remember: when done right, touching for women is enjoyable and intensity pleasurable, so it is a gift that you give.

The overall strategy to Phase #2 is that you want to get a woman to be physically addicted to your touch. *Oxytocin is addictive and is released during touching. This is done by touching her frequently. To amplify this even further, go for long durations (such as sitting close together or cuddling - when you're watching a 3D movie, reading a book, or falling asleep). Touch when the vibe is positive to anchor your touch with good emotions.*

The philosophy behind this is that you can't play hard to get if you're hard to want. By giving physical value, you're creating DESIRE in her body, and a WANTING in her mind - even if she is too humiliated to admit this to herself at the current stage. Then this form of value can be used as leverage later - by withdrawing it if she refuses to comply with more intimate touching (a sort of physical blackmail).

PHASE #3A: BYPASSING DEFENSES FOR SOCIAL TOUCHING, SPECIFIC TECHNIQUES:

- **Touch during points, peaks, and questions.** Touch her body on the shoulder when verbalizing an important point in the conversation, or asking a question. Touch her arm to emphasize an important thing that you have to stay in the conversation. When she experiences an emotional peak, there is brief window of escalation when you can touch her a more intimate part of her body.
- **Any excuse is a good excuse for social touching** until the plausible deniability barrier is crossed into sexual touching. Utilize every excuse for social touching. **During sexual touching, you don't need excuses anymore** and you kiss her/finger her whenever you want - as long as your frame is strong and it's done with an ultra high level of confidence.
- SOCIAL TOUCHING EXCUSE **#1: Leverage social conventions.** Huge during greetings and goodbyes - as is standard social convention. Hugs are preferable to handshakes, but if you do end up using a handshake then have it last a few seconds longer than normal.
- SOCIAL TOUCHING EXCUSE #2: **Utilize accidents.**
- SOCIAL TOUCHING EXCUSE #3: **Create advantageous situations.**

- SOCIAL TOUCHING EXCUSE #4: **Tap into her need to feel safe. Don't ask. Assume. Take her hand and lead.**
- SOCIAL TOUCHING EXCUSE #5: **Tap into her need to look good. Fix her up - her clothing, her posture, or taking the hair out of her face.**

PHASE #3B: BYPASSING DEFENSES FOR SOCIAL TOUCHING, GUIDELINES

- Don't draw attention to social touching by looking at it.
- Distract her during the social touching. Utilize "Bullshit Baffles Brains" technique.
- Be the life of the party. Be fun to keep her hooked into the interaction, and having her listen to you - instead of having her focused on the touching that is happening in the background.

PHASE #4: BYPASSING DEFENSES FOR SEXUAL TOUCHING, GUIDELINES

- Know where her comfort threshold is (by sensing muscle tension, hesitation, micro-expressions, withdrawal), and preemptively release first. **Physically reject her to make her chase.**

- **Release and increase.** Always move forward. Be the one to release before she does - preemptively. If you sense she is getting uncomfortable then take a few steps back (removing even social touch), and she'll miss the prior the level that she got hooked to.
- **Punish bad behavior with negative punishment.** Freeze-out when getting compliance denial. Withdraw attention, fun, distance, and all forms of touching (including social touching which she has already been conditioned to enjoy).

PHASE #4B: BYPASSING DEFENSES FOR SEXUAL TOUCHING, HIGHLY SPECIFIC BEHAVIORAL TECHNIQUES (HSBT)

- **Take her on an exciting date to prevent triggering anti-slut defense,** but have her meet you at your house (keep door wide open). Men want to skip to the end results versus women want to experience the process.
- **Make the meetup easy for her by ordering an Uber to her location, and have the Uber go straight to your house.**
- **When leading her, put your hand on her lower back.**
- **Sit next to her - not across from her.**
- Netflix and chill works. The silly meme is true.
- Escalate with a specific compliment.
- Introduce sexuality with humor.

- Normalize sex by talking about it.
- Create an emotional high with shock humor. Then escalate like crazy during a high.
- Isolate.
- Signal discretion.
- Do a simple back massage. Massaging her in the areas of the body that has more nerve endings has a greater impact.
- Physically pick her up and position her.
- Make her horny by massaging her sensitive, pleasure zones such as the clit - even if it's done through her jeans (eventually proceeding to slipping your hand inside her jeans and rubbing her clit through the panties).

PHYSICAL AESTHETICS:

- Trim pubic hair.
- Get rid of acne.
- Work out daily.
- Dress wealthy.

Have a lifestyle that includes meeting women on a daily basis. Practice high demand skills every day - no excuses. Practice every part of the roadmap that leads to sex.

CHAPTER 49

ILLUSTRATIONS

During the pickup phase, hug from the side; then transition to frontal hugs. Does she lean in (and press her body against yours) when you hug her? Do her hands curl when you do a high five? Does she linger in the hug, or does she release quickly? Gauging physical indicators of interest lets you know where you stand, and how fast you can escalate. Life is too short to play waiting games; ***escalate as fast as possible without breaking her comfort threshold, but not faster.***

During the date, site next to her - not across from her. Sit so close that your legs are touching. *Logistics is important to find the venue that will allow this to occur (times, locations, and menu) prior to even taking her there. You should have an arsenal of places that you are used to taking women to, so that when you arrive you already know the venue and have situational confidence. You'll be able tell how much she is enjoying the moment by sensing genuine smiles, sensitivity to laughing, which direction her feet at pointing towards, whether or not she initiates subjects of conversation at her own initiative etc. Even if you can tell that she is enjoying the venue, don't stay for too long because it can stale. It is preferable to take a woman to multiple venues to create a time distortion effect where she feels like she has known you for longer than she actually has.*

Playfully touch her. Humor lets you "get away" with things you otherwise could not.

A bit of wine lowers a woman's inhibitions.

Take a fork of food, and flirtatiously feed her - while calling her cute to reward compliance.

Sexual arousal is contagious. You can transfer your lust unto her. Whisper in her ear, and then kiss her neck.

Travel excites women like nothing else. It's like a glitch in the matrix that is absurdly effective on women. Even mentioning the fact that you've been to multiple countries - embedded in stories through good story-telling delivery - works like magic. On your IG bio, put different flags to show that you're a well traveled man. Take her to an exotic location and make her horny by rubbing her clit through her pants. Once she is horny, take her to a super-close-by fuck location (while keeping her distracted with conversation/music videos the entire way), and fuck her brains out in a discrete isolated location - such as a nearby bathroom, hotel room, her place, or your place. It helps a lot to rent an apartment that is very close to the place where you will be meeting a lot of very young 18-20 year old women (such as a college campus).

CHAPTER 50

SPECIFIC LINES TO USE

NEGGING

- "I don't think you and I are going to get along."
- "I'm not sure about you yet."

SCREENING QUESTIONS

- "Is there more to you than meets the eye?"
- "If you had no chance of failure and you could be anything you want to be in the world, who would you want to be?"

ESCALATION LINES

- "Gosh. You smell good. I'm trying so hard to NOT make out with your right now."

FOR DATES

- Don't do coffee dates. Every person is doing that, so it's very boring for women. Be more creative. Use this line: "We're having a dinner party. I'm having some collected friends. We're all gathering tomorrow at 8:00pm; I'd love for you to join us."

FOR RELEASING

- "Slow it down speed-racer."

PART IV

CHAPTER 51

PLAUSIBLE DENIABILITY

WHAT IS ANTI-SLUT DEFENSE?

Women don't want to feel slutty because they have been conditioned by society that being too promiscuous is evil. She was just brought up to feel this way. She doesn't want to see herself as a slut - even in her own eyes - and certainly in the eyes of other people (who will judge her negatively for it).

DON'T TAKE IT PERSONALLY.

Don't take anything a woman says or does personally. Focus on your improving your game skills overall rather than obsessing over getting a specific girl. Accept women for what they are and playing the game accordingly, rather than getting bitter over what women could be (but aren't). Life is harsh and then we die; fucking deal with it. Complaining about things won't change them, so instead use that same energy to focus on that which is within your realm of control.

DO YOU ONLY WANT A 1 NIGHT STAND AND NOT SEE HER AGAIN NEXT MORNING, OR DO YOU WANT ENDLESS NIGHTS OF SEX?

You can still get 5 minute lays (and not see her again afterwards when she has Buyers Remorse the next morning), but if you want to have a LONG TERM SEXUAL RELATIONSHIP then it is recommended to spend 7 hours getting to know the girl and taking her on various dates before fucking her. By taking things a bit slower and getting to know the girl before fucking her then she will feel like the sex is in the context of a potential relationship - rather than a promiscuous one night stand.

CREATING PLAUSIBLE DENIABILITY FOR THE WOMAN IS A GOOD STRATEGY TO BYPASS HER ANTI-SLUT DEFENSE.

WHAT IS PLAUSIBLE DENIABILITY?

Take the responsibility for physical escalation off her so that she doesn't feel slutty, and put it on yourself. It is your responsibility as a man to lead the interaction towards sex because a woman may feel too slutty to be sexually aggressive - even if she wants to have sex with you. **I repeat: if a woman really likes you, her ego may get into the way of making moves towards you.**

Make the girl feel less slutty by being the sexual aggressor - instead of putting the responsibility on her. When taking a woman to your apartment, she knows that you are going to try to fuck her, but it's still better for you to create a context that is a more romantic, **so sex can seem like it just happened as a byproduct - rather than her direct intention for it to happen.**

Create an excuse and she'll happily play along.

Remember WANT to be seduced. And they WANT to be seduced by guys who just GET IT. Women know what the fuck is going on, but they'll feign ignorance because they would rather enjoy the process and play along (allowing themselves to be swept by the magic of your game) than by focusing on the result and verbalizing what is happening.

Tell her that you're inviting her to your apartment to see the AMAZING VIEW from the roof etc. Create an excuse for her, so she doesn't feel morally guilty later and when she tells her friends about what happened: she will have a legitimate story about that ends in "then things just naturally progressed and we had sex."

Keep in mind that not every girl feels anti-slut defense. Some women are more open minded. However, there are enough women who do experience anti-slut defense mechanisms for me to dedicate a chapter to countering it. Plausible deniability in a nutshell is feeding a woman an excuse that she can tell herself to avoid feeling guilty about having sex outside of wedlock, and doing something that in many cultures is frowned upon.

CHAPTER 52

MICRO ESCALATION

This is escalation that happens so quickly and so brief that it doesn't even feel like actual escalation. This is ideal for when you are breaking the touch barrier by introducing the behavioral habit of touching her body. Starting very subtle gets your foot in the door. From there, increase the level of touch incrementally at a reasonable pace all the way to sex.

The reason why micro-escalation is effective is because it's so subtle and brief that a woman won't even object to it. Then before she knows it, she has been conditioned to accept your touch as the new norm.

One can go from 1mph to 100mph if there's gasoline, but one can't go from 0mph to even 1mph without gasoline. Her accepting your touch - even on the tiniest level - is the gasoline in this metaphor. Once you get in the foot in the door then you can eventually escalate radically, but if your foot isn't even in the door, then further escalation is impossible. That's why a woman accepting even the smallest of touches opens the floodgates for the future.

CHAPTER 53

CRAZY FAST ESCALATION

When a woman is experiencing an emotional high then that is a point in time when you can escalate very fast. The reason for this is because intense emotions shut off the logical, conscious part of a woman's brain that would normally say "hey, you shouldn't do that because of XYZ."

This is why loud parties in college often lead to sex occurring; women are in an intense emotional state and aren't thinking about their actions - including giving into physical instant gratification. If she's highly emotional then she is more susceptible to manipulation.

Good game is about pumping up a woman's emotional state and then escalating during her emotional highs.

CHAPTER 54

BULLSHIT BAFFLES BRAINS

The conscious mind contains the super-ego which is the critical part of the brain. It is the logical part of the brain that can find objections about why she shouldn't be having sex with you, and why shouldn't be increasing the physicality because of stupid reason X, or Z.

In contrast, the primal and emotional sides of the brain are the parts of her that loves instant gratification - including physical pleasure and riskier behaviors. **Activating a woman's primal and emotional sides will unleash her wild sexual side.**

As I mentioned earlier, one effective strategy for keeping the conscious mind away from blocking out sex from occurring (by coming up with bullshit logical reasons) is to get a woman into a highly emotional state. When a woman is in a highly emotional state, her logical part of the bra**in is turned off. She is too busy being wild to think critically. During these moments of susceptibility, there is a brief window when you can escalate crazy fast (gain a lot of ground in a matter of just a moment).** She

is too busy having fun to be conscious (and to care) about what is happening.

Taking a woman to an exotic location through the use of traveling can put her into a highly emotional state and make her incredibly sexually submissive - as long as you capitalize on this scenario fast before she settles in. It's a cheesy tactic (just like Netflix and Chill), but it works.

Traveling with her to an exotic location for a date looks like a sleazy gimmick, but it's actually a highly effective strategy towards making a woman incredibly receptive to intimate physical escalation. Don't do boring coffee dates like the average guy because she's seen that a million times before; be more creative.

Once you've established the habit of erotic touch or having sex then it will be easy for you to continue to do so. The key is to break that ground in the first place. This means that you don't need to travel every time you want to have sex with her (because that's absurd and not even remotely sustainable in the long term). However, it is a highly effective strategy for getting laid the first time with her. Once you've had sex with a particular girl once then the future times are as easy as a walk in the park **- as long as you keep doing the things that made you attractive to her in the first place.**

Another effective strategy for getting a woman to accept physical escalation is to keep her conscious mind distracted with random shit, so she isn't overly self-conscious about the aggressive escalation that is happening at the moment.

It doesn't matter that much what that shit is as long as it's captivating enough to have her distracted enough to not pay attention to the fact that you're physically escalating. In fact, even if it's complete bullshit - as long as it's intriguing

bullshit - then it will keep her mind NOT paying attention to the fact that you are physically escalating. When her mind is distracted then you can physically escalate a lot faster. Hence, watching a movie is a good starting point for physical escalation - especially if it's a scary movie and the lights are off. The stupid memes about "Netflix and Chill" are true.

CHAPTER 55

RELEASING

- Being the first one to release the touch is important because it gives you social power, and creates the frame that you are THE SELECTOR. **Creating physical rejection is a powerful tool because it makes a woman DESIRE YOU.**
- **Sense when she is about to release the touching, and be the one to do it first - preemptively.** The oldest trick in the book is that women want what they can't have; don't you know that? 😉

Keep in mind that this particular piece of advice is very counter-intuitive. Most guys will take as much touching as they can get for as long as they can. I am telling you to push her off - literally. While you might get a bit less touching by being the first one to remove the touching, you've still won because you've created a greater level of desire within her and that desire will lead to more touching down the line. 👉👌
