Bonus: Editing Checklist

Before you hit post, go through this checklist, especially if you're a begginer.

If your video passes everything below, it’s ready.

✅ 1. Script & Structure

☐ The hook starts immediately (no dead intro).
☐ The first 2–3 seconds are dynamic and visually strong.
☐ The script has clear progression (Day / Hour / Amount / Timeline).
☐ The emotional build makes sense from start to finish.

✅ 2. Pacing & Visual Flow

☐ No scene lasts too long.
☐ If something felt slow - you cut it.
☐ Camera motion is varied (not just zoom in / zoom out).
☐ The strongest animations are used in the hook.
☐ No blurry or glitchy frames from Kling.
☐ Zoom or shake effects are subtle, not exaggerated.
☐ Transitions between major timeline shifts (Day 1 → Day 2) are clean.
☐ Color and sharpness adjustments are subtle and consistent.

✅ 3. Audio Balance

☐ Voiceover is clear and dominant.
☐ Voiceover volume is properly boosted (no clipping).
☐ Music sits lower than narration (around –11 dB or adjusted properly).
☐ Sound effects enhance moments without overpowering them.
☐ No sudden jumps in volume.

✅ 4. Text & Branding

☐ Subtitles are readable (stroke enabled, clean font).
☐ Watermark (if used) is subtle and low opacity.
☐ No AI tool watermarks remain.

Final Question

Before exporting, ask yourself:

Would I stop scrolling for this in the first 2 seconds?

If the answer is yes - post it.
